

## MONKKINO 1

# MONKKINO Lemon Squeezer & Zester Manual

Model: 1

## INTRODUCTION

---

Thank you for choosing the MONKKINO Lemon Squeezer. This manual provides essential information for the safe and effective use, maintenance, and care of your new citrus juicer and zester. Designed for efficiency and durability, this tool is crafted from high-quality stainless steel to ensure maximum juice extraction from various citrus fruits while providing a comfortable user experience. Please read this manual thoroughly before first use.

## PRODUCT COMPONENTS

---

Your MONKKINO Lemon Squeezer package includes the following components:

- **Stainless Steel Lemon Squeezer:** The primary tool for juicing citrus fruits. It features an ergonomic handle and a robust pressing mechanism.
- **Stainless Steel Zester:** A complementary tool for grating zest from citrus peels.

## SETUP

Before first use, wash both the lemon squeezer and zester thoroughly with warm, soapy water. Rinse them completely and dry them with a clean cloth. The product is ready for immediate use after cleaning.

## OPERATING INSTRUCTIONS

Follow these steps for optimal juice extraction:

1. **Prepare the Fruit:** Select a fresh lemon, lime, or other small citrus fruit. For best results, roll the fruit on a hard surface with slight pressure before cutting to help release more juice.
2. **Cut the Fruit:** Cut the citrus fruit in half. For larger lemons or oranges, you may cross-cut the halves into quarters for easier fit and more efficient juicing.
3. **Place in Squeezer:** Open the lemon squeezer handles. Place one half of the fruit into the bowl of the squeezer, with the cut side facing down (towards the holes).
4. **Squeeze:** Firmly press the handles together. The design ensures that the juice is extracted efficiently

while seeds and pulp are retained in the bowl.

5. **Collect Juice:** Position a glass or bowl underneath the squeezer to collect the fresh juice.

**1. Cut lemon in half**

**2. Cross cut**

**3. Place the lemon in squeezer**

**4. Squeezing the handles together**

Image: Visual guide demonstrating the four steps of using the lemon squeezer: cutting the lemon, cross-cutting, placing it in the squeezer, and squeezing the handles to extract juice.

The MONKKINO Lemon Squeezer is designed to extract maximum juice with minimal effort, suitable for various culinary applications including cooking, bartending, or direct consumption.

**Extracts all the fresh  
juice and catches  
seeds and pulps  
in no time**

### MAINTENANCE AND CLEANING

Proper cleaning and maintenance will extend the life of your MONKKINO Lemon Squeezer:

- **Immediate Cleaning:** After each use, rinse the squeezer and zester under running water to remove any remaining pulp or juice.
- **Dishwasher Safe:** Both the lemon squeezer and zester are dishwasher safe for convenient cleaning. Place them on the top rack.
- **Hand Washing:** For hand washing, use warm water and a mild dish soap. A small brush can be used to clean the holes in the juicer bowl if necessary.
- **Drying:** Ensure both tools are completely dry before storing to prevent water spots or mineral buildup.
- **Storage:** Store the squeezer in a dry place. The handle features a hanging ring for easy storage on a hook.

**Easy to clean, dishwasher safe!**

**Easy to store, metal hanging ring for storage!**

## TROUBLESHOOTING

If you encounter any issues, refer to the following common solutions:

Problem	Possible Cause	Solution
Low Juice Yield	Fruit not soft enough; fruit too large; incorrect placement.	Roll fruit firmly before cutting. Cut larger fruits into smaller pieces. Ensure cut side of fruit faces down in the bowl.
Difficulty Squeezing	Fruit too large or hard.	Use smaller fruit halves or quarters. Apply steady, firm pressure.
Squeezer feels loose/wobbly	Normal manufacturing tolerance for hinge.	This is typically a minor tolerance in the hinge and does not affect performance or durability. Continue use as intended.
Zester not effective	Incorrect angle or pressure.	Apply light, even pressure and move the zester across the fruit peel at a slight angle. Avoid grating the white pith.

## SPECIFICATIONS

---

- **Brand:** MONKKINO
- **Model:** 1
- **Material:** High-Quality Stainless Steel (Alloy, Stainless Steel)
- **Color:** Silver
- **Product Dimensions:** 8.7"D x 2.8"W x 2"H
- **Finish Type:** Electroplating
- **Recommended Uses:** Citrus Fruits, Grapefruit, Lemon, Orange, Lime
- **Care Instructions:** Dishwasher Safe
- **Capacity:** 0.75 Liters (for juice collection)
- **Power Source:** Manual
- **UPC:** 715002190894
- **ASIN:** B08CT9Y4FJ

## WARRANTY AND SUPPORT

---

MONKKINO is committed to providing high-quality products. While specific warranty details are not provided in this manual, please refer to your purchase documentation or contact MONKKINO customer support for any inquiries regarding product defects or performance issues. Our customer service team is available to assist you with any questions or concerns.

For support, please visit the MONKKINO store on Amazon or contact us through the platform where you purchased the product.
