

## TRU RED TR57323

# TRU RED TR57323 Rollerball Pen Instruction Manual

Fine Point, Red, Dozen/Pack

## INTRODUCTION

---

Thank you for choosing TRU RED TR57323 Rollerball Pens. These pens are designed for smooth, consistent writing with a fine point and vibrant red ink. This manual provides essential information for the proper use and care of your pens.

## SETUP

---

The TRU RED TR57323 Rollerball Pens are ready for immediate use upon removal from their packaging. No assembly is required.

1. **Unpack:** Carefully remove the pens from the dozen-pack packaging.
2. **Remove Cap:** Grasp the pen barrel firmly and pull the cap straight off. Avoid twisting the cap, as this may cause unnecessary wear.
3. **First Use:** Lightly press the pen tip onto a writing surface and begin writing. The free-flow ink system ensures immediate ink delivery.

## OPERATING

---

These rollerball pens are designed for a smooth writing experience. The fine point allows for precise lines and detailed work.

- **Writing Angle:** Hold the pen at a comfortable angle, typically between 45 and 90 degrees to the paper, for optimal ink flow.
- **Pressure:** Apply light to moderate pressure. The free-flow ink system minimizes the need for heavy pressure, reducing hand fatigue.
- **Airplane-Safe:** The pen features an airplane-safe design, meaning the free-flow ink system is engineered to prevent leaks during changes in cabin pressure. This makes them suitable for travel.

## MAINTENANCE

---

Proper maintenance ensures the longevity and performance of your TRU RED rollerball pens.

- **Recap After Use:** Always replace the cap firmly after each use to prevent the ink from drying out and to protect the pen tip.
- **Storage:** Store pens horizontally when not in use to maintain even ink distribution. Avoid storing in direct sunlight or extreme temperatures.
- **Cleaning:** If the pen tip accumulates dust or debris, gently wipe it with a soft, lint-free cloth. Do not use harsh chemicals or abrasive materials.

## TROUBLESHOOTING

---

If you encounter issues with your TRU RED rollerball pen, consider the following solutions:

- **Ink Skipping or Not Flowing:**

- Ensure the cap was not left off, causing the tip to dry.
  - Gently shake the pen to encourage ink flow.
  - Try writing on a different surface or a scrap piece of paper to prime the tip.
  - Check if the ink reservoir is empty.
- **Ink Blotting:**
    - Ensure you are not applying excessive pressure while writing.
    - Check the paper type; some papers may absorb ink differently.

## SPECIFICATIONS

---
