Inserting Your Duvet:

1. **Flip the Duvet Cover Inside Out:** Lay the duvet cover flat on your bed with the opening at the foot of the bed.
2. **Attach Corner Ties:** Locate the eight corner ties inside the duvet cover. Securely tie each corner of your duvet insert to the corresponding tie inside the cover. This prevents the insert from shifting.
3. **Flip and Shake:** Reach inside the duvet cover and grab the top two corners of your duvet insert. While holding these corners, flip the duvet cover right-side out over the insert. Gently shake and fluff until the duvet insert falls into place within the cover.
4. **Close Zipper:** Once the duvet insert is properly aligned, close the hidden zipper closure at the bottom of the duvet cover.
