## PETLIBRO PLAF001

# PETLIBRO Automatic Pet Feeder PLAF001 User Manual

Model: PLAF001 | Brand: PETLIBRO

## INTRODUCTION

The PETLIBRO Automatic Pet Feeder PLAF001 is designed to provide a convenient and reliable feeding solution for your cats and small dogs. This feeder ensures your pet receives meals on a consistent schedule and in controlled portions, promoting healthy eating habits and offering peace of mind for pet owners. Its features include a generous 4-liter food capacity, a 10-second voice recording function to call your pet, and a dual power supply system for uninterrupted operation.

## SETUP

Follow these steps to set up your PETLIBRO Automatic Pet Feeder:

- 1. Unboxing and Initial Assembly:** Carefully remove all components from the packaging. Ensure you have the main feeder unit, food tray, power adapter, and desiccant bag.
- 2. Install Food Tray:** Attach the stainless steel food bowl to the feeder base. It should click securely into place.
- 3. Power Supply:** Connect the 5V AC adapter to the feeder and plug it into a wall outlet. For backup

power during outages, insert three D-size alkaline batteries (not included) into the battery compartment at the bottom of the unit. The feeder will primarily use AC power, switching to battery power automatically if AC power is lost.

4. **Add Desiccant:** Open the top lid of the feeder. Locate the desiccant compartment on the underside of the lid. Place the desiccant bag inside to help keep the food fresh. Close the lid securely, ensuring the lock function is engaged to prevent pets from opening it.
5. **Fill Food Tank:** Pour dry pet food into the 4-liter food tank. The tank can hold approximately 1.4 kg of food. Ensure the food kibble size is between 2-10mm (0.07-0.4 inches) for optimal dispensing.

## OPERATING INSTRUCTIONS

The PETLIBRO Automatic Pet Feeder offers customizable feeding schedules and voice recording features.

1. **Unlock the Control Panel:** Press and hold the lock button (usually represented by a padlock icon) for 3 seconds to unlock the control panel.
2. **Set Current Time:** Press the settings button (gear icon) to enter time setting mode. Use the up/down arrow buttons to adjust the hour and minute. Press the settings button again to confirm.
3. **Set Meal Times and Portions:** The feeder allows for 1 to 4 meals per day, with 1 to 9 portions per meal. Press the settings button to cycle through meal settings (MEAL 1, MEAL 2, etc.). For each meal, use the up/down arrows to set the feeding time and the number of portions. Confirm each setting with the settings button.
4. **Record Voice Message:** Press and hold the microphone button for 3 seconds to begin recording a 10-second voice message. This message will play at each scheduled feeding time to alert your pet. Release the button to stop recording. Press the microphone button once to play back the recorded message.
5. **Manual Feeding:** To dispense food manually, press and hold the manual feed button (often a paw print or food icon) for 3 seconds. One portion of food will be dispensed.

## MAINTENANCE

Regular cleaning and maintenance ensure the longevity and hygiene of your pet feeder.

- **Cleaning the Food Bowl:** The stainless steel food bowl is removable and dishwasher-safe for easy cleaning. Wash regularly to prevent bacterial growth.
- **Cleaning the Food Tank:** The food tank can be detached from the main unit for thorough cleaning. Ensure the tank is empty before removal. Wash with mild soap and water, then dry completely before reattaching. Do not wash the main base unit.
- **Replacing Desiccant:** Replace the desiccant bag every 2-4 weeks to maintain food freshness and

prevent moisture buildup.

- **Paddle and Rotor Replacement:** If the food dispensing paddle or rotor needs replacement, refer to the video below for detailed instructions. This involves loosening screws to remove the old parts and securing the new ones.

## TROUBLESHOOTING

If you encounter issues with your feeder, try the following solutions:

- **Food Not Dispensing:**
  - Check if the food tank is empty.
  - Ensure the food kibble size is appropriate (2-10mm). Larger kibble may cause blockages.
  - Verify that the paddle and rotor are correctly installed and not obstructed.
  - Clean the dispensing chute for any food residue.
- **Power Issues:**
  - Confirm the AC adapter is securely plugged in.
  - Check battery levels if operating on backup power. Replace batteries if necessary.
- **Settings Not Saving:** The feeder has a memory function, so settings should be retained even if power is interrupted. If settings are lost, ensure batteries are installed and functional, or contact support.
- **Resetting All Settings:** To clear all programmed settings, press and hold the up arrow button (or the settings button, depending on model variation) for 3-5 seconds while the unit is unlocked. The display should reset to default.

## WARRANTY INFORMATION

PETLIBRO products typically come with a standard manufacturer's warranty covering defects in materials and workmanship. Please refer to the warranty card included in your product packaging or visit the official PETLIBRO website for specific warranty terms and conditions, including duration and coverage details. Keep your purchase receipt as proof of purchase for warranty claims.

---

## CUSTOMER SUPPORT

For any questions, technical assistance, or support regarding your PETLIBRO Automatic Pet Feeder, please contact PETLIBRO customer service. You can usually find contact information (email, phone, or live chat) on the official PETLIBRO website or through the retailer where you purchased the product. Have your model number (PLAF001) and purchase details ready when contacting support.
