TomTom TomTom GO Discover 7"

TomTom GO Discover 7-Inch Sat Nav User Manual

Model: TomTom GO Discover 7"

INTRODUCTION

The TomTom GO Discover Sat Nav is designed to provide a reliable and effortless navigation experience. Equipped with advanced TomTom technology, this device offers real-time traffic updates, industry-leading maps, and a suite of services including fuel pricing, parking availability, and speed camera alerts. Its intuitive user interface, quick map updates via Wi-Fi, and responsive hardware ensure a smooth and informed journey.

This manual provides essential information for setting up, operating, maintaining, and troubleshooting your TomTom GO Discover 7-inch Sat Nav.

SETUP

What's in the Box

Upon unboxing your TomTom GO Discover Sat Nav, verify that all components are present:

- TomTom GO Discover Device
- Car Charger
- Click-and-Drive Mount
- Quick Start Guide

Förpackningens innehåll

Mounting the Device

The TomTom GO Discover uses a Click-and-Drive Mount for secure attachment to your vehicle's windshield. Ensure the windshield is clean and dry before attaching the suction cup.

1. Attach the Click-and-Drive Mount to the back of your TomTom device. Ensure it clicks securely into place.
2. Press the suction cup firmly against the windshield in a location that does not obstruct your view of the road.
3. Twist the base of the mount to lock the suction cup in position.
4. Adjust the angle of the device for optimal viewing.

Initial Power On and Setup

Connect the car charger to your vehicle's power outlet and to the Micro USB port on the device. The device will power on automatically or can be turned on using the On/Off button located on the side.

- Follow the on-screen prompts to select your language, region, and accept the terms and conditions.
- Connect the device to a Wi-Fi network to enable map updates and live services.
- Register your device with TomTom to access all features and services.

OPERATING

Navigation Basics

The TomTom GO Discover provides clear visual and spoken instructions for your journey. The main screen displays your current location, route, and relevant information.

- **Searching for a Destination:** Tap the search icon on the main map view to enter an address, point of interest (POI), or coordinates.
- **Route Planning:** After selecting a destination, the device will calculate the fastest route. You can choose alternative routes if available.
- **Lane Guidance:** The device provides advanced lane guidance, showing you which lane to be in for upcoming turns and exits.

Image: The TomTom GO Discover's navigation screen showing a detailed map with a highlighted route, current speed, and estimated arrival time, along with traffic and parking icons.

Map Updates

Your TomTom GO Discover comes with precise world maps that can be updated wirelessly via Wi-Fi. Regular updates ensure you have the latest road information, points of interest, and traffic data.

- Connect your device to a stable Wi-Fi network.
- Navigate to the "Settings" menu and select "Maps" or "Updates".
- The device will check for available updates. Follow the on-screen instructions to download and install them.
- Compact map sizes allow for faster downloads without additional cost.

Blixtsnabba kartuppdateringar trådlöst

3x snabbare nedladdning utan extra kostnad

TOMTOM

TomTom Traffic and Speed Camera Alerts

Stay informed about real-time traffic conditions and speed camera locations to optimize your journey and avoid delays.

- **TomTom Traffic:** Provides accurate traffic information, helping you to avoid congestion and calculate precise arrival times.
- **Speed Camera Alerts:** Receive timely warnings about fixed and mobile speed cameras along your route.

TomTom Traffic

Effektiva rutter runt trafiken,
exakta beräknade ankomsttider
och fartkameravarningar

TOMTOM 

Image: The TomTom GO Discover displaying a navigation map with real-time traffic overlays and icons indicating speed camera locations.

Parking Availability and Fuel Prices

The device offers live information to help you find parking and compare fuel prices along your route or at your destination.

- **Parking Availability:** Before you arrive, the sat nav shows you the availability of parking spaces, indicating whether they are vacant or occupied.
- **Fuel Prices:** Access up-to-date fuel price information to help you find the best deals.

Info om parkeringsplatser och bränslepriser

Se lämpliga parkeringsplatser
och bränslepriser längs rutten

TOMTOM

Display and Interface

The TomTom GO Discover features a large 7-inch HD display and a highly responsive touchscreen for effortless interaction.

- **7-inch HD Screen:** Provides a clear view of maps and instructions with premium image sharpness.
- **Responsive Touchscreen:** Easily swipe through settings, zoom in and out of the map view, and navigate menus with quick responsiveness.

7" HD-skärm och kraftfull högtalare

Kristallklar vägledning med en stor skärm, skarp bild och tydligt ljud

MAINTENANCE

Cleaning the Device

To maintain the clarity of your screen and the device's overall condition:

- Use a soft, lint-free cloth to wipe the screen and casing.
- For stubborn marks, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive cleaners.
- Ensure the device is powered off and disconnected from any power source before cleaning.

Battery Care

The device contains a Lithium Ion battery. To prolong its lifespan:

- Avoid exposing the device to extreme temperatures (hot or cold).

- Charge the device regularly, but avoid leaving it fully discharged for extended periods.
- If storing the device for a long time, charge it to about 50% before storage.

TROUBLESHOOTING

Common Issues and Solutions

Issue	Possible Cause	Solution
Device not turning on	Low battery; power cable issue	Connect to car charger; ensure cable is securely connected. Press and hold the On/Off button for 10-15 seconds to perform a soft reset.
No GPS signal	Obstructed view of sky; device in an enclosed area	Move to an open area with a clear view of the sky. Ensure the windshield is not blocking the signal (e.g., metallic tint).
Map updates fail or are slow	Weak Wi-Fi signal; insufficient storage	Ensure a strong Wi-Fi connection. Check available storage on the device and delete unnecessary maps if needed.
Touchscreen unresponsive	Temporary software glitch; screen dirty	Perform a soft reset (hold On/Off button). Clean the screen with a soft cloth.

If you encounter issues not listed here or if the suggested solutions do not resolve the problem, please refer to the [Support](#) section.
