ATOTO AC-4475

ATOTO DAB+ Radio Receiver AC-4475 User Manual

1. Product Overview

The ATOTO AC-4475 DAB+ Radio Receiver is an accessory designed to enhance your in-car audio experience by providing access to Digital Audio Broadcasting (DAB+) stations. This device is specifically engineered for seamless integration with ATOTO A6 and S8 series car stereos, offering a plug-and-play solution for digital radio reception.

To operate the AC-4475, a dedicated ATOTO DAB+ application must be installed on your compatible ATOTO A6 or S8 car stereo. This application is typically pre-installed or can be downloaded and installed manually.

Image 1.1: Front and back view of the ATOTO AC-4475 DAB+ Receiver. The device is a compact black rectangular unit with 'DAB+' branding.

2. Setup and Installation

Installation of the ATOTO AC-4475 is straightforward. It involves connecting the receiver to your ATOTO A6/S8 car stereo and properly positioning the included antenna.

2.1 Package Contents

- ATOTO AC-4475 DAB+ Receiver
- DAB+ Antenna
- USB Cable

Image 2.1: The package includes the DAB+ Receiver, the antenna, and a USB cable. The receiver measures approximately 60mm in length, 29mm in width, and 12.75mm in thickness.

2.2 Connecting the Receiver

1. Locate the 'External Storage' USB port on your ATOTO A6 or S8 car stereo. This port is typically labeled or indicated in your car stereo's manual.
2. Connect the USB connector of the AC-4475 receiver into this designated USB port.
3. Connect the DAB+ antenna to the antenna port on the AC-4475 receiver.
4. Mount the antenna in your vehicle. For optimal reception, it is recommended to mount the antenna on the windshield, ensuring the adhesive part is securely attached and the ground tab (if present) makes proper contact with the vehicle's metal frame.

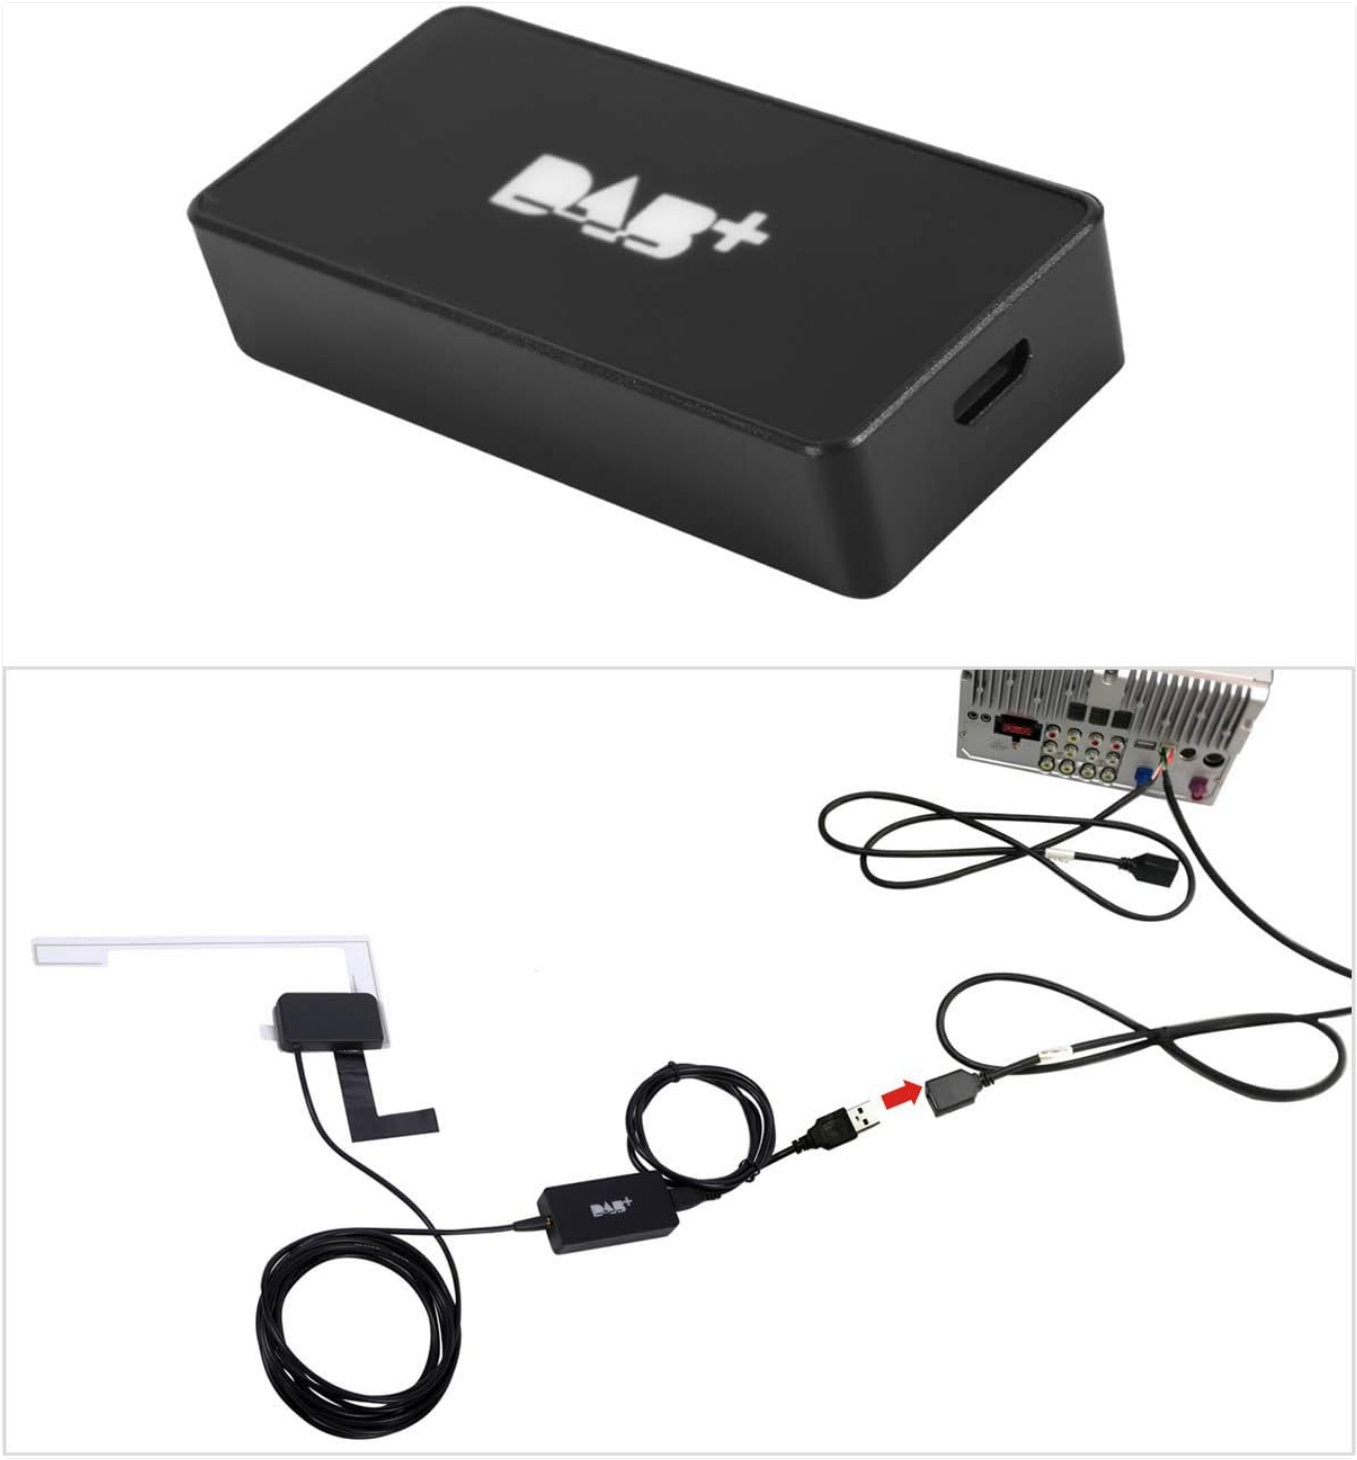

Image 2.2: Connection diagram illustrating how the DAB+ receiver connects via USB to the car stereo, and the antenna connects to the receiver.

2.3 DAB+ Application Installation

While some ATOTO A6/S8 units may have the DAB+ application pre-installed, others may require manual installation. If the application is not present, you will need to download and install the specific ATOTO DAB+ APK file.

- Download the ATOTO DAB+ APK file from the official ATOTO support resources. (Refer to your car stereo's manual or ATOTO's website for the most current download link).
- Transfer the downloaded APK file to a USB drive or directly to your ATOTO car stereo's internal storage.
- Using the file manager on your ATOTO car stereo, navigate to the APK file and tap to install it. Follow the on-screen prompts to complete the installation.

3. Operation

Once the AC-4475 receiver is connected and the DAB+ application is installed, you can begin enjoying digital radio.

3.1 Launching the DAB+ Application

- From the main menu or app drawer of your ATOTO A6 or S8 car stereo, locate and tap the 'DAB+' icon to launch the application.

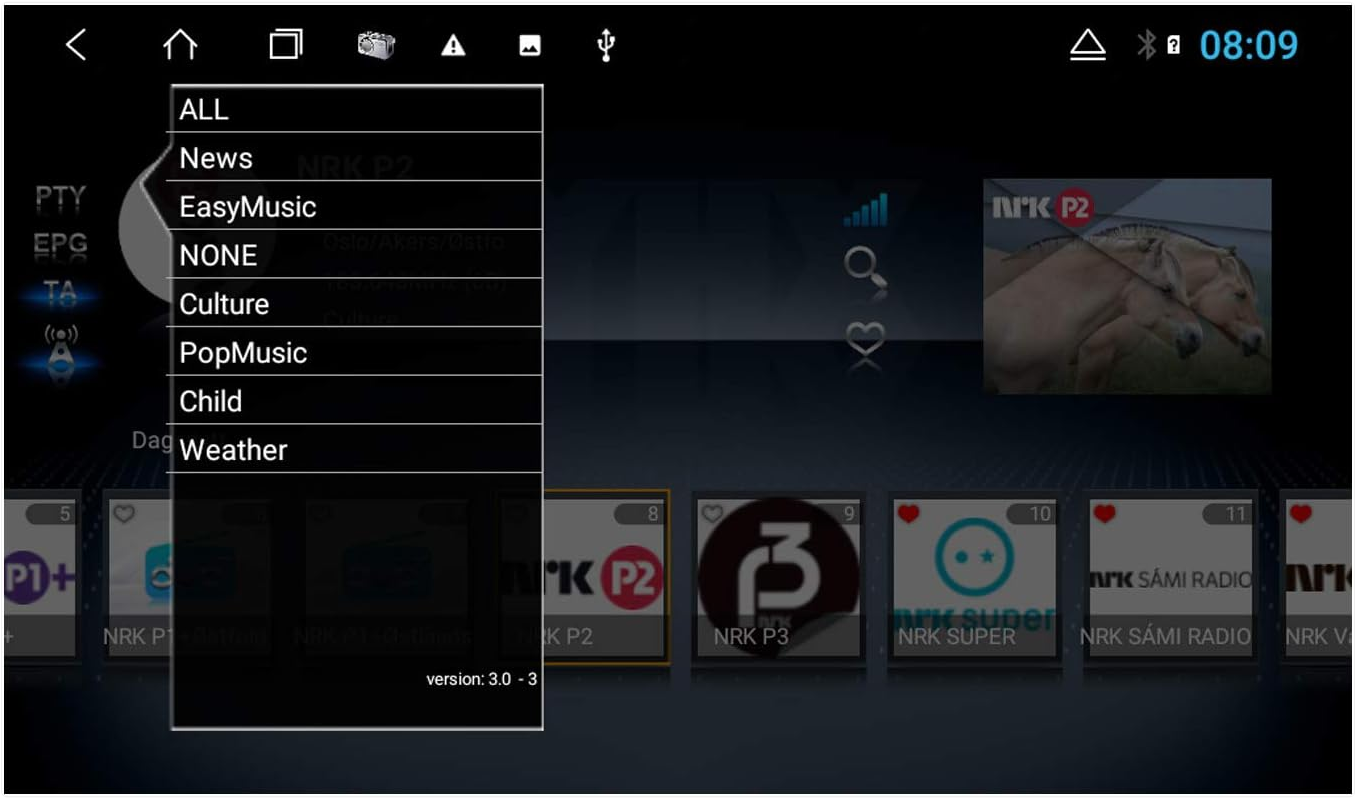

Image 3.1: The DAB+ application icon as it appears on the ATOTO A6 (top) and S8 (bottom) series car stereo interfaces.

3.2 Scanning for Stations

- Upon first launch or when in a new area, the DAB+ application will typically prompt you to scan for available digital radio stations. Follow the on-screen instructions to initiate the scan.
- The application will display a list of detected DAB+ stations. You can then select your preferred station from this list.

Image 3.2: The ATOTO DAB+ application interface displaying a list of available digital radio stations, along with station information and signal strength.

3.3 Sound Quality

DAB+ radio offers superior sound quality compared to traditional FM radio, often described as CD-quality audio. This digital format provides a clearer, more consistent listening experience without the interference common with analog

signals.

4. Troubleshooting

If you encounter issues with your ATOTO AC-4475 DAB+ receiver, consider the following troubleshooting steps:

- **No Signal or Poor Reception:**
  - Ensure the DAB+ antenna is correctly installed and securely connected to the receiver.
  - Verify that the antenna's adhesive part is firmly attached to the windshield and any grounding tab is making proper contact.
  - Check the DAB+ coverage in your area. Digital radio coverage can vary by region.
  - Try repositioning the antenna if possible, or consider using an external antenna booster if reception remains weak in areas with known coverage.
- **DAB+ App Not Launching or Crashing:**
  - Ensure the AC-4475 receiver is plugged into the correct 'External Storage' USB port on your ATOTO car stereo.
  - Verify that the DAB+ application is correctly installed. If issues persist, try uninstalling and reinstalling the application.
  - Ensure your ATOTO car stereo's firmware is up to date.
- **No Sound:**
  - Check the volume settings on your car stereo and within the DAB+ application.
  - Ensure a station is selected and actively broadcasting.
- **Alternative DAB+ Application:**

  Some users report enhanced functionality or performance with third-party DAB+ applications, such as "DAB-Z". If you experience persistent issues or desire more features, you may consider exploring alternative applications compatible with your ATOTO unit.

5. Specifications

Feature	Detail
Brand	ATOTO
Model Number	AC-4475
Color	Black
Connectivity Technology	USB
Special Feature	DAB+ Digital Radio
Compatible Devices	ATOTO A6/S8 series car stereos
Audio Output Mode	Stereo

6. Warranty and Support

ATOTO products typically come with a standard warranty period. For the ATOTO AC-4475, product care is generally

provided for **12 + 6 months**, totaling 18 months, subject to registration and terms.

For technical support, warranty claims, or further assistance, please refer to the following:

- **Order Center:** Contact ATOTO via your order center on the platform where the product was purchased.
- **Eproductcase:** Visit the ATOTO eproductcase portal for support.
- **Email Support:** Reach out to ATOTO support via email at support@atotoglobal.com.

Always provide your product model number (AC-4475) and purchase details when seeking support to expedite the process.
