PUREPLUS CRF950Z

PUREPLUS CRF950Z Water Pitcher Filter Replacement Manual

1. INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of your PUREPLUS CRF950Z water pitcher filter. This filter is designed to provide clean, filtered water for various compatible pitchers and dispensers. Please read these instructions carefully before use.

2. PRODUCT FEATURES

- **Authoritative Certifications:** Utilizes NSF certified coconut shell activated carbon. Meets European EC1935-2004 Regulations, Australia Water Mark, REACH, and is BPA FREE certified. Certified by IAPMO R&T against NSF/ANSI 42 for material safety and chlorine reduction, and NSF/ANSI/CAN 372 for lead-free compliance.
- **Efficient Multi-Stage Filtration:** Features a multi-layer technology combining activated carbon particles and advanced ion exchange resin. Effectively removes 99% of chlorine, 99% of heavy metals (including lead), and reduces over 100 contaminants such as scale, sediment, rust, sand, and impurities.
- **Extended Lifespan:** Each filter provides up to 2 months or 40 gallons of filtered water, depending on usage and water quality.
- **Premium Materials:** Constructed from food-grade, BPA-free, and lead-free materials, ensuring safety and quality.
- **Compatibility:** Compatible with PUR Filter models CRF-950Z, PPF951K, PPF900Z. Also compatible with PUR Pitchers and Dispensers including PPT700W, CR-1100C, DS-1800Z, CR-6000C, PPT711W, PPT711, PPT710W, PPT111W, PPT111R, DS1811Z, CR1100CV3, and more.

CERTIFIED FOR QUALITY

Certified by IAPMO R&T against NSF/ANSI 42 standard for material safety, structural integrity and aesthetic chlorine reduction when used in the CRF-950Z. Replacement component CRF-950Z certified by IAPMO R&T to NSF/ANSI/CAN 372 standard for Lead free compliance.

How to find IAPMO Certification Information?

STEP 1: Go to <http://pld.iapmo.org>.

STEP 2: Select "Listee Name" and enter "AQUAZON" for searching.

STEP 3: Find this model "CRF-950Z" in the listed projects.

Image: Illustration of the filter's lifespan, providing clean water for up to 2 months or 40 gallons.

3. SETUP AND INSTALLATION

Follow these steps to properly install your PUREPLUS CRF950Z water filter:

1. **Step 1: Prepare the Filter.** Gently shake the filter until you hear the granules shifting inside. This helps to settle the filtration media.
2. **Step 2: Soak the Filter.** Submerge the filter in cold water for 15 minutes. This removes any air bubbles that may be trapped within the filter media.
3. **Step 3: Flush the Filter.** Flush the filter under cold running water for 10 seconds.
4. **Step 4: Install into Pitcher.** Insert the prepared filter into the designated slot in your water pitcher or dispenser. Twist the filter clockwise to securely lock it into place. Ensure a snug fit to prevent leaks.

**ENJOY UP TO 2 MONTHS OR
40 GALLONS
WITH A SINGLE FILTER**

* Depending on usage and water quality

Food Grade BPA Free Lead Free

**40
Gallons** **2
Months**

4. OPERATING INSTRUCTIONS

After installation, using your PUREPLUS CRF950Z filter is straightforward:

1. **Fill Pitcher:** Pour tap water into the top reservoir of your compatible pitcher or dispenser.
2. **Filter Water:** Allow the water to pass through the filter into the lower chamber. The filtration process will begin immediately.
3. **Serve:** Once filtered, the water is ready for consumption. Store filtered water in a cool, dark place or refrigerator for optimal freshness.

5. MAINTENANCE

Regular filter replacement is crucial for maintaining water quality and optimal performance:

- **Filter Replacement:** Replace your PUREPLUS CRF950Z filter every **2 months** or after filtering **40 gallons** of water, whichever comes first. This ensures continued effective filtration.
- **Cleaning:** Periodically clean your water pitcher or dispenser according to its manufacturer's instructions to prevent buildup.

6. TROUBLESHOOTING

- **Slow Filtration:** If water filters slowly, it may indicate that the filter is nearing the end of its lifespan or is clogged. Ensure the filter was properly soaked and flushed during installation. If the issue persists after these checks, replace the filter.
- **High TDS Reading:** Our filter is designed to remove harmful substances while retaining beneficial minerals such as potassium, calcium, sodium, and magnesium, which are the main components of inorganic salts. Therefore, the filter may not significantly lower the Total Dissolved Solids (TDS) value. A high TDS reading does not necessarily indicate poor filtration performance for the intended

contaminants.

- **Unusual Taste/Odor:** If you notice an unusual taste or odor in your filtered water, ensure the filter is correctly installed and has been flushed. If the problem continues, replace the filter.

7. SPECIFICATIONS

Brand	PUREPLUS
Model Number	CRF950Z
Material	Food grade material, BPA-FREE without lead
Product Dimensions	2"D x 2"W x 6"H
Item Weight	1.12 pounds (per 4-pack)
Unit Count	4 Count
External Testing Certification	NSF, IAPMO R&T (NSF/ANSI 42, NSF/ANSI/CAN 372)
Product Benefits	Reduces Chlorine, Lead, Heavy Metals, Taste, Odor, Sediment, Rust
Compatible Water Purifier Models	PUR CRF-950Z, PPF951K, PPF900Z, PPT700W, CR-1100C, DS-1800Z, CR-6000C, PPT711W, PPT711, PPT710W, PPT111W, PPT111R, DS1811Z, CR1100CV3

8. WARRANTY AND SUPPORT

For any questions, concerns, or support regarding your PUREPLUS CRF950Z water pitcher filter, please contact PUREPLUS customer service. While specific warranty details are not provided in this manual, PUREPLUS is committed to providing high-quality water filtration solutions.

Note: This is a compatible spare part. This filter is not sourced by or sponsored by Pur. The manufacturer's name and part number have been used for reference purposes only. PUREPLUS is an independent brand.
