Zinus FBOWNM-12Q

ZINUS Wesley Metal Platform Bed Frame (Queen) - Instruction Manual

Model: FBOWNM-12Q

Safety Information | Package Contents | Setup | Operating Instructions | Maintenance | Troubleshooting | Specifications | Warranty & Support

1. Safety Information

Please read and understand all instructions before beginning assembly. Failure to follow these instructions may result in injury or damage to the product.

- **Adult Assembly Required:** This product requires assembly by adults. Keep children away from the assembly area.
- **Weight Capacity:** The Queen size bed frame supports a maximum weight capacity of 700 lbs (including mattress). Do not exceed this limit.
- **Proper Use:** This bed frame is designed for sleeping and resting. Do not stand, jump, or climb on the frame.
- **Check Connections:** Periodically check all bolts and screws to ensure they remain tight. Retighten as necessary.
- **Placement:** Place the bed frame on a level surface.
- **No Box Spring Needed:** This platform bed frame is designed to be used without a box spring. Using a box spring may alter the bed height and stability.

2. Package Contents

Before assembly, verify that all components are present and undamaged. If any parts are missing or damaged, do not proceed with assembly. Contact Zinus customer support for assistance.

Image 2.1: All components of the ZINUS Wesley Metal Platform Bed Frame laid out for assembly. This includes the headboard, side rails, center support, legs, and wooden slats, along with hardware and tools.

The package typically includes:

- Headboard (with wood paneling)
- Side Rails (Left and Right)
- Footboard
- Center Support Beam(s)
- Support Legs
- Wooden Slats (multiple pieces)
- Hardware Pack (bolts, washers, nuts, Allen wrench, ratcheting tool)
- Instruction Manual

3. Setup (Assembly Instructions)

Assembly is designed to be straightforward. It is recommended to have two adults for easier and quicker assembly. Clear a space for assembly and lay out all parts on a soft, clean surface to prevent scratches.

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Refer to the "Package Contents" section and the included instruction manual to identify each part.
2. **Assemble Headboard and Footboard:** Attach the headboard and footboard sections to their respective legs using the provided bolts and the included ratcheting tool. Ensure all connections are secure but do not overtighten initially.
3. **Connect Side Rails:** Attach the side rails to the assembled headboard and footboard sections. Align the holes and insert bolts, securing them with washers and nuts.
4. **Install Center Support:** If your model includes a center support beam, attach it to the designated points on the headboard and footboard or side rails. Install any additional support legs for the center beam.
5. **Place Wooden Slats:** Unroll or individually place the wooden slats across the bed frame. Ensure they are evenly spaced and secured according to the instructions (some slats may have Velcro or plastic caps for attachment).
6. **Final Tightening:** Once all parts are assembled, go back and securely tighten all bolts and screws. Do not overtighten.

Image 3.1: The ZINUS Wesley Metal Platform Bed Frame fully assembled, showcasing the metal frame and wooden slat support system, ready for a mattress.

Image 3.2: A detailed view of the wooden slats, which provide robust support for your mattress without the need for a box spring. Slats are spaced approximately 2.6 inches apart.

4. Operating Instructions

The ZINUS Wesley Metal Platform Bed Frame is designed for optimal mattress support and comfort.

- **Mattress Placement:** Carefully place your Queen size mattress directly onto the wooden slats. This frame is compatible with latex, memory foam, or spring mattresses.
- **No Box Spring:** A box spring is not required or recommended with this platform bed frame. The wooden slats provide sufficient support.
- **Weight Distribution:** Distribute weight evenly across the bed frame. Avoid concentrating heavy loads in one small area.
- **Under-Bed Storage:** The frame provides approximately 12 inches of clearance from the ground, allowing for

convenient under-bed storage.

5. Maintenance

Regular maintenance will help prolong the life and stability of your bed frame.

- **Cleaning:** Wipe the metal frame with a soft, damp cloth. For the wooden headboard, use a dry or slightly damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Check Connections:** Every 3-6 months, inspect all bolts and screws. Tighten any loose connections to maintain stability and prevent squeaking.
- **Slat Inspection:** Periodically check the wooden slats for any signs of damage or cracking. Replace any damaged slats immediately to ensure proper mattress support.

- **Moving the Bed:** When moving the bed frame, lift it rather than dragging it to prevent damage to the legs or frame structure.

6. Troubleshooting

If you encounter any issues with your ZINUS Wesley Metal Platform Bed Frame, refer to the following common solutions:

- **Squeaking Noises:**
  - Ensure all bolts and screws are securely tightened.
  - Check if the wooden slats are properly seated and not rubbing against the frame.
  - Verify the bed frame is on a level surface.
- **Instability/Wobbling:**
  - Confirm all connections are fully tightened.
  - Ensure all support legs are making firm contact with the floor.
  - Verify the bed frame is on a level surface.
- **Mattress Sagging:**
  - Check the condition of the wooden slats. Replace any broken or severely warped slats.
  - Ensure the mattress is compatible with a slat foundation (e.g., not an old, worn-out mattress).
- **Missing Parts:**
  - Carefully re-check all packaging materials.
  - Contact Zinus customer support with your model number and a description of the missing part.

7. Specifications

Feature	Detail
Model Name	Wesley Metal Platform Bed Frame
Model Number	FBOWNM-12Q
Size	Queen
