Garrett Electronics Women's Eva Steel Smartwatch User Manual

MODEL: 5903246284942

Your comprehensive guide to setting up, operating, and maintaining your Garrett Eva Steel Smartwatch.

1. Introduction and Overview

The Garrett Eva Steel Smartwatch is a sophisticated wearable device designed to seamlessly integrate with your daily life. Featuring an IPS color display and a durable steel construction, this smartwatch offers a range of functionalities including health monitoring, notification alerts, and remote control capabilities for your smartphone.

It is compatible with both Android and iOS operating systems, ensuring broad connectivity. The watch is also waterproof, providing durability for everyday use and various activities.

2. Package Contents

Please verify that all items listed below are present in your product packaging:

- 1 x Garrett Women's Eva Steel Smart Watch, Pink
- 1 x Charging Cable
- 1 x User Manual

3. Setup

3.1. Charging the Smartwatch

Before initial use, fully charge your smartwatch. Connect the magnetic charging cable to the charging points on the back of the watch and plug the USB end into a standard USB power adapter (not included) or a computer's USB port. The watch display will indicate charging status.

3.2. Installing the Companion Application

To unlock the full potential of your Garrett Eva Steel Smartwatch, you need to install its dedicated companion application on your smartphone. Search for "Garrett Smartwatch" or a similar app name in your device's app store (Google Play Store for Android or Apple App Store for iOS). Follow the on-screen instructions to download and install the application.

3.3. Pairing with Your Smartphone

1. Ensure Bluetooth is enabled on your smartphone.
2. Open the Garrett companion application on your smartphone.
3. Follow the app's instructions to add a new device. The app will search for available smartwatches.
4. Select "Garrett Eva Steel" or the corresponding device ID from the list.
5. Confirm the pairing request on both your smartphone and the smartwatch if prompted.
6. Once paired, the smartwatch will synchronize data with your phone.

4. Operating Instructions

4.1. Basic Navigation

The Garrett Eva Steel Smartwatch features a responsive touchscreen display. Swipe left, right, up, or down to navigate through different menus and functions. Tap to select an option or confirm an action. The side button typically serves as a power button or a return-to-home button.

4.2. Notifications

Once paired, your smartwatch will display notifications for incoming calls, text messages, and alerts from various applications on your smartphone. You can manage which app notifications appear on your watch through the companion application settings.

4.3. Health Monitoring

- **Heart Rate Monitor:** Access the heart rate function from the main menu. Ensure the watch is snug on your wrist for accurate readings.
- **Sleep Tracking:** Wear the smartwatch to bed, and it will automatically monitor your sleep patterns, providing

data on sleep duration and quality in the companion app.

- **Motion Sensor:** The built-in motion sensor tracks your daily activity, including steps taken and distance covered.

4.4. Remote Camera Control

To use your smartwatch as a remote shutter for your phone's camera:

1. Open the camera function within the smartwatch's menu.
2. Ensure your phone's camera app is open.
3. Tap the camera icon on your smartwatch to remotely trigger your phone's shutter.

4.5. Music Control

Control music playback on your smartphone directly from your smartwatch:

- Navigate to the music control interface on your smartwatch.
- You can play, pause, skip tracks, and adjust volume for music playing on your connected smartphone.

5. Maintenance

5.1. Cleaning Your Smartwatch

To keep your smartwatch in optimal condition, regularly clean the device. Use a soft, lint-free cloth to wipe the screen and body. For stubborn smudges, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive materials, as these can damage the watch's finish or screen.

5.2. Water Resistance

The Garrett Eva Steel Smartwatch is waterproof. This means it is designed to withstand splashes, rain, and brief immersion in shallow water. However, it is not suitable for diving, high-pressure water activities, or prolonged submersion. Avoid exposing the watch to hot water, steam, or corrosive liquids, as this may compromise its water resistance over time. Ensure the charging ports are dry before charging.

6. Troubleshooting

6.1. Smartwatch Not Turning On

- Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
- Press and hold the side button for several seconds to attempt a forced restart.

6.2. Cannot Pair with Smartphone

- Verify Bluetooth is enabled on your smartphone and the smartwatch.
- Ensure the smartwatch is within the Bluetooth range of your phone (typically 10 meters).
- Restart both your smartphone and the smartwatch.
- Clear any previous pairing records for the smartwatch on your phone's Bluetooth settings.
- Ensure the companion app is updated to the latest version.

6.3. Inaccurate Health Readings

- Ensure the watch is worn snugly on your wrist, not too loose or too tight.

- Clean the sensors on the back of the watch.
- Avoid excessive movement during readings.
- Note that smartwatch health readings are for reference only and should not be used for medical diagnosis.

6.4. Notifications Not Appearing

- Check if the smartwatch is properly paired and connected to your phone.
- Verify notification permissions are granted to the companion app in your phone's settings.
- Ensure notifications are enabled for specific apps within the companion application.
- Check if "Do Not Disturb" mode is active on either your phone or smartwatch.
