- **Cleaning:** Wipe the Beystadium with a soft, damp cloth to remove dust and debris. Avoid abrasive cleaners or harsh chemicals.
- **Storage:** Store the Beystadium in a cool, dry place away from direct sunlight when not in use to prevent material degradation.
- **Inspection:** Periodically inspect the stadium for any signs of damage or wear. Discontinue use if significant damage is observed.

TROUBLESHOOTING

If you encounter issues with your Beystadium, consider the following:

- **Tops Not Spinning Correctly:** Ensure your Beyblade Burst tops and launchers are in good condition and assembled correctly. Refer to the instructions for your specific tops and launchers.
- **Tops Flying Out:** While the stadium has high walls, extremely powerful launches or specific top combinations can cause tops to exit the arena. Ensure launches are controlled and within the intended play area.
- **App Connectivity Issues:** Verify your device has an active internet connection and that the Beyblade Burst app is updated to the latest version. Ensure the QR code is clean and well-lit for scanning.
