- **Spills:** Clean up spills immediately to prevent staining or damage to the surface.

7. TROUBLESHOOTING

- **Wobbly Desk:** Ensure all screws and connections are fully tightened. Check that the desk is on a level surface. If necessary, use furniture pads under the legs to stabilize.

- **Drawer Not Sliding Smoothly:** Verify that the drawer slides are correctly installed and aligned. Ensure no obstructions are in the drawer tracks. Lubricate slides with a silicone-based spray if needed.
- **Missing Parts:** If any parts are missing upon unboxing, refer to the 'Package Contents' section and contact Yaheetech customer support with your model number and a description of the missing part.
