GUY-TECH BP3GX1-5A/5X

User Manual: AC/DC Adapter for MicroLife Blood Pressure Monitors

Brand: GUY-TECH | **Model:** BP3GX1-5A/5X

1. PRODUCT OVERVIEW

This GUY-TECH AC/DC Adapter is a high-quality, compatible replacement power supply designed for MicroLife BP3GX1-5A and BP3GX1-5X Blood Pressure Monitors. It provides reliable power to ensure the proper functioning of your device.

Key features include:

- Replacement, non-OEM, but 100% compatible.
- Worldwide input voltage compatibility (100V - 240V).
- Built-in safety features: Over Voltage Output Protection, Over Current Output Protection, and Short Circuit Output Protection.
- Equipped with an LED indicator for power status.
- Cable length of approximately 5 feet for convenient use.

2. SAFETY INFORMATION

Please read and understand all safety instructions before using this product. Failure to follow these instructions may result in electric shock, fire, or damage to the product or connected devices.

- Use this adapter only with compatible devices as specified.
- Do not expose the adapter to water, moisture, or extreme temperatures.
- Avoid dropping or subjecting the adapter to strong impacts.
- Do not attempt to open, modify, or repair the adapter. Refer all servicing to qualified personnel.
- Ensure the power outlet is easily accessible and unplug the adapter when not in use for extended periods.

- Keep out of reach of children.

3. SETUP INSTRUCTIONS

Follow these steps to set up your AC/DC Adapter:

1. **Verify Compatibility:** Ensure your MicroLife Blood Pressure Monitor model is BP3GX1-5A or BP3GX1-5X.
2. **Connect to Device:** Locate the power input port on your blood pressure monitor. Carefully insert the barrel connector of the adapter into this port. Ensure a snug fit.
3. **Connect to Power Outlet:** Plug the AC prongs of the adapter into a standard wall power outlet (100V-240V).
4. **Power Indicator:** Once connected to a live power outlet, the LED indicator on the adapter will illuminate, signifying that power is being supplied.

Image: The GUY-TECH AC/DC Adapter showing the main unit with the plug and the 5-foot power cord coiled, ending in the barrel connector.

4. OPERATING THE ADAPTER

The AC/DC Adapter operates automatically once connected. It converts the alternating current (AC) from your wall outlet into direct current (DC) required by your blood pressure monitor.

- **Power On:** The adapter begins supplying power as soon as it is plugged into a live electrical outlet and connected to the blood pressure monitor.
- **LED Indicator:** The small LED light on the adapter illuminates when power is flowing through the unit,

providing a visual confirmation of operation.

- **Continuous Power:** The adapter is designed for continuous use, providing stable power to your device.

Image: A graphic highlighting two key features: "5 FEET" indicating the cable length and "LED light" referring to the power indicator.

5. MAINTENANCE

Proper care and maintenance will extend the life of your AC/DC Adapter.

- **Cleaning:** Disconnect the adapter from the power outlet and the device before cleaning. Use a soft, dry

cloth to wipe the exterior. Do not use liquid cleaners or abrasive materials.

- **Storage:** When not in use, store the adapter in a cool, dry place, away from direct sunlight and extreme temperatures. Avoid tightly coiling the cable to prevent damage.
- **Inspection:** Periodically inspect the adapter and cable for any signs of damage, such as frayed wires or cracked casing. If damage is found, discontinue use immediately.

6. TROUBLESHOOTING

If you encounter issues with your adapter, try the following troubleshooting steps:

- **No Power/LED Off:**
 - Ensure the adapter is securely plugged into a working wall outlet. Test the outlet with another device.
 - Verify the barrel connector is fully inserted into the blood pressure monitor's power port.
 - Check for any visible damage to the cable or adapter casing. If damaged, discontinue use.
- **Device Not Powering On:**
 - Confirm the blood pressure monitor itself is functioning correctly (e.g., try with batteries if applicable).
 - Ensure the adapter's specifications (voltage, amperage) match the requirements of your blood pressure monitor.

If the problem persists after trying these steps, contact customer support.

7. SPECIFICATIONS

Feature	Detail
Brand	GUY-TECH
Model Number	BP3GX1-5A/5X
Input Voltage	100V - 240V (Worldwide)
Connector Type	Barrel Connector
Cable Length	5 Feet
Color	Black
Item Weight	5 Ounces
Safety Features	Over Voltage, Over Current, Short Circuit Protection

8. SUPPORT

For further assistance, technical support, or inquiries regarding your GUY-TECH AC/DC Adapter, please refer to the contact information provided by your retailer or the manufacturer's official website.

When contacting support, please have your product model number (BP3GX1-5A/5X) and a detailed description of the issue ready.
