## **Mammoth J133427-JK**

# **Mammoth Type 88 Matte Black Wheel Instruction Manual**

Model: 17x9 -6mm Offset for 2007-2018 Jeep Wrangler JK

## **INTRODUCTION**

---

This manual provides essential information for the proper installation, usage, and maintenance of your Mammoth Type 88 Matte Black Wheel. Please read these instructions thoroughly before proceeding with installation or use to ensure optimal performance and safety. This wheel is specifically designed for 2007-2018 Jeep Wrangler JK models.

## SETUP AND INSTALLATION

---

The Mammoth Type 88 wheel features an easy bolt-on installation process. It is recommended that installation be performed by individuals with moderate to expert-level mechanical skills. The estimated installation time per wheel is approximately 10-30 minutes.

### Unboxing and Inspection

Upon receiving your wheel, carefully unbox it and inspect for any signs of damage during transit. Each wheel is packaged with multiple layers of protection to ensure its integrity.

*Video: This video demonstrates the robust packaging and unboxing process for Road Ready Wheels, which applies to the careful handling of your Mammoth wheel.*

### Installation Steps

1. Ensure the vehicle is safely lifted and supported on jack stands.
2. Remove the existing wheel and tire assembly.
3. Clean the wheel hub surface to ensure proper seating of the new wheel.
4. Mount the Mammoth Type 88 wheel onto the hub, aligning the bolt pattern (5 x 127mm or 5 x 5 inches).
5. Install lug nuts and hand-tighten them.
6. Lower the vehicle partially so the tire just touches the ground, then torque the lug nuts to the manufacturer's specified values in a star pattern.
7. Fully lower the vehicle and re-torque the lug nuts after 50-100 miles of driving.

## USAGE AND COMPATIBILITY

---

The Mammoth Type 88 Matte Black Wheel is designed to enhance the appearance and performance of your 2007-2018 Jeep Wrangler JK. Its 17x9 inch size with a -6mm offset and 5x127mm bolt pattern ensures precise fitment and optimal driving stability.

### Vehicle Fitment

- Compatible with 2007-2018 Jeep Wrangler JK models.
- Backspacing: 4.764 inches (121mm).
- Bolt Pattern: 5 x 127mm (5 x 5 inches).

## Featuring 2.5" Lift Kit & 35"x12.5" Tires

## CARE AND MAINTENANCE

To maintain the appearance and longevity of your Mammoth Type 88 wheels, follow these care guidelines:

- Regular Cleaning:** Clean wheels regularly with mild soap and water. Avoid harsh chemicals, abrasive cleaners, or stiff brushes that can damage the matte finish.
- Protective Finish:** The wheels are coated with a durable matte clear coat finish. This finish provides protection against environmental elements.
- Avoid Automatic Car Washes:** Some automatic car washes use strong chemicals or abrasive brushes that can harm the wheel's finish. Hand washing is recommended.
- Tire Mounting:** When mounting new tires, ensure that the tire technician uses proper equipment and techniques to avoid scratching or damaging the wheel.

## TROUBLESHOOTING

If you encounter any issues with your Mammoth Type 88 wheels, consider the following common troubleshooting steps:

- Vibration:** If you experience vibrations after installation, ensure that the wheels are properly balanced and that lug nuts are torqued to specification. Wheel alignment should also be checked.
- Unusual Noises:** Investigate any unusual noises immediately. This could indicate loose components or interference with other vehicle parts.
- Damage:** For any significant damage (e.g., bends, cracks), discontinue use and consult a professional wheel repair specialist or contact customer support.

## PRODUCT SPECIFICATIONS

Feature	Specification
Brand	Mammoth
Model Name	Type 88
Manufacturer Part Number	J133427-JK
Wheel Size	17 Inches
Rim Width	9 Inches
Offset	-6mm
Bolt Pattern	5 x 127mm (5 x 5 inches)
Backspacing	4.764 inches (121mm)
Color	Matte Black
Material	Aluminum Alloy Steel
Item Weight	25.3 pounds
UPC	840179419230

## WARRANTY INFORMATION
