# Intex Pineapple Baby Pool Instruction Manual

Model: 58414EP

## 1. PRODUCT OVERVIEW

The Intex Pineapple Baby Pool is designed for young children aged 1 to 3 years. It features a built-in sunshade for partial protection from sunlight and a soft inflatable floor for comfort. The pool has an approximate water capacity of 12 gallons (45 liters) with a 5-inch wall height. Inflated dimensions are approximately 40 inches (102 cm) long by 37 inches (94 cm) wide.

Image 1: Overview of the Intex Pineapple Baby Pool, highlighting its soft inflatable floor and recommended age range of 1-3 years. Approximate inflated size is 39in x 37in (99cm x 94cm).

## 2. SAFETY INFORMATION

### **WARNING: ADULT SUPERVISION REQUIRED AT ALL TIMES.**

This is not a life-saving device. Children can drown in very small amounts of water. Empty the pool when

not in use. Do not install the paddling pool over concrete, asphalt, or any other hard surface. Keep children within arm's reach. See product for additional warnings and safety labels.

### 3. SETUP INSTRUCTIONS

- Choose a Location:** Select a level, soft surface (such as grass) for setting up the pool. Ensure there are no sharp objects or debris that could puncture the pool. Avoid concrete, asphalt, or other hard surfaces.
- Unfold the Pool:** Carefully remove the pool from its packaging and unfold it completely on the chosen surface.
- Inflate the Pool:** The pool has multiple air chambers. Locate the inflation valves for the main ring, the soft inflatable floor, and the built-in sunshade. Use an air pump (not included) to inflate each chamber until it is firm to the touch but not over-inflated. Ensure all valves are securely closed after inflation.
- Fill with Water:** Once fully inflated, fill the pool with water to the recommended level, which is approximately 5 inches (13 cm) of wall height, or 12 gallons (45 liters). Do not overfill.

Video 1: Demonstration of the Intex Pineapple Baby Pool, showing its inflatable bottom and separate inflation points for the main ring and sunshade. This video provides a visual guide to the setup process.

Little ones can enjoy the outdoors as they splash, play and swim in their own pool with built-in sun shade to protect them from the sun.

- Built-in sunshade provides partial protection from sunlight
- Soft inflatable floor
- Repair patch included

Approximate water capacity:  
12 gal (45L)  
Based on recommended maximum water depth: About 5in (13cm)

**IMPORTANT: ONLY SET UP ON LEVEL GROUND.**

At Intex, we're committed to using clean, safe materials. Our products are independently tested to monitor toxicity and exposure to substances of concern (including Phthalates).

### 4. OPERATING INSTRUCTIONS

Once the pool is set up and filled, children can enjoy splashing and playing. The built-in sunshade offers partial protection from direct sunlight. Always ensure an adult is actively supervising children in and around the pool.

Video 2: A demonstration of the Intex Pineapple Baby Pool, highlighting its bright colors, shallow depth suitable for babies to sit and splash, and the protective sunshade feature.

## 5. MAINTENANCE

- **Cleaning:** Regularly clean the pool with mild soap and water. Rinse thoroughly. Do not use abrasive cleaners or brushes.
- **Draining:** To drain the pool, open the drain valve (if present) or carefully tip the pool to empty the water.
- **Drying:** Ensure the pool is completely dry before deflating and storing to prevent mold and mildew.
- **Storage:** Deflate all air chambers, fold the pool neatly, and store it in a cool, dry place away from direct sunlight and extreme temperatures. Keep it away from sharp objects.

## 6. TROUBLESHOOTING

- **Slow Deflation:** If the pool slowly deflates, check all inflation valves to ensure they are securely closed. Inspect the pool surface for small punctures. A repair patch is typically included with the product for minor repairs.
- **Uneven Inflation:** Ensure all air chambers are inflated evenly. If one section appears softer, add more air to that specific chamber.
- **Water Leakage:** Check for visible tears or holes. Use the provided repair patch according to its instructions to seal any leaks.

## 7. SPECIFICATIONS

Feature	Detail
Brand	Intex
Model Number	58414EP
Product Dimensions (Inflated)	40" L x 37" W x 5" H (102cm x 94cm x 13cm)
Material	Plastic
Capacity	12 Gallons (45 Liters) at 5in wall height
Age Range (Recommended)	12 months - 3 years
Special Feature	Inflatable, Built-in Sunshade, Soft Inflatable Floor
Item Weight	3.5 pounds (1.59 Kilograms)
Included Components	Pool, Repair Patch
