Logitech G 981-001002

Logitech G333 VR Earphones for Oculus Quest 2

Model: 981-001002

1. PRODUCT OVERVIEW

The Logitech G333 VR Earphones are specifically designed for the Oculus Quest 2, providing an enhanced audio experience for virtual reality gaming. These earphones direct audio directly into your ears, minimizing external noise and increasing immersion. They feature a custom-length 3.5 mm cable and straps for seamless integration with the Oculus Quest 2 headset, ensuring wires do not interfere with gameplay. Dual dedicated audio drivers deliver rich, detailed sound for an accurate reproduction of virtual environments.

2. WHAT'S IN THE BOX

The Logitech G333 VR Earphones package includes the following components:

- Logitech G333 VR Earphones
- Three sizes of soft silicone ear tips (Small, Medium, Large)
- User Manual

IN THE BOX

3. SETUP

Follow these steps to set up your Logitech G333 VR Earphones with your Oculus Quest 2 headset:

1. **Select the Correct Ear Tips:** Choose the soft silicone ear tips (Small, Medium, or Large) that provide the most comfortable and secure fit for your ears. A proper fit is crucial for optimal sound quality and noise isolation.

This image illustrates the Logitech G333 VR Earphones connected to an Oculus Quest 2 headset, showcasing the custom-length cable and integrated straps designed to keep the wires neatly managed and out of the way during use.

3. **Secure Cable with Straps:** Utilize the included cable straps to secure the earphone cables along the headset's strap. This prevents dangling wires that could interfere with your VR experience. Ensure the cables are routed to allow comfortable movement and prevent strain on the connection points.

A detailed diagram showing the soft silicone tips, dual audio drivers, aluminum housing, and the custom-length cable designed for the Oculus Quest 2, along with visual cues for proper cable management.

4. OPERATING INSTRUCTIONS

Once connected, the Logitech G333 VR Earphones provide high-quality audio for your Oculus Quest 2. The earphones are designed to deliver an immersive sound experience, enhancing your virtual reality gameplay and media consumption.

- **Immersive Audio:** The dual dedicated audio drivers, with one for highs/mids and one for bass, provide a rich and accurate sound reproduction. This design helps to fully immerse you in the virtual world by delivering clear audio cues and environmental sounds.

TOTAL VR IMMERSION

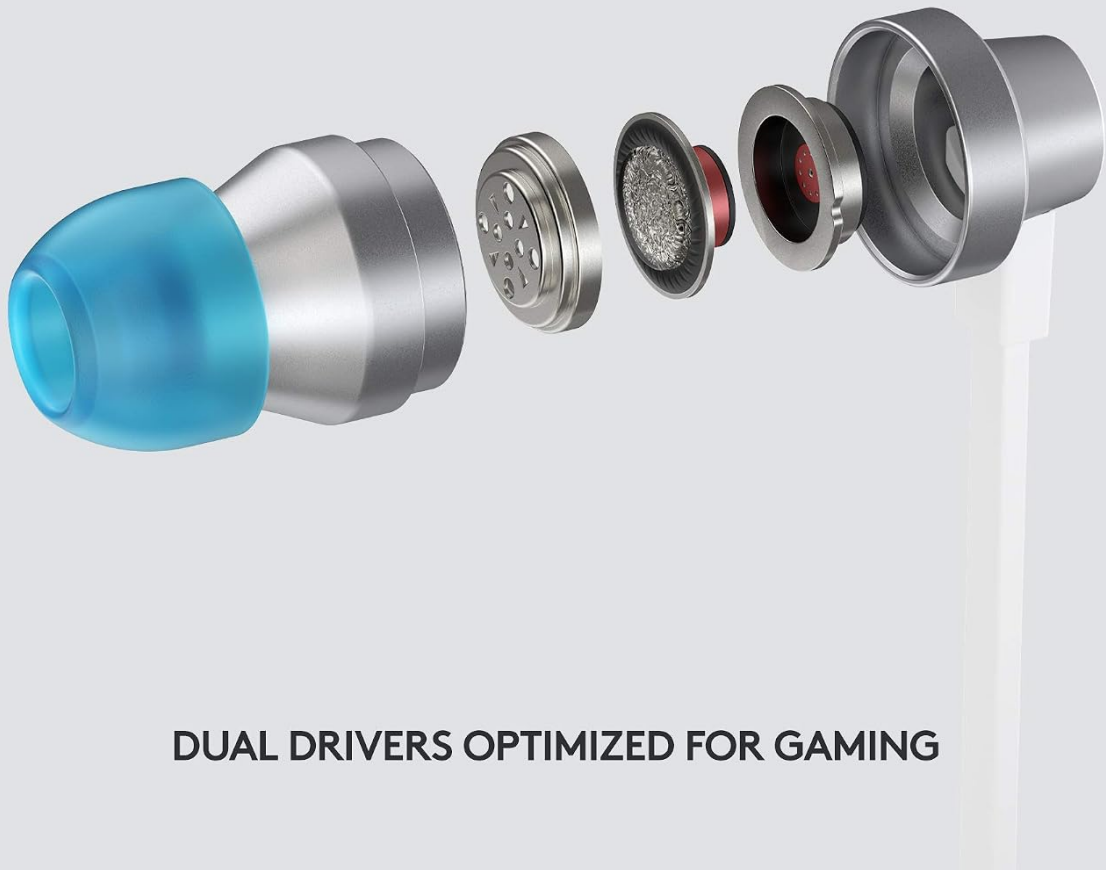

IN-EAR AUDIO
THAT ONLY YOU

An exploded diagram of the earphone's internal components, highlighting the dual drivers optimized for gaming, which separate highs/mids and bass for detailed audio reproduction.

- **Noise Isolation:** The in-ear design and soft silicone tips provide passive noise isolation, reducing distractions from your physical environment and allowing you to focus entirely on the virtual experience.
- **Volume Control:** Adjust the volume directly through your Oculus Quest 2 headset's built-in volume controls.

5. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your Logitech G333 VR Earphones:

- **Cleaning Ear Tips:** Regularly remove the silicone ear tips and clean them with a soft, damp cloth. Allow them to air dry completely before reattaching.
- **Cleaning Earphones:** Wipe the earphone housing and cable with a dry, soft cloth to remove any dust or debris. Avoid using harsh chemicals or abrasive materials.
- **Storage:** When not in use, store the earphones in a clean, dry place, ideally with the Oculus Quest 2 headset, to prevent tangling or damage to the cables and connectors.

6. TROUBLESHOOTING

If you encounter issues with your Logitech G333 VR Earphones, refer to the following common troubleshooting steps:

- **No Sound or Low Volume:**
 - Ensure the 3.5 mm audio plug is fully inserted into the Oculus Quest 2 headset's audio jack.
 - Check the volume settings on your Oculus Quest 2 headset.
 - Verify that the ear tips are correctly attached and seated properly in your ears. An improper fit can significantly affect sound quality and perceived volume.
- **Poor Sound Quality (e.g., lack of bass):**
 - The most common cause is an improper seal in your ear canal. Try different sizes of ear tips to find the best fit that creates a good seal.
 - Ensure the earphones are inserted correctly and securely into your ears.
- **Cables Getting in the Way:**
 - Re-secure the cables using the provided straps along the Oculus Quest 2 headset's head strap.
 - Adjust the cable routing to ensure it is tucked away and does not interfere with your movements.

7. SPECIFICATIONS

Feature	Specification
Brand	Logitech G
Model Name	G333 Gaming Wired
Item Model Number	981-001002
Connectivity Technology	Auxiliary (3.5 mm Jack)
Ear Placement	In Ear
Noise Control	Sound Isolation
Audio Driver Type	Dynamic Driver (Dual)
Frequency Range	20Hz ~ 20KHz
Impedance	24 Ohm
Cable Length	1.2 Meters
Material	Aluminum, Silicone
Item Weight	12 Grams (0.423 ounces)
Compatible Devices	Oculus Quest 2
