RPNB RP50ESA

RPNB Deluxe Safe and Lock Box User Manual

Model: RP50ESA

INTRODUCTION

This manual provides detailed instructions for the setup, operation, and maintenance of your RPNB Deluxe Safe and Lock Box. Designed with reinforced solid steel and a double-cylinder latch, this safe offers enhanced security for your valuables. Please read this manual thoroughly before using your safe.

SETUP AND INSTALLATION

Unboxing and Initial Inspection

Upon receiving your RPNB Deluxe Safe, carefully remove it from its packaging. Inspect the safe for any signs of damage. Ensure all components, including backup keys and mounting hardware, are present.

Figure 1: RPNB Deluxe Safe with interior view.

Battery Installation

The safe's digital keypad requires 4 AA alkaline batteries (not included). Locate the battery compartment on the inside of the safe door. Open the cover, insert the batteries according to the polarity indicators, and close the cover. A short beep will confirm correct installation.

Official Product Video: Safe Overview and Setup

Video: A brief overview of the RPNB ESA Series Electronic Security Home Safe, including key features and initial setup.

Mounting the Safe

Your safe comes with pre-drilled mounting holes and hardware for secure installation in a closet, shelf, or under the floor.

For optimal security, it is highly recommended to bolt the safe to a fixed surface to prevent unauthorized removal.

OPERATING INSTRUCTIONS

Opening the Safe for the First Time (Emergency Key)

For initial access, remove the RPNB logo cover to reveal the emergency keyhole. Insert the emergency key and turn it counter-clockwise while simultaneously turning the knob clockwise to open the safe door. Keep emergency keys outside the safe to avoid being locked out.

2 METHODS OF ENTRY

Turn the key while turning the knob to open the safe
Enter password then turning the knob to open the safe

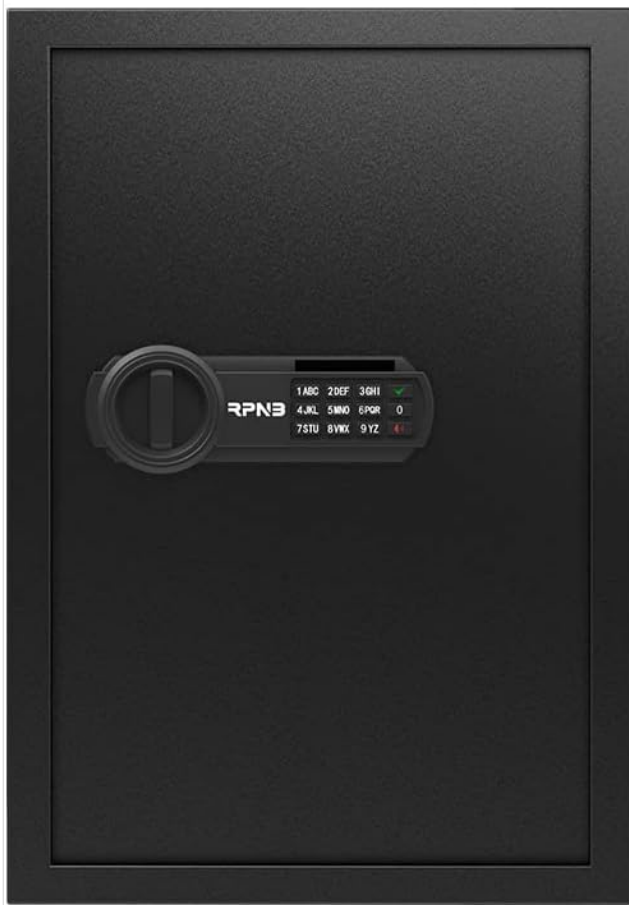

Figure 3: Two methods of entry: Key and Digital Code.

Programming Your Digital Code

With the door open, press the "PROGRAM" button (usually located on the inside of the door near the battery compartment). The green light will illuminate, and you will hear a beep. Enter your new 3 to 8 digit code, then press the confirming button (usually a checkmark or 'E'). A successful programming will be indicated by a beep. If an error occurs, the red light will flash, and you will need to repeat the process.

Opening with Digital Code

Enter your programmed digital code (3 to 8 digits) on the keypad. The green light will illuminate. Turn the knob clockwise within 5 seconds to open the safe door.

Silent Mode

To enable or disable silent mode (keypad sound), press the "Voice Button" (usually indicated by a speaker icon). The green light will flash once to confirm the change.

KEEP VALUABLES

Put your valuables in the safe without worrying about any problems.
Giving you a convenient and safe experience.

MAINTENANCE

Battery Replacement

When the yellow indicator light flashes, it signifies low battery power. Replace all 4 AA alkaline batteries promptly to ensure continuous operation. If batteries completely drain, use the emergency key for access.

Cleaning

Clean the exterior of the safe with a soft, damp cloth. Avoid abrasive cleaners or solvents that could damage the finish.

TROUBLESHOOTING

Forgotten Code

If you forget your digital code, use the emergency key to open the safe. Once open, you can reprogram a new code following the "Programming Your Digital Code" instructions.

Keypad Not Responding

Check the batteries. If they are low or dead, replace them. Ensure they are inserted with correct polarity. If the issue persists, use the emergency key for access and contact customer support.

Door Alignment Issues

If the door does not close or open smoothly, check for any obstructions around the door frame or hinges. Ensure the safe is mounted on a level surface. If the problem continues, contact customer support for assistance.

SPECIFICATIONS

Feature	Detail
Brand	RPNB
Product Dimensions	12.97"D x 13.76"W x 19.65"H
