Guide Gear TS305

Guide Gear 6 Foot Tripod Hunting Tower Blind

MODEL: TS305

Brand: Guide Gear

INTRODUCTION

The Guide Gear 6 Foot Tripod Hunting Tower Blind provides an elevated and concealed position for hunting. Designed for two individuals, this stand offers a stable and comfortable environment, allowing hunters to observe their surroundings without being detected. Its robust construction ensures durability and safety in various outdoor conditions.

Key features include a durable full steel interior frame, a water-resistant 210D polyester shell, and innovative 1-way mesh windows that allow hunters to see out while remaining hidden. The stand is designed to support up to 500 lbs, offering a secure platform for extended periods in the field.

SETUP AND ASSEMBLY

Assembly of the Guide Gear Tripod Hunting Tower Blind requires careful attention to detail to ensure stability and safety. It is recommended to have at least two people for assembly, especially when tightening bolts and raising the structure. All necessary hardware is typically organized by step number in individual bags, simplifying the process. You will need 11mm wrenches for tightening the bolts. An important assembly tip is to first secure the end pieces of the platform before fully tightening the middle sections. This helps align the components correctly and prevents difficulties during later steps.

OPERATING INSTRUCTIONS

The Guide Gear Tripod Hunting Tower Blind is designed for optimal concealment and visibility. Its 1-way mesh windows allow you to see outside clearly while preventing game from seeing inside. These windows can be adjusted silently to suit your needs.

The spacious 4x4 platform is large enough to comfortably accommodate two hunters. For enhanced comfort during long hunts, consider adding rubber flooring tiles to the platform. This can also help reduce noise from movement inside the blind and provide additional insulation against cold winds from below.

MAINTENANCE

To maximize the lifespan of your Guide Gear Hunting Tower Blind, proper maintenance is crucial. While the steel frame is durable and can withstand outdoor elements, it is highly recommended to remove and store the polyester blind cover indoors during the off-season or periods of harsh weather (heavy snow, prolonged rain, intense sun). This will prevent premature fading of the camouflage pattern and extend the material's integrity.

Regularly inspect all bolts and connections to ensure they remain tight and secure. Over time, vibrations and weather exposure can loosen fasteners, compromising the stand's stability. Clean the polyester material with mild soap and water, avoiding harsh chemicals that could damage the fabric or camouflage.

TROUBLESHOOTING

- Noisy Zippers:** The main entry zipper can be loud, especially in quiet hunting environments. To mitigate this, consider applying a silicone-based lubricant to the zipper teeth. When entering or exiting, move slowly and deliberately to minimize noise.
- Large Step Gaps:** The ladder steps have approximately 15-inch gaps, which can be challenging for some users, particularly children or individuals with mobility issues. Exercise caution when climbing. If possible, consider adding temporary step aids or a small, stable stool at the base for easier access.
- Long Barrel Firearms:** While the blind offers ample space, very long barrel firearms (e.g., some air rifles) may require careful positioning to maneuver and aim effectively. You might need to rest the barrel diagonally across corners or use a shooting rest to stabilize it within the blind.

SPECIFICATIONS

Specification	Value
Item Package Dimensions L x W x H	49.41 x 31.5 x 6.89 inches
Package Weight	118.8 Pounds
Item Dimensions LxWxH	49.41 x 31.5 x 6.89 inches
Brand Name	Guide Gear
Color	Mossy Oak Country Roots
Suggested Users	unisex-adult
Manufacturer	Guide Gear
Part Number	TS305
ASIN	B08DCW8WZY

Date First Available

January 15, 2024

WARRANTY & SUPPORT

This product is typically backed by a 30-day easy returns policy. For any questions regarding assembly, operation, maintenance, or troubleshooting, please contact customer support. Details for customer support are usually provided with your purchase documentation or can be found on the manufacturer's official website.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
