## OKK Garden Hose Splitter 2 Way

# OKK Garden Hose Splitter 2 Way Instruction Manual

Model: Garden Hose Splitter 2 Way

## INTRODUCTION

---

Thank you for choosing the OKK Garden Hose Splitter 2 Way. This manual provides essential information for the proper setup, operation, maintenance, and troubleshooting of your new hose splitter. Please read these instructions carefully before use to ensure optimal performance and longevity of the product.

## PRODUCT OVERVIEW

---

The OKK Garden Hose Splitter is designed to convert a single outdoor faucet into two independent water sources. It features a durable metal body with a protective TPU cover and individual shut-off valves for each outlet.

## SPECIFICATIONS

---

- **Product Type:** 2 Way Garden Hose Splitter
- **Material:** Metal Body, TPU Cover
- **Color:** Green
- **Connector Type:** Tee
- **Thread Type:** GHT (Garden Hose Thread)
- **Inlet Size:** 3/4 inch
- **Outlets:** 2 independent 3/4 inch outlets
- **Item Weight:** Approximately 7 ounces

Image: Dimensional drawing of the hose splitter, indicating its compact size.

## SETUP

---

1. **Prepare the Faucet:** Ensure your outdoor faucet is clean and free of debris.
2. **Attach the Splitter:** Screw the female end of the hose splitter onto your 3/4 inch outdoor faucet. Hand-tighten until snug. Do not overtighten, as this can damage the threads or internal washer.
3. **Connect Hoses:** Attach your garden hoses to the two male outlets of the splitter. Hand-tighten each hose connection.
4. **Check for Leaks:** Slowly turn on the water supply from your faucet. Inspect all connections for leaks. If a leak occurs, tighten the connection slightly or check if the rubber washer is properly seated.

## OPERATING INSTRUCTIONS

---

The OKK Garden Hose Splitter features two independent shut-off valves, allowing you to control water flow to each connected hose separately.

- **To Open a Valve:** Rotate the green lever handle for the desired outlet counter-clockwise until it is parallel with the hose.
- **To Close a Valve:** Rotate the green lever handle clockwise until it is perpendicular to the hose.
- You can use one outlet, both outlets, or neither, depending on your watering needs.

Image: Demonstrates various applications for the hose splitter, such as car washing, pet bathing, and garden irrigation.

## MAINTENANCE

- **Regular Inspection:** Periodically check all connections for wear, cracks, or leaks.
- **Washer Replacement:** If leaks persist, inspect the rubber washers inside the connections. Replace them if they appear worn or damaged.
- **Cleaning:** Clean the exterior of the splitter with a damp cloth as needed. Avoid harsh chemicals.
- **Winterization:** In freezing temperatures, disconnect the splitter from the faucet and hoses. Drain any remaining water and store it indoors to prevent damage from ice expansion.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Water leaks from connections	Loose connection, worn or missing rubber washer, damaged threads.	Ensure all connections are hand-tight. Check and replace rubber washers if necessary. Avoid overtightening.

<b>Problem</b>	<b>Possible Cause</b>	<b>Solution</b>
Low water flow from an outlet	Valve not fully open, debris in the splitter or hose, kinked hose.	Ensure the lever handle is fully open. Disconnect and check for debris. Straighten any kinks in the hose.
Splitter difficult to attach/detach	Cross-threading, mineral buildup, damaged threads.	Ensure proper alignment before screwing. Clean threads if mineral buildup is present. If threads are damaged, replacement may be necessary.

## **WARRANTY AND SUPPORT**

---

Specific warranty details for the OKK Garden Hose Splitter 2 Way are not provided in the product information. For any questions, concerns, or support needs regarding your product, please refer to the retailer or manufacturer's customer service channels where you purchased the item. Keep your purchase receipt for potential warranty claims.
