## Maintenance

### Cleaning:

- Wipe the desk surfaces with a soft, damp cloth.
- Avoid using harsh chemicals, abrasive cleaners, or polishes that may damage the finish.
- Promptly clean up spills to prevent staining or water damage.

### General Care:

- Periodically check all screws and fasteners to ensure they remain tight. Re-tighten if necessary to maintain stability.
- Avoid exposing the desk to direct sunlight or extreme temperature changes, which can cause material degradation.
- Do not drag the desk when moving it; lift it to prevent damage to the legs or floor.

## Troubleshooting

### Desk is Wobbly:

- **Check Adjustable Feet:** Ensure all four adjustable feet are making firm contact with the floor. Rotate them clockwise or counter-clockwise to extend or retract until the desk is stable.
- **Tighten Screws:** Verify that all assembly screws are securely tightened. Loose connections can cause instability.
- **Level Surface:** Confirm the desk is placed on a flat, level surface.

### Drawers Do Not Slide Smoothly:

- **Check Drawer Slides:** Ensure the drawer slides are correctly installed and aligned on both the drawer box and the cabinet.
- **Obstructions:** Look for any objects or debris obstructing the drawer slides.
- **Even Assembly:** Confirm that the drawer box itself was assembled squarely. Disassemble and reassemble if necessary.

### Missing or Damaged Parts:

- If you discover any missing or damaged parts upon opening the package, do not proceed with assembly. Contact VASAGLE customer support immediately for replacement parts.
