# CASIO Analog Watch LTP-V007D-1B Instruction Manual

Model: LTP-V007D-1B

## INTRODUCTION

Thank you for choosing the CASIO Analog Watch Model LTP-V007D-1B. This manual provides essential information regarding the proper setup, operation, and maintenance of your new timepiece. Please read these instructions carefully to ensure optimal performance and longevity of your watch.

Image: Front view of the CASIO Analog Watch Model LTP-V007D-1B, featuring a rectangular silver-tone case, a light-colored dial with gold-tone hands, and a two-tone metal bracelet.

## FEATURES

- **Analog Display:** Classic timekeeping with hour, minute, and second hands.
- **Durable Construction:** Features a stainless steel case and bracelet for lasting wear.
- **Water Resistance:** Designed to withstand splashes and brief immersion, suitable for daily use.
- **Quartz Movement:** Provides accurate and reliable timekeeping.
- **Compact Design:** An 11 mm case thickness ensures a comfortable and sleek profile.

## SETUP

### Setting the Time

1. **Pull out the crown:** Gently pull the crown (the small knob on the side of the watch case) out to the first click position.
2. **Adjust the hands:** Rotate the crown to move the hour and minute hands to the desired time.
3. **Push in the crown:** Once the time is set, push the crown back in to its normal position. The second

hand will begin to move, indicating the watch is operating.

## Adjusting the Bracelet

The metal bracelet of your CASIO watch can be adjusted to fit your wrist comfortably. This typically involves removing or adding links. For precise adjustment, it is recommended to visit a professional jeweler or watch repair service. They have the specialized tools and expertise to adjust the bracelet without damaging it.

## OPERATING THE WATCH

---

Your CASIO Analog Watch is designed for straightforward operation. Once the time is set, the watch will continuously display the current time. No further daily adjustments are typically required unless the time needs to be reset due to travel or daylight saving changes.

## MAINTENANCE

---

### Cleaning Your Watch

To maintain the appearance of your watch, wipe it periodically with a soft, dry cloth. For metal bands, a soft brush can be used to remove dirt from the gaps between links. Avoid using harsh chemicals or abrasive materials, as these can damage the watch's finish.

### Battery Replacement

The watch is powered by 1 CR2 battery (included). When the battery runs low, the watch hands may stop moving or operate erratically. Battery replacement should be performed by a qualified technician to ensure the watch's water resistance and proper functioning are maintained.

## WATER RESISTANCE

---

This CASIO watch is marked as "WATER RESISTANT." This means it is suitable for everyday use and can withstand splashes, rain, and brief immersion in water. However, it is **not** designed for swimming, diving, or showering, as prolonged water exposure or high water pressure can compromise its seals. Avoid operating the crown while the watch is wet.

## TROUBLESHOOTING

---

### Watch Not Running

- **Check the crown:** Ensure the crown is fully pushed in to its normal operating position.
- **Battery:** The battery may be depleted. Contact a professional for battery replacement.

### Incorrect Time Display

- **Reset the time:** Follow the "Setting the Time" instructions in the Setup section.
- **Magnetic interference:** Strong magnetic fields can affect quartz watches. Keep the watch away from magnets.

## SPECIFICATIONS

---

<b>Model Number:</b>	LTP-V007D-1B
