## SETUP

## 1. Charging the Earbuds and Case

Before first use, fully charge the earbuds and the charging case.

1. Place the earbuds into the charging case. Ensure they are correctly seated to make contact with the charging pins.
2. Connect the Micro USB charging cable to the charging port on the case and the other end to a USB power source (e.g., computer USB port, wall adapter).
3. The indicator lights on the case and/or earbuds will show the charging status. Refer to the indicator light section for details (if applicable, otherwise assume standard behavior).
4. Once fully charged, disconnect the charging cable.

*Note: A full charge provides approximately 5 hours of operating time for the earbuds.*

## 2. Pairing with a Bluetooth Device

The earbuds use Bluetooth 5.0 for a stable wireless connection.

1. Ensure the earbuds are charged.
2. Open the charging case and remove both earbuds. They will automatically power on and enter pairing mode. You may hear an audio prompt or see flashing indicator lights.
3. On your Bluetooth-enabled device (smartphone, tablet, etc.), go to the Bluetooth settings and turn Bluetooth on.
4. Search for available devices. You should see "T'nB FEAT" or a similar name appear in the list.
5. Select "T'nB FEAT" to connect. Once connected, you will hear a confirmation tone or the indicator lights will change.
6. The earbuds are now paired and ready for use. They will automatically reconnect to the last paired device when removed from the case, if Bluetooth is enabled on the device.
