Walker Edison 59" Havana Sliding Slat Door 4 Drawer Sideboard

Model: BU59HAV4DREBDW

INTRODUCTION

Thank you for choosing the Walker Edison 59" Havana Sliding Slat Door 4 Drawer Sideboard. This urban modern sideboard is designed to provide versatile storage and enhance the aesthetic of your living space. Featuring a two-tone design, four deep drawers, and two unique sliding slat doors, it offers both style and functionality. This manual provides essential information for safe assembly, proper usage, and effective maintenance of your new furniture piece.

SAFETY INFORMATION

Your safety is paramount. Please read and adhere to the following safety guidelines:

- To prevent tipping, ensure the cabinet is level and securely placed on a flat, stable surface. Consider using anti-tip hardware if available and recommended for your specific installation.
- Exercise caution when opening and closing drawers to avoid pinching fingers or injury from the cutout handles.
- Do not overload drawers or shelves. Distribute weight evenly to maintain stability and prevent damage.
- Keep small parts and assembly hardware out of reach of children and pets during assembly.
- Always follow the provided assembly instructions carefully. Incorrect assembly can lead to instability and potential injury.

SETUP AND ASSEMBLY

Assembly of this sideboard requires patience and attention to detail. It is recommended to have at least two people for assembly due to the weight and size of the components.

Before You Begin:

- Clear a spacious area for assembly.
- Unpack all components and lay them out. Verify that all parts and hardware listed in the separate assembly instructions are present.
- Familiarize yourself with the different types of hardware and panels.

Assembly Tips:

- Follow the step-by-step assembly instructions provided in the packaging. Do not skip steps.
- Do not overtighten screws, especially when working with engineered wood, as this can strip the material.
- Ensure all connections are secure before moving to the next step.
- Pay close attention to the orientation of parts, particularly drawer slides and leg attachments, to ensure proper alignment and functionality.

OPERATING AND USAGE

The Walker Edison Havana Sideboard is designed for versatile storage in various rooms, including the kitchen, dining room, or living room.

- **Drawers:** The four deep drawers operate on smooth telescoping metal glides, ensuring easy opening and closing. Use the integrated cutout handles for access.
- **Sliding Slat Doors:** The two unique slat doors slide horizontally to reveal or conceal storage compartments. This allows for customizable display and storage options.
- **Adjustable Shelves:** The interior features adjustable shelves, allowing you to customize the storage space to fit various items.
- **Cord Management:** The sideboard includes cord management ports, making it suitable for media components or devices requiring power access. It can accommodate TVs up to 65 inches.

MAINTENANCE

Proper care will help maintain the appearance and longevity of your sideboard.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or polishes that may damage the finish.
- **Spills:** Immediately wipe up any spills to prevent staining or damage to the engineered wood.
- **Heat and Moisture:** Avoid placing hot items directly on the surface. Use coasters or protective pads. Keep the sideboard away from direct sunlight and excessive moisture.
- **Moving:** When moving the sideboard, always lift it rather than dragging it to prevent damage to the legs and frame.

TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Drawers Not Aligning/Sliding Smoothly:**
Check that the drawer slides are installed correctly and are not bent. Ensure all screws securing the slides are tightened. Sometimes, slight adjustments to the slide placement can resolve alignment issues.
- **Sliding Doors Sticking or Falling Out:**
Verify that the tracks are clear of debris. Ensure the doors are properly seated in their top and bottom tracks. If a door comes off, carefully re-seat it by aligning the rollers with the track mechanism.
- **Sideboard Appears Unstable or Wobbly:**
Confirm that the sideboard is on a level surface. Check all leg attachments and ensure they are securely tightened. The adjustable center foot should be properly installed and adjusted to provide additional stability.
- **Missing or Damaged Parts:**
If you discover any missing or damaged parts during assembly, refer to the Warranty and Support section for

contact information.

SPECIFICATIONS

Feature	Detail
Brand	Walker Edison
Model Number	BU59HAV4DREBDW
Color	Ebony/Dark Walnut
Material	Engineered Wood
