## INFAC CLTT23

# INFAC CLTT23 Steel Gun Safe Instruction Manual

Model: CLTT23 | Brand: INFAC

## 1. INTRODUCTION

---

This manual provides essential information for the safe and proper installation, operation, and maintenance of your INFAC CLTT23 Steel Gun Safe. Please read these instructions carefully before using the product and retain them for future reference. This gun safe is designed to securely store up to 23 firearms with scopes, featuring an interior lockable compartment and adjustable shelves, compliant with European standards.

## 2. SAFETY INFORMATION

---

- Always store firearms unloaded and locked.
- Keep keys to the safe in a secure location, inaccessible to unauthorized individuals, especially children.
- Ensure the safe is securely anchored to the floor or wall to prevent unauthorized removal.
- Do not store flammable materials or explosives inside the safe.
- Regularly check the locking mechanism for proper function.

## 3. PACKAGE CONTENTS

---

Verify that all components are present before beginning installation:

- INFAC CLTT23 Gun Safe Unit
- Keys for main lock (multiple copies)
- Keys for interior safe (multiple copies)
- Removable shelves (quantity may vary based on configuration)
- Mounting hardware (screws and anchors for floor fixation)
- Instruction Manual (this document)

## 4. SETUP AND INSTALLATION

---

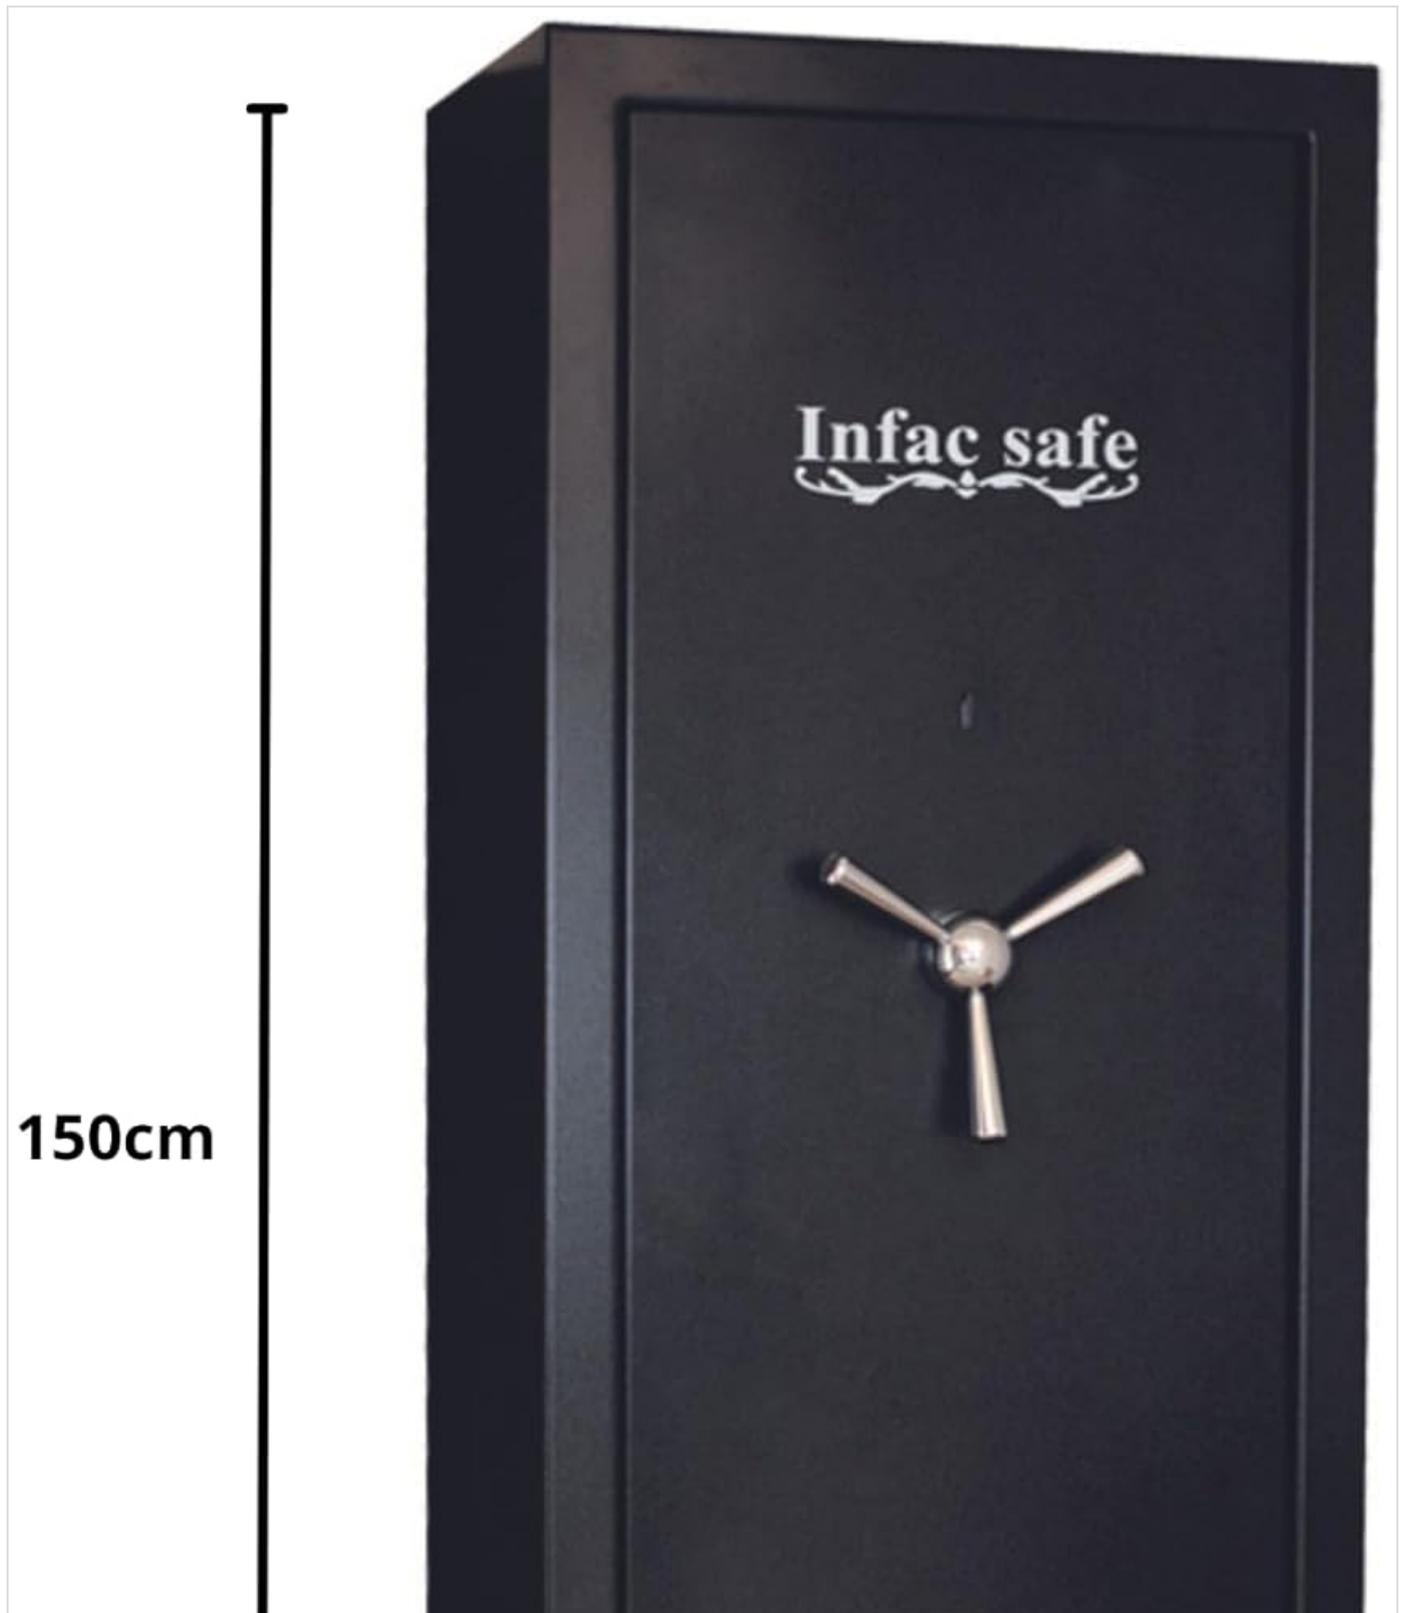

The INFAC CLTT23 gun safe is designed for floor mounting to ensure maximum security. Proper installation is crucial.

### 4.1 Choosing a Location

Select a discreet, dry, and secure location. Ensure the floor can support the weight of the safe and its contents.

#### 4.2 Anchoring the Safe

1. Position the safe in the desired location.
2. Mark the drilling points through the pre-drilled holes in the base of the safe onto the floor.
3. Move the safe aside and drill holes into the floor using an appropriate drill bit for the provided anchors.
4. Insert the anchors into the drilled holes.
5. Reposition the safe over the anchors.
6. Secure the safe to the floor using the provided screws and tighten them firmly.

## 5. OPERATING INSTRUCTIONS

---

### 5.1 Opening the Main Safe

1. Insert the main key into the keyhole on the safe door.
2. Turn the key to unlock the mechanism.
3. Rotate the handle (if present) to disengage the locking bolts.
4. Pull the door open.

Image: A close-up of one of the keys for the safe, showing its unique cut and an identification number (DE79617). Keep these keys secure.

## 5.2 Closing and Locking the Main Safe

1. Close the safe door firmly.
2. Rotate the handle to extend the locking bolts into the frame.
3. Turn the key to lock the mechanism.
4. Remove the key and store it in a secure location.

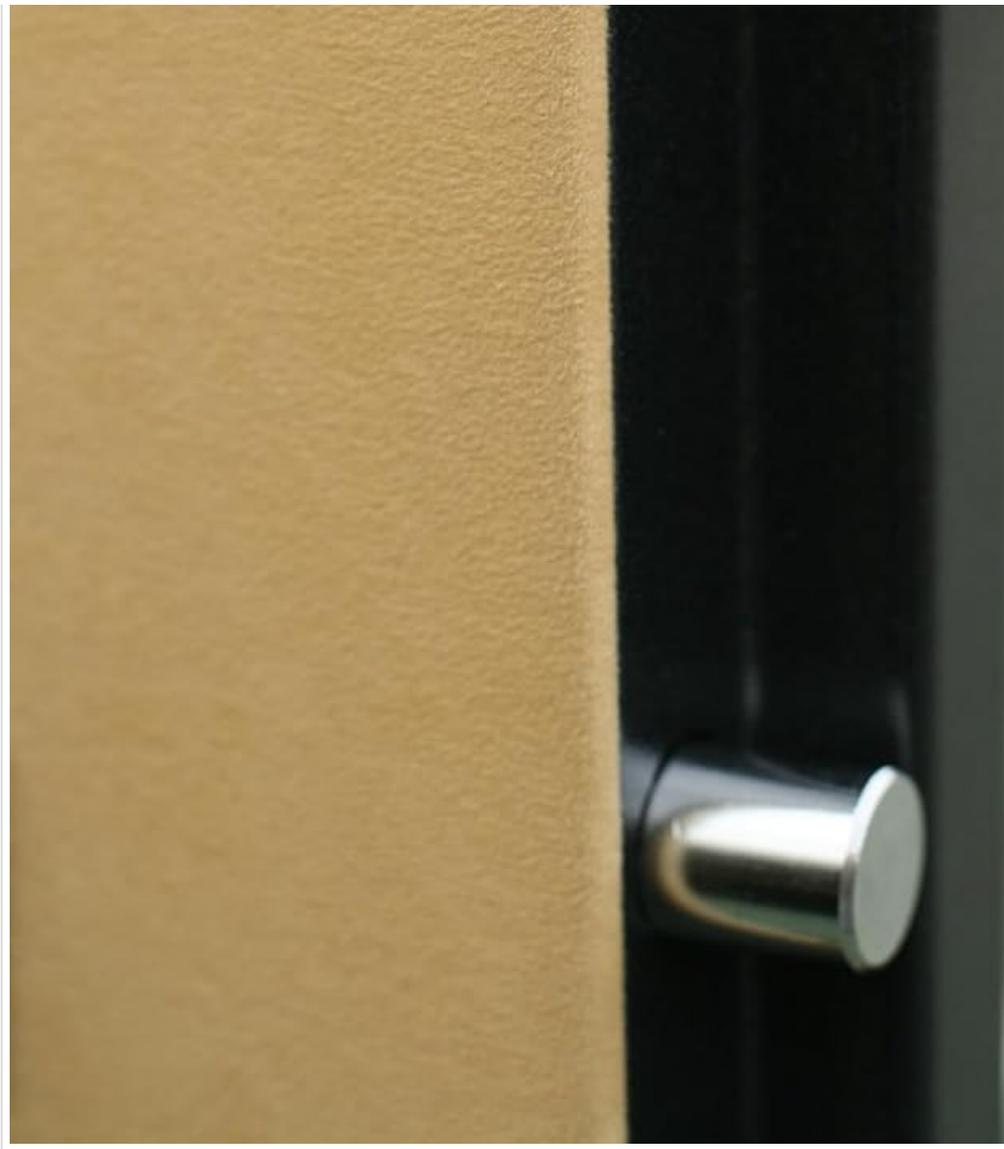

Image: A detailed view of the safe's internal locking bolts, showing them extended into the door frame, indicating a secure lock.

### **5.3 Using the Interior Safe**

The safe includes a separate, lockable interior compartment for additional security of smaller items or ammunition.

1. Use the smaller, separate key to unlock the interior safe door.
2. Open the interior safe door to access its contents.
3. To lock, close the door, insert the key, turn, and remove.

Image: An interior view of the gun safe, highlighting the separate, lockable compartment located at the top. A key is shown inserted into its lock.

#### **5.4 Adjusting Shelves and Firearm Placement**

The safe features removable shelves and a dedicated rack for firearms. You can customize the interior layout.

- To remove or adjust shelves, simply lift them from their supports and reposition as needed.
- Place firearms in the designated slots, ensuring they are stable and do not obstruct the door mechanism.
- The safe is designed to accommodate up to 23 firearms, including those with scopes.

## 6. MAINTENANCE

---

- **Cleaning:** Wipe the exterior and interior surfaces with a soft, damp cloth. Avoid abrasive cleaners or solvents.
- **Lock Mechanism:** Periodically check the lock and bolt mechanism for smooth operation. If stiff, a small amount of graphite lubricant can be applied to the keyhole, but avoid oil-based lubricants.
- **Door Hinges:** Ensure hinges are free of debris and operate smoothly.

## 7. TROUBLESHOOTING

---

Problem	Possible Cause	Solution
Key does not turn or is stiff.	Debris in keyhole, worn key, or stiff mechanism.	Clean keyhole. Try a spare key. Apply graphite lubricant to keyhole. If problem persists, contact support.

Problem	Possible Cause	Solution
Door does not close properly.	Obstruction, misaligned door, or bent locking bolt.	Check for obstructions. Ensure safe is level. Inspect locking bolts for damage.
Safe feels unstable after installation.	Improper anchoring.	Re-check all mounting screws and anchors. Ensure they are tightened securely and the safe is flush with the floor.

## 8. SPECIFICATIONS

Feature	Detail
Model	CLTT23
Capacity	Up to 23 firearms (with scopes)
Material	Alloy Steel, Wood (interior)
Lock Type	Key Lock (main and interior safe)
