addlon Tree Floor Lamp (Model 037) User Manual

Instructions for Assembly, Operation, and Maintenance

1. INTRODUCTION

This manual provides essential information for the safe and efficient use of your addlon Tree Floor Lamp, Model 037. Please read these instructions carefully before assembly and operation, and retain them for future reference.

The addlon Tree Floor Lamp features three adjustable rotating lights, designed to provide versatile illumination for various indoor spaces such as living rooms, bedrooms, and offices. It includes three 9-watt LED bulbs for immediate use.

2. SAFETY INFORMATION

- Ensure the lamp is unplugged before assembly, cleaning, or changing bulbs.
- Use only E26 base bulbs. Do not exceed 20 Watts for LED bulbs or 60 Watts for incandescent bulbs per socket.
- Do not operate the lamp with a damaged cord or plug. If damaged, contact customer support.
- This lamp is designed for indoor use only. Do not expose to water or high humidity.
- Keep the lamp away from flammable materials.
- Ensure the base is stable on a flat surface to prevent tipping.

3. PACKAGE CONTENTS

Verify that all components are present before beginning assembly:

- Lamp Base
- Lower Pole Section
- Middle Pole Section
- Upper Pole Section with 3 Lamp Heads

- 3 x E26 LED Bulbs (9 Watt, 2700K Warm White)

4. ASSEMBLY INSTRUCTIONS

Follow these steps to assemble your addlon Tree Floor Lamp:

1. **Attach Lower Pole to Base:** Carefully screw the lower pole section into the lamp base until secure.
2. **Connect Middle Pole:** Screw the middle pole section onto the lower pole section.
3. **Attach Upper Pole with Lamp Heads:** Screw the upper pole section (with the three lamp heads) onto the middle pole section. Ensure all connections are tight.
4. **Install Bulbs:** Screw the provided LED bulbs into each of the three E26 sockets on the lamp heads. Do not overtighten.
5. **Position the Lamp:** Place the assembled lamp on a flat, stable surface.
6. **Plug In:** Insert the power plug into a standard electrical outlet.

5-Steps Assembly

Only need a few steps to install the lamp

5. OPERATING INSTRUCTIONS

Your addlon Tree Floor Lamp is designed for ease of use and flexible lighting control.

5.1 Power On/Off

Plug the lamp into a wall outlet. The lamp can be turned on or off using the foot switch located on the power cord (if applicable to your model) or by rotating the individual switches on each lamp head.

5.2 Adjusting Lamp Heads

Each of the three lamp heads can be adjusted independently:

- **360° Rotation:** The lamp heads can be rotated 360 degrees horizontally to direct light in any desired direction.
- **180° Vertical Adjustment:** The lamp heads can also be tilted 180 degrees vertically (up and down) to focus light precisely where needed.

5.3 Individual Light Control

Each lamp head features a separate rotary switch located on its top. This allows you to turn individual lights on or off, providing customized lighting levels and energy saving. For example, you can have all three lights on for bright illumination, or just one or two for ambient lighting or specific tasks.

6. MAINTENANCE

6.1 Cleaning

- Always unplug the lamp before cleaning.
- Wipe the lamp's exterior with a soft, dry cloth.
- Do not use abrasive cleaners, solvents, or polishing agents as they may damage the finish.

6.2 Bulb Replacement

- Ensure the lamp is unplugged and the bulb has cooled down before attempting to replace it.
- Unscrew the old bulb counter-clockwise.
- Screw in a new E26 base bulb clockwise. Remember the wattage limits: max 20W for LED, max 60W for incandescent.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Lamp does not turn on.	Not plugged in. Loose bulb. Faulty bulb. Power outlet issue.	Ensure the power cord is securely plugged into a working outlet. Tighten the bulb in its socket. Replace the bulb with a new one. Test the outlet with another device.
One light does not turn on.	Individual switch off. Loose bulb. Faulty bulb.	Rotate the individual switch on the lamp head to the 'on' position. Tighten the bulb in its socket. Replace the bulb with a new one.
Lamp flickers.	Loose bulb. Incompatible bulb.	Tighten the bulb. Ensure the bulb is compatible with E26 base and within wattage limits.
