WARSUN Y36

WARSUN Y36 LED Work Light Instruction Manual

Model: Y36

1. PRODUCT OVERVIEW

The WARSUN Y36 LED Work Light is a versatile, rechargeable, and portable lighting solution designed for various applications including car repair, camping, hiking, and emergency situations. It features a powerful COB LED light source, multiple brightness modes, and convenient mounting options.

Figure 1: WARSUN Y36 LED Work Light

Key Features:

- **Powerful COB Light:** Delivers up to 1200 lumens for bright illumination.
- **Rechargeable Battery:** Equipped with a 3600mAh battery for extended use.
- **USB Output:** Functions as a power bank to charge other devices.
- **3 Lighting Modes:** High, Medium, and Low brightness settings.
- **Versatile Mounting:** Features a strong magnetic base, a hidden hanging hook, and a rotation bracket for hands-free operation.
- **Durable Design:** Crafted from durable aluminum alloy, drop-resistant up to 4.9ft.

2. SETUP

Unboxing and Initial Charge:

1. Carefully remove the WARSUN Y36 LED Work Light from its packaging.
2. Locate the included USB charging cable.
3. Open the protective cover on the side of the work light to reveal the charging ports.
4. Connect the Micro USB end of the cable to the work light's input port (DC5V).
5. Connect the USB-A end of the cable to a compatible USB power adapter (not included) or a computer USB port.
6. Allow the device to charge fully before first use. The charging indicator light will typically change color or turn off when fully charged.

3. OPERATING INSTRUCTIONS

Power On/Off and Mode Selection:

1. To turn the light **ON**, press the power button located on the front of the device.
2. The light will cycle through its brightness modes with each subsequent press of the power button **High** → **Medium** → **Low** → **OFF**.
3. To turn the light **OFF** directly from any mode, press and hold the power button for approximately 2 seconds.

Figure 3: Light Modes (Low, Medium, High)

Using the Power Bank Function:

1. Open the protective cover on the side of the work light.
2. Connect your device's USB charging cable to the USB-A output port on the work light.
3. The work light will begin charging your device.

Figure 4: USB Output/Input for Charging

Mounting Options:

- **Magnetic Base:** The strong magnet on the back allows attachment to metallic surfaces for hands-free lighting.

Horse's Stall Lighting
Coreee M: Horse caretaker. His stable is a clean and well-lit place where he frequently spends time interacting with his equine companions.
★★★★★ Mighty Little Light
 Got this light because I needed a light with a magnet. Found out it's perfect for sticking to the roof of my horse's stall.

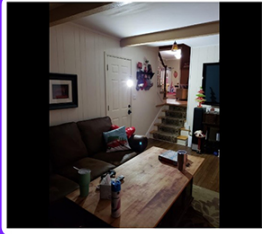

Car Hood Lighting
Angel Rodriguez: A mechanical genius who has a fervent passion for repairing and customizing cars.
★★★★★ Must Have For Your Car!
 This gives you 4 ways to use the light and the best 2 I like is the magnet and the hook. The magnet is pretty strong and for the hook it hang on to any latch pretty well. It can be used as a portable charge in case of emergency and it is waterproof.

Voice of Customer

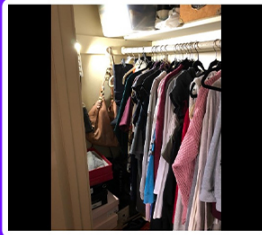

Figure 5: Magnetic Mounting

- **Hanging Hook:** A hidden hook can be pulled out from the back to hang the light on objects like tents or pipes.

Power Outage Lighting
Jonzen: Known throughout the community for his electrical skills, he's always ready to help neighbors solve power problems.
★★★★★ Bright with a strong magnet!
 I accidentally dropped it on tile, as soon as I opened it, and it's still working fine. Didn't know it had a USB outlet, that was a nice surprise. Will be buying more for presents.

Wardrobe Lighting
Martha Gonzalez: She is passionate about fashion. She often spends a lot of time in front of her wardrobe.
★★★★★ Brighter than anything I've tried!
 I use it in my closet. I usually do my laundry in the evening and there's no light in my closet! Love that I won't have to buy batteries!

Voice of Customer

Figure 6: Hanging Hook Usage

- **Rotation Bracket:** The integrated bracket allows the light to be angled and stood on flat surfaces.

Efficient Customer Care

World Light

Customer-centric excellence is our top priority. At the heart of our business is an unwavering commitment to customer satisfaction.

4. MAINTENANCE

Cleaning:

- Wipe the exterior of the work light with a soft, damp cloth.
- Do not use abrasive cleaners or solvents, as these may damage the finish or internal components.
- Ensure the protective cover for the USB ports is securely closed after cleaning to maintain water resistance.

Storage:

- Store the work light in a cool, dry place away from direct sunlight and extreme temperatures.
- For long-term storage, it is recommended to charge the battery to approximately 50% every 3-6 months to prolong battery life.

5. TROUBLESHOOTING

Common Issues and Solutions:

- **Light does not turn on:**
 - Ensure the battery is charged. Connect to a power source and charge fully.
 - Press the power button firmly.
- **Light does not charge:**
 - Check the USB cable for damage and ensure it is properly connected to both the light and the power source.
 - Try a different USB cable or power adapter.
 - Ensure the charging port is clean and free of debris.
- **Short battery life:**
 - Operating the light on High brightness mode will consume battery faster. Use Medium or Low mode for extended runtime.
 - Ensure the battery is fully charged before use.
 - Battery performance may degrade over time with repeated charging cycles.

6. SPECIFICATIONS
