Adventure Force 212059991WMT

Adventure Force Ultimate Shark Garage Instruction Manual

Model: 212059991WMT

INTRODUCTION

This manual provides essential instructions for the assembly, operation, and maintenance of your Adventure Force Ultimate Shark Garage. Please read it thoroughly before use to ensure proper function and safety. Retain this manual for future reference.

SAFETY INFORMATION

- **Choking Hazard:** Contains small parts. Not suitable for children under 3 years of age.
- **Strangulation Hazard:** Features a long cord. Not suitable for children under 3 years of age.
- Adult supervision is strongly recommended during both assembly and play to ensure safety.
- Keep all packaging materials, including plastic bags and ties, away from children to prevent suffocation or injury.

PACKAGE CONTENTS

The Adventure Force Ultimate Shark Garage includes approximately 101 components for assembly, along with 5 die-cast vehicles. Please verify that all parts are present and undamaged before beginning assembly.

This image displays the product packaging, indicating the inclusion of approximately 101 components and 5 die-cast vehicles required for assembly and play.

SETUP: ASSEMBLY INSTRUCTIONS

Follow these steps carefully to assemble your Adventure Force Ultimate Shark Garage. Assembly requires adult supervision and may take some time.

1. **Unpack Components:** Carefully remove all parts from the packaging. Organize them by type (e.g., base pieces, ramps, columns, accessories) to facilitate assembly.
2. **Base Assembly:** Connect the main base sections securely. Ensure all interlocking tabs or connectors are fully engaged.
3. **Tower Construction:** Begin building the multi-level tower structure. Attach the vertical columns and horizontal platforms according to the visual guides. Ensure each level is stable before proceeding.
4. **Ramp and Track Attachment:** Securely attach all ramps and track pieces to their designated positions on the tower and base. Pay close attention to the direction and alignment of each track segment to ensure smooth vehicle movement.
5. **Spiral Ramp Integration:** Connect the large spiral ramp structure to the main garage tower. Ensure all support pillars are firmly in place.
6. **Shark Feature Installation:** Attach the shark mouth feature and its associated track sections to the base of the spiral ramp.
7. **Crane Assembly and Installation:** Assemble the working crane and mount it to the top level of the garage. Ensure it can rotate and its hook mechanism functions freely.
8. **Accessory Placement:** Add any smaller decorative elements, signs, or other accessories to complete the garage.
9. **Battery Installation:** Locate the battery compartment for the motorized elevator (typically at the base

of the elevator shaft). Insert the required batteries (not included) according to the polarity indicators.

OPERATING INSTRUCTIONS

Once assembled, the Adventure Force Ultimate Shark Garage offers various interactive play features:

- **Vehicle Movement:** Place the included die-cast vehicles on the various ramps and tracks. Gravity will propel them down the slopes.
- **Motorized Elevator:** Activate the motorized elevator (requires batteries) to transport vehicles between the different parking levels of the garage. Ensure vehicles are properly positioned on the elevator platform.
- **Crane Operation:** Use the manual controls on the crane to rotate it and raise or lower the hook. The wrecking ball accessory can be attached to the hook for interactive play.
- **Shark Attack Feature:** As vehicles descend the spiral ramp, they will pass through the shark's mouth. This feature is designed to simulate a 'chomping' action.

This image highlights the dual racing ramps, demonstrating how two die-cast vehicles can be launched simultaneously for competitive play.

- **Racing Ramps:** Utilize the dual racing ramps to launch vehicles for competitive races. Position cars at the starting gates and release them simultaneously.

A detailed view of the interactive shark feature, showing a vehicle about to encounter the chomping shark as it navigates the track.

MAINTENANCE

- **Cleaning:** To clean the garage, wipe surfaces with a dry or slightly damp cloth. Do not use harsh chemicals or abrasive cleaners. Do not immerse any part of the playset in water.
- **Battery Replacement:** If the motorized elevator or other electronic features stop functioning, replace the batteries. Refer to the battery compartment for the correct battery type and ensure proper polarity during installation.
- **Storage:** When not in use, store the Adventure Force Ultimate Shark Garage in a clean, dry place

away from direct sunlight and extreme temperatures to prevent damage.

TROUBLESHOOTING

- **Elevator Not Moving:**
 - Check if batteries are correctly installed and are fresh.
 - Ensure there are no obstructions blocking the elevator's path.
- **Cars Getting Stuck on Tracks:**
 - Verify that all track connections are secure and properly aligned. Even a small misalignment can cause cars to stop.
 - Check for any debris (e.g., dust, small toy pieces) on the tracks that might impede vehicle movement.
- **Parts Disconnecting:**
 - Re-secure any loose connections by firmly pressing parts together until they click into place.
 - Ensure that during initial assembly, all parts were fully engaged and locked.

SPECIFICATIONS

Feature	Detail
Model Number	212059991WMT
Brand	Adventure Force
Approximate Dimensions (Assembled)	2.5 feet tall
Item Weight	11.68 pounds
Recommended Age	3+ years (Manufacturer recommended age: 3 months - 7 years)
Power Source	Batteries (not included) for motorized features
Number of Components	Approx. 101 pieces

WARRANTY INFORMATION

For information regarding product warranty, please refer to the documentation included with your purchase or contact Adventure Force customer support directly. Warranty terms and conditions may vary by region and retailer.

SUPPORT INFORMATION

If you require further assistance or have questions not covered in this manual, please contact Adventure Force customer support. Contact details can typically be found on the product packaging or the manufacturer's official website. Please have your model number (212059991WMT) ready when contacting

support.
