## 2. SAFETY INFORMATION

---

**WARNING: This is not a life-saving device. Do not leave children unattended while in use.**

- Always supervise children and inexperienced swimmers.
- Do not use in rough water, strong currents, or near boat traffic.
- Do not dive or jump onto the float.
- Ensure the float is fully inflated before use.
- Do not exceed the maximum weight limit of 100 pounds (45 kg).
- Keep away from fire and sharp objects.
- Proposition 65 Warning: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

## 3. PACKAGE CONTENTS

---

Verify that all components are present in the package:

- 1 Intex Sit 'n Lounge Inflatable Pool Float
- Integrated cup holder
- 2 Heavy-duty handles
- Repair patch

## 4. SPECIFICATIONS

Feature	Detail
Model Number	58883EP
Dimensions	47 inches (119 cm) Diameter
Material	12 Gauge Vinyl
Air Chambers	2
Weight Limit	100 lbs (45 kg)
Age Grade	8+ years
UPC	641517309936, 078257313907, 698997697770

## 5. SETUP (INFLATION)

1. Unfold the float on a clean, flat surface free of sharp objects.
2. Locate the two inflation valves on the float.
3. Open the valve caps.
4. Using an air pump (not included), inflate each air chamber until the float is firm to the touch but not hard. Avoid over-inflation, as this can damage the seams.
5. Quickly close the valve caps securely to prevent air leakage.
6. Ensure both chambers are adequately inflated before use.

## 6. OPERATING INSTRUCTIONS

---

1. Ensure the float is fully inflated and all valve caps are securely closed.
2. Carefully enter the float in shallow water.
3. Position yourself comfortably in the center of the float, utilizing the backrest for support.
4. Use the two heavy-duty handles for stability when entering, exiting, or adjusting your position.
5. Place beverages in the integrated cup holder.
6. Always use the float in calm water and under appropriate supervision.

## 7. MAINTENANCE

---

### 7.1 Cleaning

- Clean the float with mild soap and water.
- Rinse thoroughly with clean water.

- Allow the float to air dry completely before deflating and storing. Do not use harsh chemicals or abrasive cleaners.

## 7.2 Storage

- Deflate the float completely by opening the valve caps and gently pressing out the air.
- Fold the float neatly to prevent creases and damage.
- Store in a cool, dry place away from direct sunlight, extreme temperatures, and sharp objects.

## 7.3 Repair

- For small punctures, use the included repair patch.
- Clean and dry the area around the puncture thoroughly.
- Peel off the backing from the repair patch and apply it firmly over the puncture.
- Press down firmly for several minutes to ensure good adhesion.
- Allow the patch to cure for at least 30 minutes before re-inflating the float.

# 8. TROUBLESHOOTING

---

## 8.1 Float is losing air

- **Check Valve Caps:** Ensure all inflation valve caps are securely closed.
- **Inspect for Punctures:** Inflate the float and submerge it in water, or apply soapy water to the surface. Look for bubbles, which indicate a leak. Use the repair patch as described in Section 7.3.
- **Temperature Changes:** Air pressure inside the float can decrease in cooler temperatures, making it appear under-inflated. Re-inflate slightly if necessary.

## 8.2 Difficulty Inflating

- **Valve Position:** Ensure the pump nozzle is properly inserted into the valve and that the valve is fully open for inflation.
- **Pump Functionality:** Verify that your air pump is working correctly and providing sufficient airflow.

# 9. WARRANTY & SUPPORT

---

## 9.1 Warranty Information

The manufacturer provides a 1-season warranty for this product. Please retain your proof of purchase for any warranty claims. The warranty covers manufacturing defects under normal use conditions.

## 9.2 Customer Support

For further assistance, replacement parts, or to inquire about warranty service, please visit the official Intex website or contact Intex customer service directly.
