## Nania 506TORINO

# Nania Torino Car Seat Instruction Manual

Model: 506TORINO

## INTRODUCTION

---

This manual provides essential instructions for the safe installation, operation, and maintenance of your Nania Torino evolutive car seat. Designed for children from 76 to 150 cm (approximately 15 months to 12 years, or 9 to 36 kg), this car seat complies with the latest R129 i-Size safety standard. Please read this manual thoroughly before using the car seat to ensure maximum safety and comfort for your child.

## SAFETY INFORMATION

The Nania Torino car seat is designed with advanced safety features to protect your child. Adherence to these guidelines is crucial for safety.

- **R129 i-Size Standard:** This car seat meets the ECE R129 i-Size standard, indicating rigorous testing for side and frontal collisions.
- **Side Protection System (SPS):** Reinforced lateral protections safeguard your child's shoulders and hips during a side impact.
- **Head-Protect System:** The adjustable headrest incorporates an energy-absorbing system to protect the child's head and neck.

in the event of an accident.

- Always ensure the car seat is correctly installed and secured according to the instructions.
- Never leave a child unattended in the car seat.
- Do not modify the car seat in any way. Use only original Nania parts.
- Replace the car seat after any accident, even if there is no visible damage.

## COMPONENTS OVERVIEW

---

Familiarize yourself with the main components of your Nania Torino car seat:

- **Adjustable Headrest:** Provides head and neck support, adjustable to 12 positions.
- **5-Point Harness System:** For children up to 105 cm (approx. 18 kg).
- **Shoulder Pads and Crotch Pad:** For comfort and to prevent rubbing.
- **Side Protection System (SPS):** Integrated side impact protection.
- **Removable Comfort Insert:** Provides additional comfort for younger children.
- **Modular Cup Holder:** Attaches to the side of the car seat.
- **Seat Belt Guides:** Clearly marked guides for vehicle seat belt installation.

## SETUP AND INSTALLATION

The Nania Torino car seat is designed for forward-facing installation only, using the vehicle's 3-point seat belt.

### Installation Steps:

1. Place the car seat on the vehicle seat, ensuring it is stable and flush against the backrest.

2. Route the vehicle's 3-point seat belt through the clearly marked seat belt guides on the car seat. Ensure the lap belt portion is low across the child's hips and the shoulder belt crosses the child's shoulder and chest, not the neck.
3. Buckle the vehicle seat belt securely.
4. Pull the vehicle seat belt tight to remove any slack, ensuring the car seat is firmly installed and does not move more than 2.5 cm (1 inch) from side to side or front to back at the belt path.

**Important:** Always refer to your vehicle's owner's manual for specific car seat installation instructions and compatible seating positions.

## OPERATING INSTRUCTIONS

---

### Adjusting the Headrest and Harness:

The headrest and internal harness system adjust simultaneously to 12 positions, accommodating your child's growth.

1. To adjust, locate the adjustment lever (usually at the top or back of the headrest).
2. Squeeze the lever and simultaneously pull up or push down the headrest to the desired height.
3. Release the lever to lock the headrest in place. Ensure the headrest is positioned so the shoulder straps are at or just below your child's shoulders when using the 5-point harness.

Poggiatesta regolabile in altezza in 12 posizioni  
12-fach höhenverstellbare Kopfstütze

Figure 5: Visual representation of the 12-position height-adjustable headrest, demonstrating its adaptability for growing children.

### Transitioning from 5-Point Harness to Vehicle Seat Belt:

For children between 100-150 cm, the 5-point harness can be stored within the car seat, allowing the child to be secured directly by the vehicle's 3-point seat belt.

1. Consult the detailed instructions in the full product manual for specific steps on how to store the 5-point harness. This typically involves unthreading the straps and tucking them into designated compartments within the seat.
2. Once the harness is stored, use the vehicle's 3-point seat belt to secure your child, ensuring the shoulder belt passes through the red guide on the headrest and the lap belt is positioned correctly over the child's hips.

Figure 6: The Nania Torino car seat demonstrating its evolutive stages, from using the 5-point harness for younger children to transitioning to the vehicle's seat belt for older children.

### Using the Comfort Insert and Cup Holder:

- The removable comfort insert provides extra padding for younger children and can be removed as your child grows.
- The modular cup holder can be attached to either side of the car seat for convenience.

## MAINTENANCE

### Cleaning Instructions:

- The car seat cover is removable and washable.
- Machine wash the cover at 30°C (86°F) on a gentle cycle. Do not bleach, tumble dry, or iron.
- For plastic parts, wipe clean with a damp cloth and mild soap. Do not use abrasive cleaners or solvents.
- Allow all parts to air dry completely before reassembling and using the car seat.

## TROUBLESHOOTING

If you encounter issues with your Nania Torino car seat, refer to the following common solutions:

- **Car Seat Feels Loose After Installation:** Ensure the vehicle seat belt is pulled tight and routed correctly through all guides. Re-read the installation section and your vehicle's manual.
- **Harness Straps are Twisted:** Unbuckle the harness and carefully untwist each strap. Ensure they lie flat against your child's body.
- **Headrest Adjustment is Stiff:** Check for any obstructions. Apply gentle, even pressure while squeezing the adjustment lever.
- **Child Appears Uncomfortable:** Ensure the headrest is at the correct height and the harness is snug but not too tight. The comfort insert can be used for younger children.

For issues not covered here, please contact Nania customer support or refer to the comprehensive manual provided with your product.
