SETUP

1. Initial Time and Date Setting

Your Sekonda Model 1817 watch features a digital LCD display. Specific button functions may vary slightly, but generally, digital watches have buttons for Mode, Adjust, and Light.

- **Mode Button:** Press to cycle through display modes (Time, Date, Alarm, Stopwatch).
- **Adjust Button:** Used to select digits for adjustment and confirm settings.
- **Set/Reset Button:** Used to change values during adjustment.
- **Light Button:** Activates the backlight.

1. Press the **Mode** button until the time setting mode is displayed (often indicated by flashing digits).
2. Use the **Adjust** button to select the hour, minute, second, month, day, or year digits you wish to change.
3. Use the **Set/Reset** button to increase or decrease the selected value.
4. Once all settings are correct, press the **Mode** button again to exit the setting mode.

2. Setting the Alarm

1. Press the **Mode** button until the alarm setting mode is displayed.
2. Use the **Adjust** button to select the hour or minute digits.
3. Use the **Set/Reset** button to set the desired alarm time.
4. Press the **Mode** button to confirm and exit.
5. To activate/deactivate the alarm, typically press the **Adjust** button while in the alarm display mode. An alarm icon will

appear/disappear.

3. Adjusting the Bracelet

The Sekonda Model 1817 features an adjustable stainless steel bracelet with a sliding clasp. For a comfortable fit, links may need to be removed or added. It is recommended to have this adjustment performed by a qualified jeweler or watch technician.

OPERATING INSTRUCTIONS

1. Using the Chronograph (Stopwatch)

1. Press the **Mode** button until the chronograph display appears (usually showing "00:00:00").
2. Press the **Set**/**Reset** button to start the stopwatch.
3. Press the **Set**/**Reset** button again to stop the stopwatch.
4. To reset the stopwatch to zero, press the **Adjust** button while the stopwatch is stopped.

5. Press the **Mode** button to return to the time display.

2. Backlight Function

To illuminate the display in low-light conditions, press the **Light** button. The backlight will typically remain on for a few seconds.

3. Water Resistance Guidelines

Your Sekonda Model 1817 watch is water-resistant up to 30 meters (3 ATM). This rating means the watch is suitable for daily use, including splashes and rain.

- **Do NOT** press any buttons while the watch is wet or submerged.
- **Do NOT** use for bathing, swimming, diving, or any water sports.
- Exposure to hot water (e.g., in a shower or sauna) can compromise water resistance.

MAINTENANCE
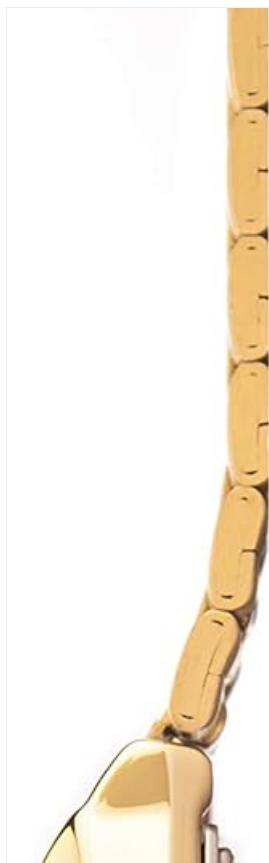

1. Cleaning Your Watch

To maintain the appearance of your watch, wipe it regularly with a soft, dry cloth. For the gold-tone stainless steel bracelet, a slightly damp cloth can be used, followed by immediate drying. Avoid using chemical cleaners or abrasive materials.

2. Battery Replacement

The watch is powered by one non-standard battery. When the display becomes dim or the watch stops functioning, the battery may need replacement. It is highly recommended to have the battery replaced by a professional watchmaker to ensure proper sealing and maintain water resistance.

3. Storage

When not in use, store your watch in a cool, dry place away from direct sunlight, extreme temperatures, and strong magnetic fields.

TROUBLESHOOTING

- **Watch Not Functioning / Display is Blank:**

  This typically indicates a depleted battery. Refer to the "Battery Replacement" section under Maintenance.

- **Time is Inaccurate:**

  Ensure the time has been set correctly. If the inaccuracy persists after setting, the battery may be low, or the watch may require servicing.

- **Buttons Not Responding:**

  Check if the watch is wet. If so, dry it thoroughly. If the issue persists, there may be an internal mechanism problem requiring professional inspection.

- **Condensation Under Crystal:**

  This indicates a breach in the watch's water resistance. Avoid further contact with water and seek professional service immediately to prevent damage to the movement.

SPECIFICATIONS

Model Number	1817
