Logitech 950-000026

Logitech Powered 3-in-1 Qi Wireless Charging Dock User Manual

Model: 950-000026

INTRODUCTION

The Logitech Powered 3-in-1 Qi Wireless Charging Dock provides a convenient solution for simultaneously charging your compatible Apple iPhone, Apple Watch, and AirPods. This dock is designed for efficient wireless power delivery and features a durable, rubberized surface to protect your devices from scratches.

WHAT'S IN THE BOX

- Logitech Powered 3-in-1 Qi Wireless Charging Dock
- AC Adapter with 5-foot cable

SETUP

Connecting the Power

Connect the provided AC adapter cable to the power port on the back of the charging dock. Plug the AC adapter into a wall outlet. The dock is now ready for use.

Device Placement

Place your devices on the designated charging areas. The dock features a rubberized surface to prevent accidental scratches to your phone, watch, and earbuds during placement and removal.

OPERATING INSTRUCTIONS

Charging Your iPhone

Place your Qi-compatible iPhone vertically on the upright charging stand. Ensure the phone is centered on the stand for optimal charging. Note that charging in landscape orientation is not supported by the stand.

Charging Your Apple Watch

Place your Apple Watch on the magnetic charging puck located on the side arm of the dock. The watch will magnetically align and begin charging. If using a metal watch band, ensure it does not interfere with the watch's contact with the charging puck.

Charging Your AirPods

Place your AirPods (with wireless charging case) on the flat charging pad located on the base of the dock. Ensure the AirPods case is properly aligned on the pad.

Charging Indicators

The dock features subtle LED indicators to confirm charging status. These indicators are located on the side for the phone stand and behind the flat charging pad. A lit indicator signifies that the respective device is actively charging.

MAINTENANCE

Cleaning

To clean the charging dock, disconnect it from the power source. Use a soft, dry, lint-free cloth to wipe down the surfaces. Avoid using abrasive cleaners, solvents, or aerosol sprays, which may damage the finish.

Storage

When not in use for extended periods, store the charging dock in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

Device Not Charging

- Ensure the charging dock is properly connected to a working power outlet.
- Verify that your device is Qi-compatible.
- Check for proper alignment of your device on the charging surface. Remove any thick cases that might prevent proper contact.
- For Apple Watch, ensure metal bands do not interfere with the charging connection.
- Restart your device and try charging again.

Intermittent Charging

- Ensure no foreign objects (e.g., keys, coins) are between your device and the charging surface.
- Confirm your device is not overheating. Remove it from the charger for a few minutes if it feels warm.
- Try a different power outlet.

SPECIFICATIONS

| Feature	Detail
Product Dimensions	4 x 9.3 x 4.6 inches
Item Weight	1.9 pounds
Model Number	950-000026
Connectivity Technology	Wireless
Special Feature	Wireless Charging
Color	Graphite
Input Voltage	110 Volts
Amperage	68 Milliamps
Total USB Ports	1 (for internal power, not user-accessible)
