

GoSports GOLF-MAT-05-5x3

GoSports Golf Hitting Mat Instruction Manual

Model: GOLF-MAT-05-5x3 | Brand: GoSports

INTRODUCTION

The GoSports Golf Hitting Mat is designed to provide a realistic and durable surface for golf swing practice, suitable for both indoor and outdoor use. This mat allows golfers to practice various shots without damaging their lawn or requiring specific weather conditions. It is engineered for longevity, capable of withstanding extensive use over time.

This manual provides essential information regarding the setup, operation, maintenance, and specifications of your GoSports Golf Hitting Mat to ensure optimal performance and durability.

SETUP INSTRUCTIONS

- Unpacking:** Carefully remove the golf hitting mat and included rubber tees from its packaging.
- Placement:** Lay the mat flat on a stable, level surface. The mat is designed for use on various surfaces, including concrete, grass, or indoor flooring. Ensure there is adequate space around the mat for safe swinging.
- Tee Insertion:** Select one of the three provided rubber tees (1.5 inch with tee holder, 2.25 inch, or 3.5 inch) and insert it into one of the designated teeing positions on the mat. The mat features 6 different teeing positions to accommodate both right and left-handed golfers.

BUILT FOR INDOOR & OUTDOOR USE

- All-Weather
- Slip-Resistant
- Heavy-Duty

OPERATING INSTRUCTIONS

The GoSports Golf Hitting Mat is designed for straightforward use. Once set up, you can begin your practice session.

- **Swing Practice:** Place a golf ball on the mat, either directly on the turf or on one of the inserted rubber tees. Practice your golf swing as you would on a natural course or driving range. The commercial-grade synthetic turf is designed to simulate the feel of real grass.
- **Tee Usage:** Utilize the different rubber tee heights to practice various shots, including drives with different loft angles. The 1.5-inch tee includes a holder for standard wooden tees, allowing for adjustable tee height.
- **Mat Stability:** The 5mm non-slip foam padding provides stability on hard surfaces and helps absorb impact, reducing stress on your joints during practice.

MAINTENANCE

- **Cleaning:** To clean the mat, use a stiff brush or vacuum to remove loose debris. For deeper cleaning, a mild soap and water solution can be applied with a cloth, then rinsed and allowed to air dry completely.
- **Storage:** When not in use, the mat can be rolled up for compact storage. Store in a dry place away from direct sunlight to prolong its lifespan.
- **Even Wear:** To maximize the lifespan of your mat and ensure even wear, periodically rotate the mat or shift your hitting position to utilize different areas of the turf. This helps distribute impact and prevent excessive wear in a single spot.

TROUBLESHOOTING

- **Mat Not Lying Flat:** Upon initial unboxing, the mat may have creases from being folded. Lay the mat flat in a warm

- environment, and the creases should gradually flatten out over time with use.
- **Excessive Wear in One Area:** If you notice significant wear in a specific hitting area, rotate the mat or adjust your stance to utilize other sections. This practice helps extend the overall life of the mat.
 - **Unrealistic Feedback:** Ensure the mat is placed on a firm, level surface. Soft or uneven surfaces can affect the mat's performance and the feedback received during a swing.

SPECIFICATIONS

Feature	Detail
Model Number	GOLF-MAT-05-5x3
Material	Plastic, Synthetic Turf
Color	Green
Dimensions (L x W)	5 ft x 3 ft (152.4 cm x 91.4 cm)
