## Nike AQ2743-018

# Nike Men's Trail Running Shoe User Manual

Model: AQ2743-018

Brand: Nike

## INTRODUCTION

---

This manual provides essential information for the proper use, care, and maintenance of your Nike Men's Trail Running Shoes, model AQ2743-018. Please read these instructions carefully to ensure optimal performance and longevity of your footwear.

## KEY FEATURES

---

- **Closure Type:** Lace-Up for a secure and adjustable fit.
- **Outer Material:** Breathable Mesh for ventilation and comfort.
- **Sole Material:** Durable Rubber for traction and longevity.
- **Insole Material:** Rubber for cushioning and support.
- **Cushioning Level:** Maximum, designed for enhanced impact absorption.
- **Toe Style:** Round Toe for natural foot movement.
- **Heel Type:** Wedge Heel for stability and comfort.
- **Shoe Height Map:** Low Top design.

## SETUP

---

Your Nike Trail Running Shoes are designed for immediate use. Before the first wear, ensure the laces are properly threaded and adjusted to your foot for a snug, comfortable, and secure fit. This prevents excessive movement within the shoe and reduces the risk of discomfort or injury.

## OPERATING (USAGE)

---

These shoes are designed for running and athletic activities, particularly on trails. Ensure your laces are tied securely to prevent tripping hazards and provide adequate foot support. The maximum cushioning level is intended to absorb impact during high-intensity activities. Always wear appropriate socks to enhance comfort and manage moisture.

## MAINTENANCE

---

Proper care extends the life of your shoes:

- **Cleaning:** Clean shoes regularly with a soft brush or cloth to remove dirt and debris. For stubborn stains, use a mild soap and water solution. Avoid harsh chemicals or machine washing, as this can damage materials and adhesives.
- **Drying:** Allow shoes to air dry naturally at room temperature. Do not expose them to direct heat sources like radiators or direct sunlight, which can cause materials to shrink or crack.
- **Storage:** Store shoes in a cool, dry place away from direct sunlight. If storing for extended periods, consider using shoe trees to maintain their shape.

## TROUBLESHOOTING

---

- **Discomfort/Rubbing:** Ensure laces are not too tight or too loose. Check sock thickness and material. If discomfort persists, verify shoe size and width.
- **Reduced Traction:** Clean the sole thoroughly to remove embedded dirt or debris. Inspect the sole for wear and tear; significant wear may indicate the need for replacement.
- **Odor:** Allow shoes to air out after each use. Consider using odor-absorbing inserts or sprays. Ensure shoes are completely dry before storage.
