Lordear Single Handle #002

Lordear Matte Black Waterfall Bathroom Faucet Instruction Manual

Model: Single Handle #002

INTRODUCTION

Thank you for choosing the Lordear Matte Black Waterfall Bathroom Faucet. This faucet features a solid brass construction for durability and a matte black finish for a modern aesthetic. It provides a smooth waterfall flow and drip-free performance thanks to its ceramic disc valve. This manual provides detailed instructions for installation, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your faucet.

This faucet is designed for deck-mount installation and is compatible with both 1-hole and 3-hole sink configurations, utilizing the included deck plate.

IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before installation and use. Failure to follow these instructions may result in property damage, personal injury, or voiding of warranty.

- Always turn off the main water supply before beginning any plumbing work.
- Wear appropriate personal protective equipment, such as safety glasses and gloves.
- If you are unsure about any part of the installation process, consult a qualified plumber.
- Do not overtighten connections, as this can damage the faucet or plumbing.
- Ensure all connections are secure and leak-free before restoring water supply.

PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- Water Supply Hose
- Pop-Up Drain
- Deck
- Faucet

Image: All components included in the Lordear faucet package.

- Faucet Body (with single handle and waterfall spout)
- Deck Plate (for 3-hole installation)
- Pop-Up Drain Assembly
- Hot Water Supply Line
- Cold Water Supply Line
- Mounting Hardware (washers, nuts, Allen wrench)

SETUP AND INSTALLATION

Before you begin, ensure you have the necessary tools: adjustable wrench, plumber's putty or silicone sealant, and a screwdriver.

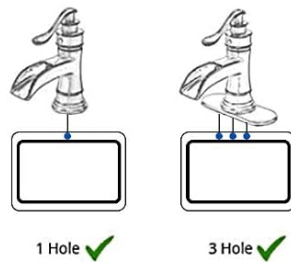

Bathroom Faucet

FEATURE

Single Handle,
cold and hot water control

Waterfall Spout No Splash

Stylish & Elegant Design

Deck mounted, available
for 1-hole and 3-hole

Image: Faucet compatibility for 1-hole and 3-hole sink installations.

1. **Prepare the Sink:** Turn off the water supply to the sink. Remove the old faucet if applicable. Clean the mounting surface thoroughly.
2. **Install Deck Plate (if needed):** If your sink has three holes, place the deck plate over the holes. Apply a bead of plumber's putty or silicone sealant around the base of the deck plate to create a watertight seal.
3. **Mount the Faucet:** Insert the faucet body through the center hole (and deck plate if used). From underneath the sink, secure the faucet with the rubber washer, metal washer, and mounting nut. Hand-tighten first, then use an adjustable wrench to snug it up, ensuring the faucet is aligned correctly.
4. **Connect Water Supply Lines:** Attach the hot and cold water supply lines to the corresponding inlets on the faucet body. Connect the other ends of the supply lines to your hot and cold water shut-off valves. Use an adjustable wrench to tighten connections, but do not overtighten.
5. **Install Pop-Up Drain:** Follow the instructions provided with the pop-up drain assembly. Typically, this involves placing the drain body into the sink drain hole, applying sealant, and securing it from underneath with washers and a nut. Connect the drain linkage to the faucet if applicable (this model has a push-button pop-up drain, so no linkage).

6. **Check for Leaks:** Once all connections are made, slowly turn on the main water supply. Check all connections for leaks. If any leaks are detected, tighten the connection slightly until the leak stops.

OPERATING INSTRUCTIONS

Image: Faucet in use, demonstrating the waterfall flow.

The Lordear Waterfall Bathroom Faucet features a single handle for controlling both water temperature and flow.

- **Water Flow Control:** Lift the handle upwards to increase water flow. Push the handle downwards to decrease and turn off the water flow.
- **Temperature Control:** Move the handle to the left for hot water. Move the handle to the right for cold water. Adjust the handle position between left and right to achieve the desired water temperature.
- **Waterfall Spout:** The wide spout design creates a gentle waterfall effect, providing a smooth and splash-free water delivery.

CARE AND MAINTENANCE

Proper care and maintenance will help preserve the finish and functionality of your Lordear faucet.

- **Cleaning the Finish:** Clean the matte black finish with a soft, damp cloth. Avoid using abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the finish. Mild soap and water are generally sufficient.
- **Preventing Water Spots:** Wipe the faucet dry after each use to prevent water spots and mineral buildup.
- **Ceramic Disc Valve:** The ceramic disc valve is designed for long-lasting, drip-free performance. If you experience drips, ensure all connections are tight. If dripping persists, the valve cartridge may need inspection or replacement by a qualified professional.

Solid Brass Construction

TROUBLESHOOTING GUIDE

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Low Water Flow	◦ Partially closed shut-off valves ◦ Clogged supply lines ◦ Debris in faucet aerator/spout	◦ Ensure hot and cold water shut-off valves are fully open. ◦ Flush supply lines. ◦ Inspect and clean the waterfall spout for any obstructions.
Faucet Leaks	◦ Loose connections ◦ Damaged O-rings or washers ◦ Worn ceramic disc cartridge	◦ Check and tighten all water supply line connections. ◦ Inspect O-rings and washers for damage and replace if necessary. ◦ If leaking from the handle, the ceramic disc cartridge may need replacement. Consult a plumber.
Finish Chipping/Peeling	◦ Use of abrasive cleaners or harsh chemicals ◦ Physical damage	◦ Always use soft cloths and mild soap for cleaning. Avoid harsh chemicals. ◦ Handle with care to prevent scratches or impacts.
