- 9.5" x 5.5" x 2" Loaf Pan (1 piece)

- **Utensils:**

- 5-Piece Utensil Set (Skimmer, Slotted Spatula, Ladle, Spoon, Pasta Server) (5 pieces)

### 3. SETUP

---

1. **Unpack:** Carefully remove all items from the packaging.
2. **Inspect:** Check all pieces for any signs of damage. Contact customer support if any items are damaged or missing.
3. **Initial Cleaning:** Before first use, wash all cookware and bakeware with warm, soapy water. Rinse thoroughly and dry completely.
4. **Seasoning (Optional but Recommended):** Although Granitestone cookware is non-stick, a light seasoning can further enhance performance. Apply a thin layer of cooking oil (e.g., vegetable, canola) to the non-stick surface, heat on low for 30 seconds, then let cool and wipe off excess oil.

### 4. OPERATING INSTRUCTIONS

---

#### 4.1. Stovetop Use

- **Heat Settings:** Use low to medium heat for most cooking. High heat is generally not necessary due to the efficient heat distribution of the aluminum composition. Excessive high heat can damage the non-stick coating over time.
- **Compatible Cooktops:** This cookware is compatible with gas, electric, and glass cooktops.
- **Non-Stick Performance:** The triple-coated, diamond-reinforced non-stick surface allows for cooking with minimal to no oil or butter.
- **Utensils:** While the coating is metal utensil safe, using wooden, silicone, or plastic utensils is recommended to prolong the life of the non-stick surface.

#### 4.2. Oven Use

- **Temperature Limit:** All cookware and bakeware are oven safe up to 500°F (260°C), including lids.
- **Handles:** Metal handles will become hot in the oven and on the stovetop. Always use oven mitts or pot holders

when handling hot cookware.

### 4.3. Steaming and Frying

- **Steamer Insert:** Use the stainless steel steamer insert with the 5 Qt Pot for healthy steaming of vegetables, seafood, and dumplings.
- **Fry Basket:** The fry basket fits perfectly into the deep square pan, allowing for deep frying of foods like chicken, fish, or french fries.

## 5. CARE AND MAINTENANCE

---

### 5.1. Cleaning

- **Dishwasher Safe:** All components of this set are dishwasher safe for quick and easy cleanup.
- **Hand Washing:** For best results and to prolong the lifespan of the non-stick coating, hand washing with warm, soapy water and a non-abrasive sponge is recommended.
- **Stubborn Food:** For baked-on food, fill the pan with warm water and a small amount of dish soap, let it soak for a few minutes, then clean with a soft sponge. Avoid using steel wool or harsh abrasive cleaners.

### 5.2. Storage

- Store cookware carefully to prevent scratching the non-stick surface. Placing a soft cloth or paper towel between stacked pans can help protect the coating.

# DISHWASHER SAFE

Low Maintenance Cookware for Busy Families

Wipes Down Easily

Low Maintenance

Saves Time

## 6. TROUBLESHOOTING

---

- **Handles Get Hot:** The metal handles are designed for durability and oven safety. They will become hot during stovetop and oven use. Always use oven mitts or pot holders.
- **Discoloration/Warping:** While durable, extreme high heat can cause discoloration or warping over time. Always use low to medium heat settings on the stovetop. If warping occurs, it may sometimes be corrected by filling the pan with hot water and gently reshaping it once cooled.
- **Non-Stick Performance Decreases:** Ensure you are not using excessively high heat. Regular seasoning (as described in Setup) can help maintain non-stick properties. Avoid using sharp metal objects that could scratch the coating.

## 7. SPECIFICATIONS

---

Feature	Detail
---------	--------
