Philips SH71/50 Shaving Heads User Manual

For Philips Shavers Series 7000 (S7XXX) and Series 5000 (S55XX)

1. INTRODUCTION

These Philips SH71/50 replacement shaving heads are designed to restore your Philips electric shaver to optimal performance. Regular replacement of shaving heads is crucial for maintaining a close, comfortable shave and ensuring the longevity of your shaver. It is recommended to replace shaving heads every two years, as they perform approximately 9 million cutting actions within this period.

2. SAFETY INFORMATION

For safe and optimal use of your Philips SH71/50 shaving heads, please observe the following guidelines:

- The blades are sharp and can cause cuts; handle with care during installation and cleaning.
- Improper use or installation may lead to skin irritation.
- Always clean and dry the shaver and its heads after each use to prevent bacterial growth and maintain hygiene.
- Do not use the shaver near water or while it is charging.
- Replace shaving heads every two years for optimal performance and safety.

3. COMPATIBILITY

The Philips SH71/50 shaving heads are compatible with the following Philips shaver series:

- Philips Shavers Series 7000 (S7XXX models)
- Philips Shavers Series 5000 (angular-shaped S55XX models)

These heads replace previous models such as RQ12/70, RQ12/60, SH60/70, and SH70/70.

4. INSTALLATION INSTRUCTIONS

Follow these steps to replace the shaving heads in your Philips electric shaver:

1. **Prepare the Shaver:** Ensure your shaver is turned off and unplugged. If necessary, clean the shaver head assembly before proceeding.
2. **Open the Shaver Head:** Open the shaver head unit according to your shaver's specific model instructions. This usually involves pressing a release button or gently pulling the head open.
3. **Remove the Retainer:** Locate and remove the retainer ring or frame that holds the shaving heads in place.
4. **Remove Old Shaving Heads:** Carefully lift out the old shaving heads from their positions.
5. **Insert New Shaving Heads:** Place the new Philips SH71/50 shaving heads into the shaver head unit. Ensure each head is correctly aligned in its designated slot.
6. **Replace the Retainer:** Securely place the retainer ring or frame back over the new shaving heads. Ensure it clicks into place, holding the heads firmly.
7. **Close the Shaver Head:** Close the shaver head unit until you hear a click, indicating it is properly secured.

5. MAINTENANCE

To ensure the best performance and hygiene of your Philips SH71/50 shaving heads:

- **Daily Cleaning:** After each shave, rinse the shaver head under running water to remove hair and debris. For a more thorough clean, use a cleaning spray like HQ110, following its specific instructions.
- **Drying and Storage:** After cleaning, allow the shaver head to air dry completely before storing it in a dry place.
- **Replacement Frequency:** For optimal cutting performance and skin comfort, replace your shaving heads every two years.
