MohMus VT 250, VT 251, VT 252

MohMus Filter Set for Vorwerk Tiger VT 250, VT 251, VT 252 Vacuum Cleaners - Instruction Manual

PRODUCT OVERVIEW

This MohMus filter set includes a motor filter and an air filter, designed to maintain the filtration efficiency of your Vorwerk Tiger vacuum cleaner. These filters are manufactured with high-quality, durable filter material to ensure optimal fine dust filtration. Regular replacement of these filters is crucial for optimal vacuum performance and air quality. Please note that these parts are not genuine Vorwerk manufacturer parts and are provided as compatible replacements.

This image displays the MohMus replacement motor filter and air filter, designed for Vorwerk Tiger VT 250, VT 251, and VT 252 vacuum cleaner models. The filters are shown side-by-side, highlighting their design and material.

PACKAGE CONTENTS

The MohMus filter set typically includes the following items:

- 1 x Motor Filter
- 1 x Air Filter (Micro-Filter)

COMPATIBILITY

This filter set is compatible with the following Vorwerk Tiger vacuum cleaner models:

- Vorwerk Tiger VT 250

- Vorwerk Tiger VT 251
- Vorwerk Tiger VT 252

INSTALLATION INSTRUCTIONS

Follow these steps to replace the motor filter and air filter in your Vorwerk Tiger vacuum cleaner:

1. **Power Off:** Ensure the vacuum cleaner is unplugged from the power outlet before beginning any maintenance.
2. **Locate Filter Compartment:** Refer to your vacuum cleaner's original manual to locate the motor filter and air filter compartments. These are typically found near the motor or exhaust.
3. **Remove Old Filters:** Carefully remove the used motor filter and air filter. Dispose of them responsibly according to local regulations.
4. **Insert New Motor Filter:** Place the new MohMus motor filter into its designated compartment, ensuring it fits securely and is properly seated.
5. **Insert New Air Filter:** Install the new MohMus air filter (micro-filter) into its compartment, making sure it is properly seated and forms a tight seal.
6. **Close Compartment:** Securely close the filter compartments.
7. **Test:** Plug in the vacuum cleaner and perform a brief test to ensure proper operation and that no air leaks are present.

MAINTENANCE

For optimal suction performance and filtration efficiency, it is recommended to change the filters regularly. The exact frequency depends on usage, but generally, filters should be replaced every 6 to 12 months, or sooner if you notice a decrease in suction power, an increase in dust escaping the vacuum, or a noticeable odor during operation.

SPECIFICATIONS

Feature	Detail
Brand	MohMus
Material	Filter Material
Product Compatibility	Vorwerk Tiger VT 250, VT 251, VT 252
Number of Pieces	2 (1 Motor Filter, 1 Air Filter)
Manufacturer	MohMus
Country of Origin	Germany

TROUBLESHOOTING

If you experience reduced suction power or unusual noises after filter replacement, ensure that both the motor filter and air filter are correctly installed and seated firmly in their compartments. Check for any obstructions in the vacuum cleaner's hoses or nozzles. If issues persist, consult your vacuum cleaner's original user manual or contact a qualified service technician.

WARRANTY AND SUPPORT

Specific warranty information for this MohMus filter set is not provided. For product support or inquiries, please refer to the seller's contact information on the purchase platform where the item was acquired.
