SETUP: BATTERY INSTALLATION

Your Duracell 250 Lumen Flashlight requires three (3) AAA alkaline batteries for operation. The batteries are included with your purchase.

1. Unscrew the tail cap of the flashlight by turning it counter-clockwise.
2. Insert the three AAA batteries into the battery compartment, ensuring the positive (+) and negative (-) terminals align correctly with the indicators inside the flashlight.
3. Screw the tail cap back onto the flashlight by turning it clockwise until it is securely tightened.

OPERATING INSTRUCTIONS

The Duracell 250 Lumen Flashlight is operated using the tail cap switch.

- **To Turn On/Off:** Press the tail cap switch completely until it clicks to turn the flashlight on or off.
- **To Change Modes:** While the flashlight is on, lightly press the tail cap switch (without clicking) to cycle through the available light modes: High, Low, and Strobe. The flashlight will remember the last mode used when turned off and on again.

MAINTENANCE

- **Cleaning:** Wipe the flashlight with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Battery Replacement:** Replace batteries when the light output becomes dim. Always replace all three batteries at the same time with new AAA alkaline batteries.
- **Storage:** If storing the flashlight for an extended period, remove the batteries to prevent leakage and damage. Store in a cool, dry place.

TROUBLESHOOTING

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Flashlight does not turn on.	Batteries are depleted or incorrectly installed.	Replace batteries with new ones, ensuring correct polarity. Check that the tail cap is fully tightened.
Light is dim or flickers.	Low battery power or loose tail cap.	Replace batteries. Ensure the tail cap is securely tightened.
Cannot change light modes.	Switch not being pressed lightly enough or too quickly.	Ensure the flashlight is on. Lightly press the tail cap switch without fully clicking to cycle modes. Allow a brief pause between presses.

SPECIFICATIONS

- Model Number:** 8234DF250
- Light Output:** 250 Lumens
- Beam Distance:** 180 meters
- Power Source:** 3 x AAA Batteries (Alkaline)
- Battery Life:** Up to 3 hours
- Material:** Aircraft-grade Aluminum
- Color:** Black
- Flashlight Dimensions:** Approximately 5.1 inches (Length) x 1.38 inches (Diameter)
- Item Weight:** 5.1 ounces
- Water Resistance Level:** Waterproof
- Manufacturer:** Infinity X1
