Depets Self-Cleaning Slicker Brush User Manual

Model: 01

INTRODUCTION

The Depets Self-Cleaning Slicker Brush is designed for effective grooming of pets with long or short hair, including dogs, cats, and bunnies. This brush helps remove loose undercoat, shedding mats, dander, and dirt, contributing to a cleaner pet and home environment. Its design prioritizes both pet comfort and user convenience.

PRODUCT FEATURES

- **Gentle Bristles:** Stainless steel needles with round beads are designed with a 60-degree bend to reach the pet's skin without scratching, providing a massaging effect and promoting blood circulation.
- **Self-Cleaning Mechanism:** A one-click button retracts the bristles, allowing for easy removal of collected hair.
- **Comfortable Handle:** Ergonomically designed with a comfort-grip and non-slip material to reduce hand fatigue during grooming sessions.
- **Washable Design:** The brush can be washed to maintain hygiene.

SETUP

The Depets Self-Cleaning Slicker Brush requires no assembly. It is ready for use directly out of its packaging.

1. Remove the brush from its packaging.
2. Inspect the bristles and handle for any damage.
3. Ensure the self-cleaning button operates smoothly by pressing it once.

For cats & dogs

can be used.

OPERATING INSTRUCTIONS

Follow these steps for effective and comfortable grooming:

1. **Prepare Your Pet:** Ensure your pet is calm and comfortable. You may offer a treat to help them associate grooming with a positive experience.
2. **Hold Hair Root:** With one hand, gently hold the hair root of your pet to minimize pulling on the skin.
3. **Brush Direction:** Comb along the direction of hair growth. Use gentle, even strokes.
4. **Address Knots:** For serious knots or tangles, be extra gentle. Do not pull forcefully. You may need to work through them slowly or use a detangling spray if necessary.
5. **Long Hair Technique:** For pets with long hair, comb layer by layer. Turn the outer layer over and comb the inner layer first, then proceed to the outer layers.
6. **Observe Pet's Reaction:** Brush gently, especially if your pet is under stress or has sensitive skin. Stop if your pet shows signs of discomfort.

MAINTENANCE

Proper maintenance ensures the longevity and hygiene of your Depets Self-Cleaning Slicker Brush.

1. **Hair Removal:** After each grooming session, press the one-click cleaning button to retract the bristles and easily remove the collected hair.
2. **Washing:** The brush is washable. You can rinse the bristles under running water to remove any remaining dander or dirt. Ensure the brush is thoroughly dried before storage to prevent rust on the stainless steel pins.
3. **Storage:** Store the brush in a clean, dry place, out of reach of children and pets.

TROUBLESHOOTING

The Depets Self-Cleaning Slicker Brush is a simple mechanical device. Most issues can be resolved with proper usage and maintenance.

- **Bristles not retracting:** Ensure no hair or debris is obstructing the mechanism. Clean the brush thoroughly. If the button feels stuck, gently try to dislodge any visible obstructions.
- **Ineffective hair removal:** Ensure you are brushing in the direction of hair growth. For dense undercoats, multiple passes may be required. Check if the bristles are bent or damaged; if so, replacement may be necessary.
- **Pet discomfort:** If your pet shows discomfort, ensure you are brushing gently and not pressing too hard. Some pets may need time to adjust to grooming. Consult a veterinarian or professional groomer if discomfort persists or if skin irritation occurs.

SPECIFICATIONS

Model Number	01
Brand	Depets
Item Weight	4.16 ounces
