

FEELSO 21109

FEELSO 15-Stage Filtered Shower Head User Manual

Model: 21109, FB003

Brand: FEELSO

1. INTRODUCTION

The FEELSO 15-Stage Filtered Shower Head system is designed to enhance your showering experience by purifying water. This system effectively removes chlorine, heavy metals, and other harmful substances, contributing to healthier skin, hair, and nails. The shower head features a powerful rainfall spray and an angle-adjustable design for optimal comfort and coverage. This manual provides detailed instructions for installation, operation, maintenance, and troubleshooting to ensure the longevity and performance of your product.

2. PRODUCT OVERVIEW

The FEELSO shower system combines a high-output shower head with a 15-stage filter cartridge. Key components include:

- **Rainfall Fixed Shower Head:** Large 6-inch diameter with 90 nozzles for wide water coverage.
- **15-Stage Shower Filter:** Multi-layer filtration system designed to remove impurities.
- **Adjustable Swivel Ball Joint:** Allows for 360-degree rotation of the shower head.
- **Teflon Tape:** Included for a secure, leak-free installation.

Product Components

15-Stage Filtration System

Image 2.2: Detailed diagram illustrating the various layers within the 15-stage filtration cartridge. These layers work synergistically to purify water by removing contaminants.

Adjustable Shower Head Design

Image 2.3: The shower head features a 360-degree adjustable swivel ball joint, allowing users to easily direct the water flow.

3. SETUP & INSTALLATION

The FEELSO shower head and filter combo is designed for easy, tool-free installation. Follow these steps:

1. **Flush the Filter:** Before installation, run water through the filter for 5-10 minutes to flush out any excess carbon dust. It is normal for the water to appear black during the initial flush.
2. **Prepare Shower Arm:** Ensure your existing shower arm is clean and free of debris.
3. **Apply Teflon Tape:** Wrap the provided Teflon tape tightly around the threads of your shower arm. Apply 5-8 full turns to ensure a watertight seal.
4. **Attach Filter:** Place one rubber O-ring on the inlet fitting of the shower filter. Screw the shower filter onto the shower arm tightly by hand.
5. **Attach Shower Head:** Ensure a flat washer is correctly seated in the shower head connection. Screw the shower head onto the filter outlet tightly by hand.
6. **Check for Leaks:** Turn on the water and check for any leaks. If leaks occur, tighten connections further or reapply Teflon tape.

Installation Video Guide

Video 3.1: This video demonstrates the step-by-step installation process for the FEELSO Rainfall Filtered Shower Head. It covers flushing the filter, applying Teflon tape, and attaching the filter and shower head to the shower arm.

4. OPERATION

Once installed, operating your FEELSO 15-Stage Filtered Shower Head is straightforward:

- **Water Flow:** Turn on your shower faucet as usual. The shower head will deliver a powerful rainfall spray.
- **Angle Adjustment:** Use the 360-degree adjustable swivel ball joint to position the shower head to your desired angle for optimal coverage and comfort.
- **Water Purification:** The integrated 15-stage filter continuously purifies the water as it passes through, reducing chlorine and other impurities.

Enjoying Your Healthy Shower

Video 4.1: This video highlights the benefits and experience of using the FEELSO Filtered Shower Head, showcasing the luxurious rainfall mode and purified water.

5. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your FEELSO shower system.

Filter Replacement

The 15-stage filter cartridge has a limited lifespan and should be replaced periodically to maintain water purification effectiveness. The exact replacement interval depends on your water quality and usage, but generally, it is recommended every 6-8 months.

1. Turn off the water supply to the shower.
2. Unscrew the shower head from the filter.
3. Unscrew the filter housing from the shower arm.
4. Open the filter housing and remove the old cartridge.
5. Insert a new 15-stage filter cartridge, ensuring it is correctly seated.
6. Reassemble the filter housing and screw it back onto the shower arm, ensuring O-rings are in place and connections are tight.
7. Reattach the shower head to the filter.
8. Flush the new filter for 5-10 minutes before use.

Cleaning the Shower Head Nozzles

The silicone nozzles are designed to prevent blockage. If mineral buildup occurs, gently rub the nozzles with your finger or a soft brush to dislodge deposits.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Water leaks from connections	Loose connections, insufficient Teflon tape, missing or damaged O-rings/washers.	Ensure all connections are hand-tight. Reapply Teflon tape (5-8 turns). Check that O-rings and washers are correctly seated and undamaged.

Problem	Possible Cause	Solution
Low water pressure	Clogged shower head nozzles, clogged filter cartridge.	Gently rub silicone nozzles to clear blockages. If the issue persists, the filter cartridge may need replacement.
Black water at first use	Carbon dust from new filter cartridge.	This is normal. Continue flushing the filter with water for 5-10 minutes until the water runs clear.
Reduced filtration effectiveness	Expired filter cartridge.	Replace the 15-stage filter cartridge.

7. SPECIFICATIONS

Feature	Detail
Brand	FEELSO
Model Numbers	21109, FB003
Style	Modern
Shape	Round
Material	Acrylonitrile Butadiene Styrene
Finish Type	Chrome Plated
Installation Type	Wall Mounted
Color	Chrome
Product Dimensions	15"L x 1"W
Item Weight	15.9 ounces
Number of Settings	1 (Rainfall Shower)
Efficiency	High Flow Rate
Special Features	Rainfall Shower, Powerful Filtering Function, Easy to Install, Fits Any Standard Shower Arm
Included Components	Rainfall Fixed Shower Head, 15 Stages Shower Filter, Additional Teflon Tape, Installation Manual
