Kintion MR-L2307

Kintion Pocket Mirror MR-L2307 Instruction Manual

Model: MR-L2307 | Brand: Kintion

PRODUCT OVERVIEW

The Kintion Pocket Mirror is a compact, portable makeup mirror designed for convenience and clarity. It features dual-sided mirrors with 1X and 3X magnification, along with integrated LED lighting to ensure optimal visibility for makeup application and grooming on the go.

SETUP

Battery Installation

The Kintion Pocket Mirror requires two CR2032 C batteries (included). To install or replace batteries:

1. Locate the battery compartment on the back of the mirror.
2. Slide the battery compartment cover open.
3. Insert two CR2032 batteries, ensuring correct polarity (+/-).
4. Close the battery compartment cover securely.

OPERATING INSTRUCTIONS

Turning On/Off the LED Lights

The mirror features two ways to control the LED lights:

- **Manual Switch:** On the back of the mirror, slide the ON/OFF switch to the "ON" position to enable the lights. Slide it to "OFF" to disable.
- **Magnetic Switch:** When the manual switch is in the "ON" position, the LED lights will automatically turn on when the mirror is opened and turn off when it is closed, thanks to a hidden magnetic sensor.

Easy to use

Two Switch Modes

Using the Magnification Mirrors

The Kintion Pocket Mirror features two distinct magnification levels:

- **1X Magnification:** Provides a true-to-life reflection, ideal for general makeup application and checking your overall appearance.
- **3X Magnification:** Offers a magnified view, perfect for detailed tasks such as eyeliner application, eyebrow grooming, or precise touch-ups.

The mirror opens flat to 180 degrees, allowing for comfortable handheld use or stable placement on a surface.

MAINTENANCE

- **Cleaning:** Use a soft, lint-free cloth to clean the mirror surfaces. For smudges, a small amount of glass cleaner can be applied to the cloth (not directly to the mirror).
- **Handling:** Handle the mirror with care to prevent breakage or damage to the mirrors and LED components.
- **Storage:** When not in use, keep the mirror closed to protect the surfaces and conserve battery life. Store in a dry place away from direct sunlight.
- **Battery Replacement:** Replace batteries when the LED lights dim or stop working. Ensure to use CR2032 batteries.

TROUBLESHOOTING

LED Lights Not Working

- **Check Battery Switch:** Ensure the ON/OFF switch on the back of the mirror is in the "ON" position.
- **Check Batteries:** Verify that the CR2032 batteries are correctly installed with the proper polarity. If the lights are dim, replace the batteries.
- **Magnetic Sensor:** If the manual switch is ON but lights don't activate upon opening, ensure the mirror is fully opened to trigger the magnetic sensor.

Mirror Appears Distorted

- Ensure you are using the 1X magnification side for a true reflection. The 3X magnification side is designed to show details up close and may appear distorted if viewed from a distance.
- Clean the mirror surface with a soft cloth to remove any smudges or debris that might affect clarity.

SPECIFICATIONS

Feature	Detail
Model Number	MR-L2307
Brand	Kintion
Magnification	1X / 3X
Lighting	Integrated LED Lights
Power Source	2 x CR2032 C Batteries (included)
Dimensions	3.3"L x 2.5"W (8.4cm L x 6.4cm W)
