BaBylissPRO BP2800N

BaBylissPRO Porcelain Ceramic 2800 Dryer

Model: BP2800N

PRODUCT OVERVIEW

The BaBylissPRO Porcelain Ceramic 2800 Dryer is a professional-grade hair dryer designed for efficient and effective hair styling. It features advanced porcelain ceramic and ionic technologies to deliver smooth, shiny, and frizz-free results.

- **2000 Watt Motor:** Provides powerful airflow for fast drying.
- **Porcelain Ceramic Technology:** Ensures even, consistent heat distribution to eliminate hot spots and protect hair from damage.
- **Ionic Technology:** Helps reduce frizz and static, leaving hair smooth and shiny.
- **6 Heat/Speed Settings:** Offers versatile styling options for all hair types.
- **Cold Shot Button:** Locks in style for long-lasting hold.
- **Concentrator Nozzle:** Directs airflow for precise styling and smoothing.
- **Removable Rear Filter:** Facilitates easy cleaning and maintenance.

SETUP

Before first use, ensure all packaging materials are removed. The hair dryer comes with a concentrator nozzle for precise styling.

Attaching the Concentrator Nozzle

1. Ensure the hair dryer is unplugged and cool.
2. Align the concentrator nozzle with the front barrel of the hair dryer.
3. Push the nozzle firmly onto the barrel until it clicks securely into place.

OPERATING INSTRUCTIONS

The BaBylissPRO Porcelain Ceramic 2800 Dryer offers multiple settings for customized styling.

Power and Speed Settings

Use the bottom switch on the handle to control the power and fan speed:

- **OFF:** Turns the dryer off.
- **LOW:** Provides gentle airflow for delicate drying or styling.
- **HIGH:** Delivers powerful airflow for fast drying.

Heat Settings

Use the top switch on the handle to select your desired heat level:

- **COLD:** For setting styles and adding shine.
- **WARM:** For general drying and styling.
- **HOT:** For fast drying and intense styling.

Cold Shot Function

Press and hold the blue button located on the front of the handle to activate the cold shot. This feature provides a burst of cool air to help set your hairstyle and add lasting hold after drying with heat.

MAINTENANCE

Regular cleaning of your hair dryer will ensure optimal performance and extend its lifespan.

Cleaning the Rear Filter

1. Ensure the hair dryer is unplugged and completely cool before cleaning.
2. Grip the rear filter cover and twist counter-clockwise to unlock and remove it.

3. Gently remove any accumulated hair, dust, or lint from the filter screen using a soft brush or cloth.
4. Rinse the filter under running water if necessary, ensuring it is completely dry before reattaching.
5. Align the filter cover with the dryer and twist clockwise until it locks securely into place.
