

Aqua Joe AJ-SPXN

Aqua Joe AJ-SPXN 2-in-1 Hose-Powered Sprayer and Foam Cannon Instruction Manual

INTRODUCTION

This manual provides essential information for the safe and effective operation, maintenance, and troubleshooting of your Aqua Joe AJ-SPXN 2-in-1 Hose-Powered Sprayer and Foam Cannon. Please read these instructions carefully before use and retain them for future reference.

SAFETY INFORMATION

- Always wear appropriate personal protective equipment, such as eye protection, when operating the sprayer.
- Ensure all connections are secure before turning on water supply to prevent leaks.
- Do not point the sprayer at people, pets, or electrical outlets.
- Use only recommended cleaning solutions and follow their specific safety instructions.
- Keep out of reach of children.
- Do not leave the sprayer unattended with the water supply on.

PACKAGE CONTENTS

Carefully remove all items from the packaging. Ensure all components are present and undamaged. If any items are missing or broken, do not operate the product.

- Hose-Powered Sprayer Handle
- Foam Cannon Attachment with Detergent Tank
- Quick-Connect Sprayer Nozzle (adjustable)

Figure 1: Aqua Joe AJ-SPXN 2-in-1 Hose-Powered Sprayer and Foam Cannon components.

SETUP

1. Connecting the Sprayer to a Garden Hose

1. Ensure your garden hose is turned off.
2. Attach the sprayer handle to the end of your standard garden hose. Twist clockwise until secure.

Figure 2: Connecting the sprayer to a garden hose.

2. Assembling the Foam Cannon

1. Unscrew the detergent tank from the foam cannon attachment.
2. Fill the detergent tank with your preferred cleaning solution. The tank holds up to 23 fl oz. A mixing ratio of 1:10 for foam is recommended.
3. Screw the detergent tank back onto the foam cannon attachment securely.
4. Attach the foam cannon assembly to the sprayer handle using the quick-connect mechanism.

Figure 3: Assembled sprayer with foam cannon.

OPERATING INSTRUCTIONS

1. Switching Between Spray and Foam Modes

- **For Foam Mode:** Ensure the foam cannon attachment is connected to the sprayer handle. The foam cannon nozzle sprays at a 25° angle.
- **For Rinse Mode:** Detach the foam cannon attachment. Connect the adjustable Quick-Connect sprayer nozzle directly to the sprayer handle.

Figure 4: Sprayer in rinse mode.

Figure 5: Sprayer in foam mode.

2. Adjusting Water Flow

The sprayer features a thumb control dial on the handle to adjust water flow. Rotate the dial to select between a light rinse and a heavy soak, depending on your cleaning needs.

Figure 6: Thumb control dial for water flow.

3. Adjusting Spray Pattern (Rinse Mode)

When using the Quick-Connect sprayer nozzle for rinsing, you can adjust the spray pattern from 0° (pinpoint jet) to 65° (gentle fan spray) by twisting the nozzle head.

Figure 7: Adjustable spray pattern in rinse mode.

4. General Operation

Once connected and set to your desired mode, squeeze the trigger on the handle to activate the water flow. Release the trigger to stop the flow.

MAINTENANCE

1. Cleaning the Sprayer and Foam Cannon

- After each use, especially when using the foam cannon, rinse the detergent tank and all attachments thoroughly with clean water.
- Ensure no detergent residue remains in the tank or nozzles to prevent clogging.
- Periodically check the quick-connect fittings for debris and clean as needed.

2. Storage

- Drain all water from the sprayer and attachments before storing.
- Store the unit in a cool, dry place, away from direct sunlight and freezing temperatures.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No water flow	Hose not connected; water supply off; clogged nozzle	Ensure hose is securely connected and water is on; check for and clear any blockages in the nozzle.
Weak spray/foam	Low water pressure; clogged nozzle/foam cannon; incorrect detergent mixing ratio	Check household water pressure; clean nozzles and foam cannon; adjust detergent concentration.
Leaks from connections	Loose connections; worn O-rings/washers	Tighten all connections; inspect and replace O-rings or washers if damaged.
No foam produced	Detergent tank empty; incorrect detergent type; clogged foam nozzle	Refill detergent tank; use a foaming-specific detergent; clean foam cannon nozzle.

SPECIFICATIONS

Feature	Detail
Model Number	AJ-SPXN
