Case-Mate LM043580

User Manual: Case-Mate LuMee Halo Light Up Selfie Case

Brand: Case-Mate | Model: LM043580

Introduction

The Case-Mate LuMee Halo Light Up Selfie Case is designed to provide optimal lighting for photography and video recording with your iPhone 12 or iPhone 12 Pro. This case features signature Halo lighting on both the front and back, engineered to balance uneven and unflattering back-light, ensuring the subject is well-illuminated. It functions as a portable lighting studio, offering ease of use and robust device protection. Key features include:

- Halo Studio lighting on the front and back for balanced illumination.
- Variable dimmer for precise light intensity control.
- Rechargeable battery providing up to 30 minutes of professional lighting at full brightness.
- Strong device protection with soft rails for easy installation and removal.
- Compatibility with iPhone 12 and iPhone 12 Pro (5G).

What's in the Box

Upon opening your package, please ensure all the following items are present:

- Case-Mate LuMee Halo Light Up Phone Case
- USB Charging Cable
- Wrist Strap

Image: An exploded diagram illustrating the key features and included accessories of the LuMee Halo case, such as the rechargeable battery, wrist strap, LED lighting technology, variable dimmer, strong protection, and Micropel antimicrobial protection.

Setup

1. **Install the Case:** Gently align your iPhone 12 or iPhone 12 Pro with the case. Insert the phone into the case, starting with one side, then carefully pressing the other side until the phone is fully seated. The soft rails are designed for easy installation and removal.
2. **Initial Charge:** Before first use, it is recommended to fully charge your LuMee Halo case. Connect the provided USB charging cable to the charging port located at the bottom of the case. Connect the other end of the USB cable to a standard USB power adapter (not included) or a computer's USB port. The charging indicator light will show the charging status. A full charge provides up to 30 minutes of continuous light at maximum brightness.
3. **Attach Wrist Strap (Optional):** If desired, attach the included wrist strap to the designated loop on the case for added security.

Operating Instructions

1. **Powering On/Off:** Locate the power button on the back of the case, typically near the bottom. Press the button once to turn on the front illumination. Press again to cycle through light modes (front, rear, or both, depending on the model and settings). Press and hold the button to turn off the lights.
2. **Adjusting Brightness (Dimmer):** While the lights are on, press and hold the power button to activate the variable dimmer. The light intensity will gradually increase or decrease. Release the button when the desired brightness level is achieved.
3. **Front Illumination:** Ideal for selfies, video calls, and situations where you need to light your face.
4. **Rear Illumination:** Useful for lighting subjects when using the rear camera, or for general ambient light.

Maintenance

- **Cleaning:** To clean the case, gently wipe it with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials, as these may damage the finish or the electronic components.
- **Battery Care:** For optimal battery life, avoid fully discharging the case's battery frequently. Recharge the case regularly, especially if it will not be used for an extended period. Store the case in a cool, dry place.
- **General Handling:** While the case offers strong protection, avoid dropping it from excessive heights or exposing it to extreme temperatures or moisture.

Troubleshooting

Lights are not turning on:

- Ensure the case is sufficiently charged. Connect it to a power source using the provided USB cable.
- Press the power button firmly. If it still doesn't respond, try charging it for at least 30 minutes.

Charging issues:

- Verify that the USB charging cable is securely connected to both the case and the power adapter/USB port.
- Try using a different USB cable or power adapter to rule out a faulty accessory.
- Inspect the charging port on the case for any debris or damage.

Lights are dim or inconsistent:

- The battery may be low. Recharge the case.
- Adjust the brightness using the variable dimmer function (press and hold the power button).

Specifications

Product Dimensions	6.3 x 3.7 x 1.43 inches
Item Weight	5.6 ounces
Model Number	LM043580
Batteries	1 Lithium Ion battery (included)
Special Features	Wireless Charging Compatible
Form Factor	Basic Case
Color	Rose Gold White Marble
Manufacturer	Case-Mate
Compatible Phone Models	iPhone 12, iPhone 12 Pro
Material	Thermoplastic Polyurethane
