## Assembly Instructions (Setup)

---

Assembly typically requires two adults. Ensure you have adequate space and all tools (usually an Allen wrench, provided) before starting.

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out on a clean, soft surface to prevent scratches. Identify each part using the provided parts list.
2. **Assemble Bed Frame:** Attach the side rails to the headboard and footboard using the provided hardware. Ensure all connections are secure.
3. **Install Bed Slats:** Place the wooden slats across the bed frame. Secure them to the side rails according to the instructions. These slats provide direct support for your mattress, eliminating the need for a box spring.
4. **Assemble Drawers:** Construct the three storage drawers by attaching the sides, bottom, and front panels. Install the drawer glides and handles.
5. **Insert Drawers:** Slide the assembled drawers into the designated compartments beneath the bed frame.

## Usage (Operating)

## Care and Maintenance

- **Cleaning:** Wipe the bed frame with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the wood finish.
- **Hardware Check:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten if necessary to maintain stability.
- **Avoid Moisture:** Protect the bed from excessive moisture and direct sunlight to prevent warping, fading, or cracking of the wood.

## Troubleshooting

- **Bed feels wobbly:** Ensure all assembly hardware is securely tightened. Verify that the bed is placed on a level surface.
- **Drawers do not slide smoothly:** Check that the drawer glides are correctly installed and free from obstructions. Ensure the drawers are not overloaded.
- **Parts missing or damaged:** Refer to the 'Warranty and Support' section for contact information.
- **Squeaking noises:** Re-tighten all bolts and screws. If the issue persists, apply a small amount of lubricant to metal-on-metal contact points, if applicable, or consult customer support.
