2. IMPORTANT SAFETY INSTRUCTIONS

- **Heat Source:** This pan is compatible with gas cooktops only. Do not use on induction, electric coil, or ceramic cooktops unless explicitly stated otherwise on the product packaging.
- **Handle Care:** The handle is designed to stay cool during normal use. However, prolonged exposure to high heat may cause it to warm. Always use caution and a pot holder if the handle feels hot.
- **Nonstick Coating:** Avoid using metal utensils as they can damage the nonstick surface. Use only wooden, silicone, or plastic utensils.
- **Overheating:** Do not leave the pan unattended on a hot burner. Overheating can damage the nonstick coating and the pan itself.
- **Lid Handling:** The glass lid can become hot during cooking. Use caution and a pot holder when removing or adjusting the lid.
- **Cleaning:** Allow the pan to cool completely before washing. Refer to the "Care and Maintenance" section for detailed cleaning instructions.

- **Children:** Keep the pan out of reach of children, especially when hot.

3. COMPONENTS INCLUDED

Your Hawkins Nonstick Appe Pan package includes the following items:

- Hawkins Nonstick Appe Pan (1 Unit)
- Glass Lid (1 Unit)
- Wooden Remover (1 Unit)
- Scrubber (1 Unit)
- Cookbook (1 Unit)
- Guarantee Card (1 Unit)

Cook a wide range of Dishes

Chocolate Walnut Muffins

1. Sift, beat and blend to make cake batter.
 2. Heat Appe pan, brush butter in each cup, spoon batter, cover and cook about 5 minutes on each side. Cool and serve.
- (Full recipe in the Cookbook inside the carton)

Image 3.1: Visual representation of the items included in the product carton: the appe pan, glass lid, wooden remover, scrubber, cookbook, and guarantee card.

4. SETUP AND FIRST USE

1. **Unpack:** Carefully remove all components from the packaging. Retain the packaging for future storage or transport if needed.
2. **Initial Cleaning:** Before first use, wash the pan and glass lid thoroughly with warm soapy water using the provided scrubber. Rinse well and dry completely.
3. **Seasoning (Optional but Recommended):** For enhanced nonstick performance and longevity, lightly coat the interior nonstick surface with a thin layer of cooking oil. Heat the pan over low heat for 1-2 minutes, then let it cool and wipe off any excess oil.
4. **Lid Assembly:** Ensure the knob on the glass lid is securely fastened.

5. OPERATING INSTRUCTIONS

5.1 Cooking with the Appe Pan

1. **Preparation:** Ensure the pan is clean and dry. Place it on a stable gas burner.
2. **Preheating:** Heat the pan over medium-low heat for 1-2 minutes. A small amount of oil or butter can be added to each cup for optimal results, especially for the first batch.
3. **Adding Batter:** Pour your appe (paniyaram) batter into each of the 12 cups, filling them approximately two-thirds full.
4. **Cooking:** Cover the pan with the glass lid. Cook for 3-5 minutes on one side, or until the edges appear cooked and the bottom is golden brown.
5. **Flipping:** Using the provided wooden remover or a non-metal skewer, carefully flip each appe to cook the other side. Cover again and cook for another 2-3 minutes, or until evenly cooked and golden.
6. **Serving:** Once cooked, remove the appe from the pan and serve hot.

What's in the Carton

- **Hawkins Nonstick Appe Pan with Glass Lid - Net Qty. 1 Unit**

- **Instruction Manual with tested recipes**

- **Wooden Remover**

5.2 Nonstick Advantage

The Hawkins Nonstick Appe Pan features a PFOA-free German 3-coat nonstick interior, designed for durability and efficient cooking. This coating allows for:

- Cooking with minimal or no oil.
- Easy release of food, preventing sticking.
- Healthier cooking options.
- Simplified cleaning.

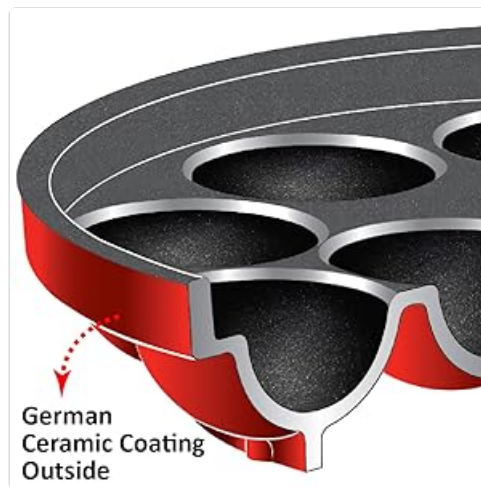

Image 5.2: A cross-section diagram illustrating the PFOA-free nonstick interior coating of the pan.

Image 5.3: Cooked apple in the pan, highlighting the nonstick surface and easy food release.

6. CARE AND MAINTENANCE

- **Cool Down:** Always allow the pan to cool completely before washing to prevent warping and damage to the nonstick coating.
- **Hand Wash Only:** This pan is not dishwasher safe. Hand wash with warm soapy water using a soft sponge or the provided scrubber. Avoid abrasive cleaners or steel wool, which can scratch the nonstick and ceramic coatings.
- **Drying:** Dry the pan thoroughly after washing to prevent water spots and maintain its appearance.
- **Storage:** Store the pan in a dry place. If stacking with other cookware, place a soft cloth or paper towel between pans to protect the nonstick surface.
- **Stain Removal (Exterior):** The outer German ceramic coating is stain-resistant. For stubborn stains, a mild non-abrasive cleaner can be used.

7. TROUBLESHOOTING

| Issue | Possible Cause | Solution |
|-------|----------------|----------|
|-------|----------------|----------|

| Issue | Possible Cause | Solution |
|------------------------------------|--|--|
| Food sticks to the pan. | Insufficient oil/butter, pan not properly seasoned, high heat, damaged nonstick coating. | Ensure a thin layer of oil/butter is used. Re-season the pan. Cook on medium-low heat. Avoid metal utensils. If coating is severely damaged, pan may need replacement. |
| Handle becomes hot during cooking. | Excessively high flame, prolonged cooking at high temperatures. | Ensure flame size is appropriate for the pan's base and does not extend up the sides. Use a pot holder if the handle becomes too hot. |
| Pan warps or deforms. | Sudden temperature changes (e.g., hot pan under cold water), extreme overheating. | Always allow the pan to cool naturally before washing. Avoid leaving the pan empty on high heat for extended periods. |

8. PRODUCT SPECIFICATIONS

| Feature | Detail |
|---------------------------|--|
| Brand | Hawkins |
| Model Name | Hawkins 20cm Die-Cast Appe Pan with Lid, Red (NAPE20G) |
| Material | Die-cast Aluminium (Pan), Glass (Lid), Plastic (Handle) |
