WLIVE Fabric Dresser Instruction Manual

Model: ASNG100LGR

Brand: WLIVE

INTRODUCTION

This instruction manual provides detailed information for the assembly, operation, maintenance, and troubleshooting of your WLIVE Fabric Dresser. Please read this manual thoroughly before assembly and use to ensure proper function and safety.

SETUP AND ASSEMBLY

Your WLIVE Fabric Dresser requires assembly. All necessary tools and detailed instructions are included in the packaging. Please ensure all parts are present before beginning assembly.

Package Contents

Verify that all components listed in the parts diagram are included. If any parts are missing or damaged, please contact customer support.

Assembly Steps

1. **Frame Assembly:** Begin by assembling the steel frame components. Ensure all connections are secure.

Image: A close-up view demonstrating the assembly of the metal frame structure.

2. **Drawer Installation:** Insert the fabric drawers into the designated slots within the frame. Ensure they slide smoothly.

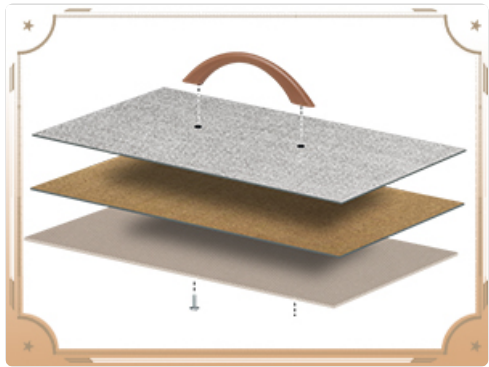

Image: A close-up view showing the construction of a fabric drawer with its base insert.

3. **Top Panel Attachment:** Secure the wooden top panel to the assembled frame.
4. **Adjustable Feet:** Adjust the feet at the base of the dresser to ensure stability on uneven surfaces and to protect your floor from scratches.

Image: A diagram highlighting the adjustable feet for leveling and the anti-tilt device for wall mounting.

5. **Anti-Tipping Device:** For safety, it is highly recommended to install the included anti-tipping device to secure the dresser to a wall. This prevents accidental tipping, especially in households with children or pets.

While an assembly video is referenced in the product description, an official seller-provided video was not available in the provided data. Please refer to the detailed paper instructions included with your product for visual guidance.

OPERATING INSTRUCTIONS

The WLIVE Fabric Dresser is designed for organized storage of various household items, particularly clothing and linens.

Drawer Usage and Capacity

Each fabric drawer is designed to hold lightweight items. Avoid overloading drawers to ensure smooth operation and longevity of the fabric bins.

- Each drawer has a maximum weight capacity of approximately 6.6 lbs (3 kg).
- For clothing, a single drawer can typically hold 12-15 shirts or 7-10 pairs of pants/jeans, depending on thickness and folding method.

Image: A visual representation of the drawer's capacity, indicating a 6.6 lbs weight limit and examples of clothing items it can hold.

Placement and Stability

Place the dresser on a flat, level surface. Utilize the adjustable feet to compensate for any unevenness in the floor, ensuring the dresser remains stable and wobble-free.

MAINTENANCE

Proper care will extend the life and appearance of your WLIVE Fabric Dresser.

Cleaning Instructions

- **Wooden Top:** Wipe the wooden top with a dry cloth to remove dust and spills. Avoid abrasive cleaners or excessive moisture, as the top is water-resistant but not waterproof.
- **Fabric Drawers:** For the fabric drawers, use a dry cloth or a soft brush to remove dust. For minor stains, gently dab with a slightly damp cloth and mild soap, then air dry completely. Do not machine wash or submerge the fabric drawers.
- **Steel Frame:** The steel frame can be wiped clean with a damp cloth. Dry immediately to prevent rust.

General Care

- Regularly check all screws and connections to ensure they remain tight. Retighten if necessary.

- Avoid placing excessively hot or cold items directly on the wooden top without a protective coaster.
- Keep the dresser away from direct sunlight and extreme temperature changes to prevent material degradation.

TROUBLESHOOTING

This section addresses common issues you might encounter with your dresser.

Problem	Possible Cause	Solution
Dresser is wobbly or unstable.	Uneven floor surface; loose connections.	Adjust the leveling feet at the bottom of the dresser. Ensure all screws and bolts are tightened securely.
Drawers do not slide smoothly.	Drawer overloaded; fabric bin misaligned; debris in drawer slot.	Reduce the weight in the drawer. Ensure the fabric bin is correctly inserted and not warped. Check for any obstructions in the drawer slots and remove them.
Dresser appears to lean forward.	Anti-tipping device not installed or improperly installed.	Install the anti-tipping device securely to a wall stud following the instructions in the Setup section.
Fabric drawers are deformed.	Excessive weight or improper storage.	Ensure drawers are not overloaded beyond the 6.6 lbs capacity. Distribute weight evenly.

SPECIFICATIONS

Detailed specifications for the WLIVE Fabric Dresser (Model: ASNG100LGR).

Feature	Detail
Brand	WLIVE
Model Name	ASNG100 Storage Cabinet/LGR
Item Model Number	ASNG100LGR
