PRODUCT OVERVIEW

The Uogic USI 2.0 Stylus Pen is crafted from aviation aluminum alloy, offering a comfortable and durable design. It features intuitive controls and a precise tip for an enhanced digital experience.

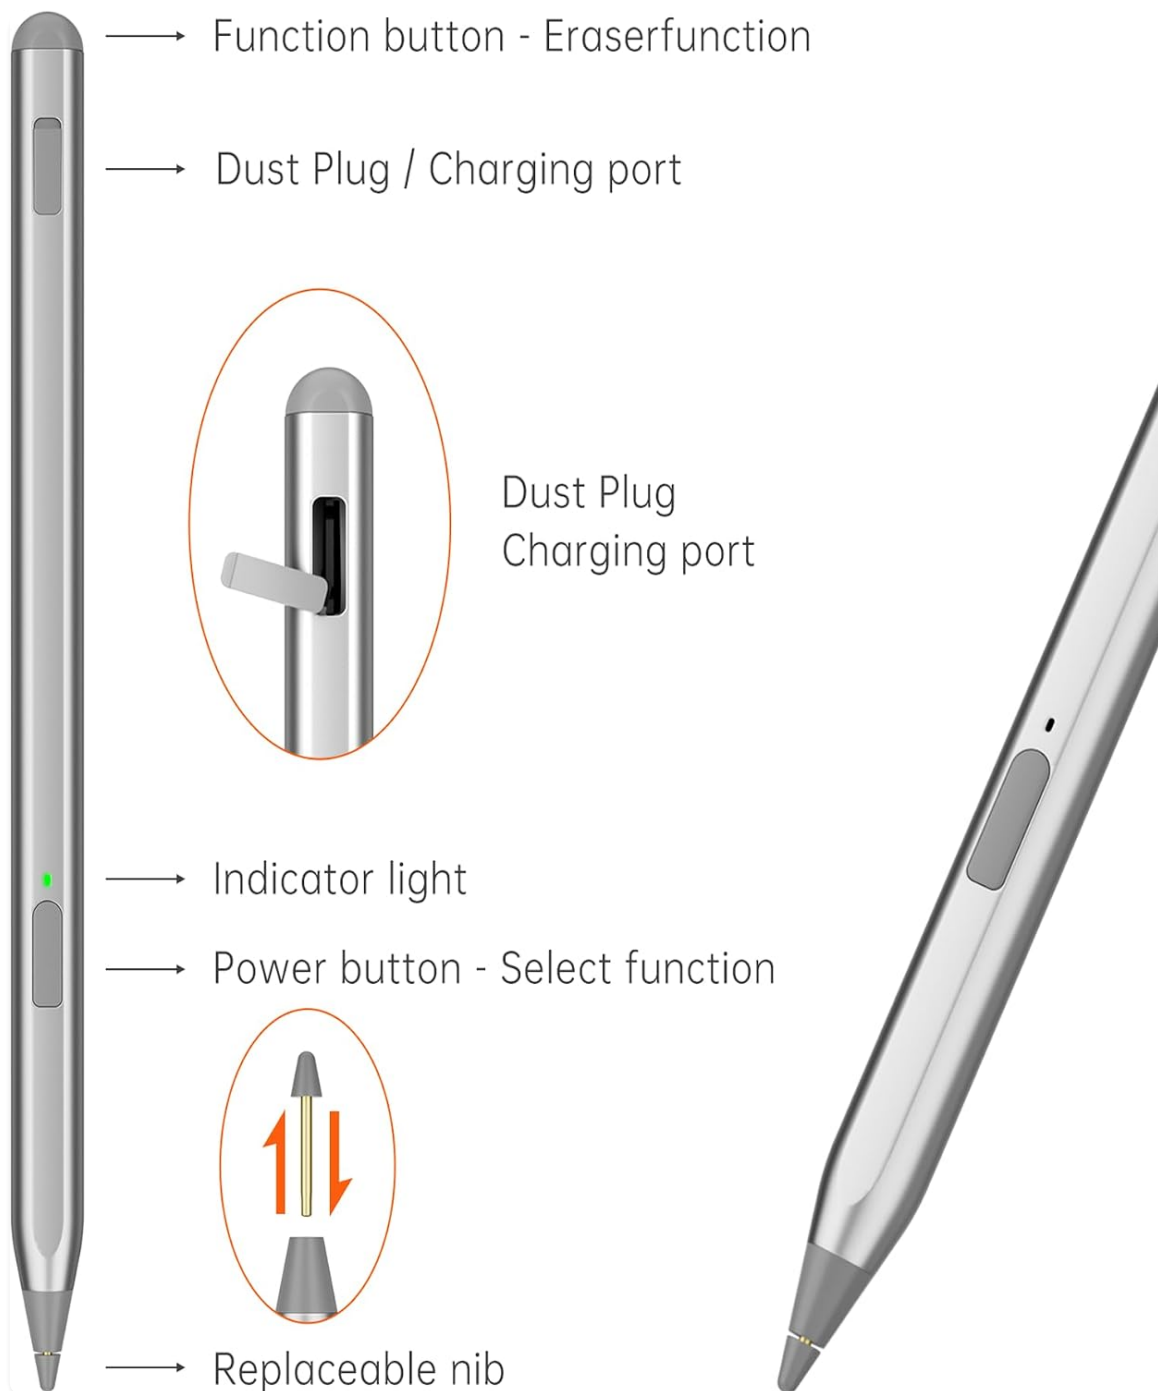

Image: Detailed diagram of the Uogic USI 2.0 Stylus Pen, highlighting its key components including the function button (eraser), dust plug/charging port, indicator light, power button (select function), and replaceable nib.

Key Features:

- **Function Button:** Located on the side, this button typically serves as an eraser function in compatible applications.
- **Power Button:** Also on the side, used for powering the pen on/off and for select functions.
- **USB Type-C Charging Port:** A hidden port with a dust plug for protection, located at the top end of the pen.
- **Indicator Light:** Provides visual feedback on charging status and power-on.
- **Replaceable Nib:** A durable cone-shaped tip designed for strong signal transmission and easy replacement.

SETUP

1. Charging the Stylus

Before first use, charge the stylus for at least 10 minutes. A full charge takes approximately 1 hour and provides up to 110 hours of use.

- Connect the provided USB-C charging cable to the stylus's hidden port (under the dust plug).
- **LED Indicator:**
 - Red light blinks: Charging or low battery.
 - Green light solid: Fully charged.

TILT SENSITIVITY

Perfect for painting and writing with different line thicknesses or shading

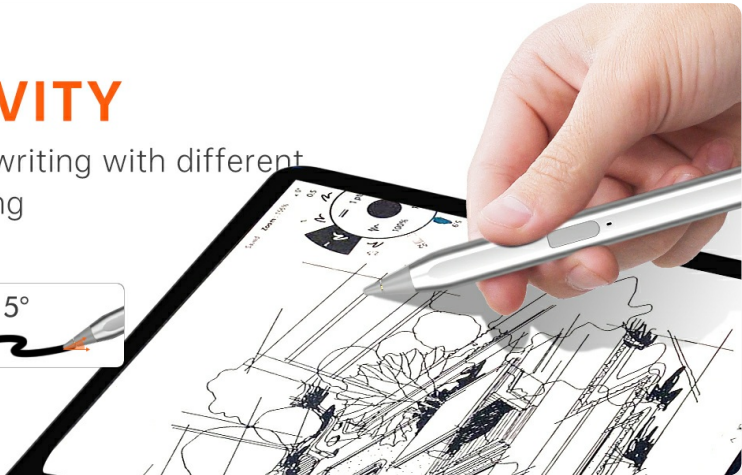

Image: The stylus pen's hidden USB-C charging port, protected by a dust plug, connected to a charging cable.

2. Powering On/Off & Pairing

No Bluetooth pairing or app is needed. The stylus automatically connects to compatible devices.

- **Power On:** Press the power button once. The green indicator light will illuminate for 3 seconds and then turn off.
- **Smart Standby:** The pen will wake up automatically when picked up after a short period of inactivity.
- **Auto Sleep:** The stylus enters sleep mode after 5 minutes of inactivity. Press any button to wake it.
- **Auto Shutdown:** If inactive for 45 minutes, the stylus will shut down. Press the power button to restart.

OPERATING INSTRUCTIONS

1. Palm Rejection

Write or draw naturally on your screen without worrying about accidental marks from your palm. The stylus features integrated palm rejection technology.

PALM REJECTION

Place your hand naturally on the screen for a comfortable user experience

No Gloves Required

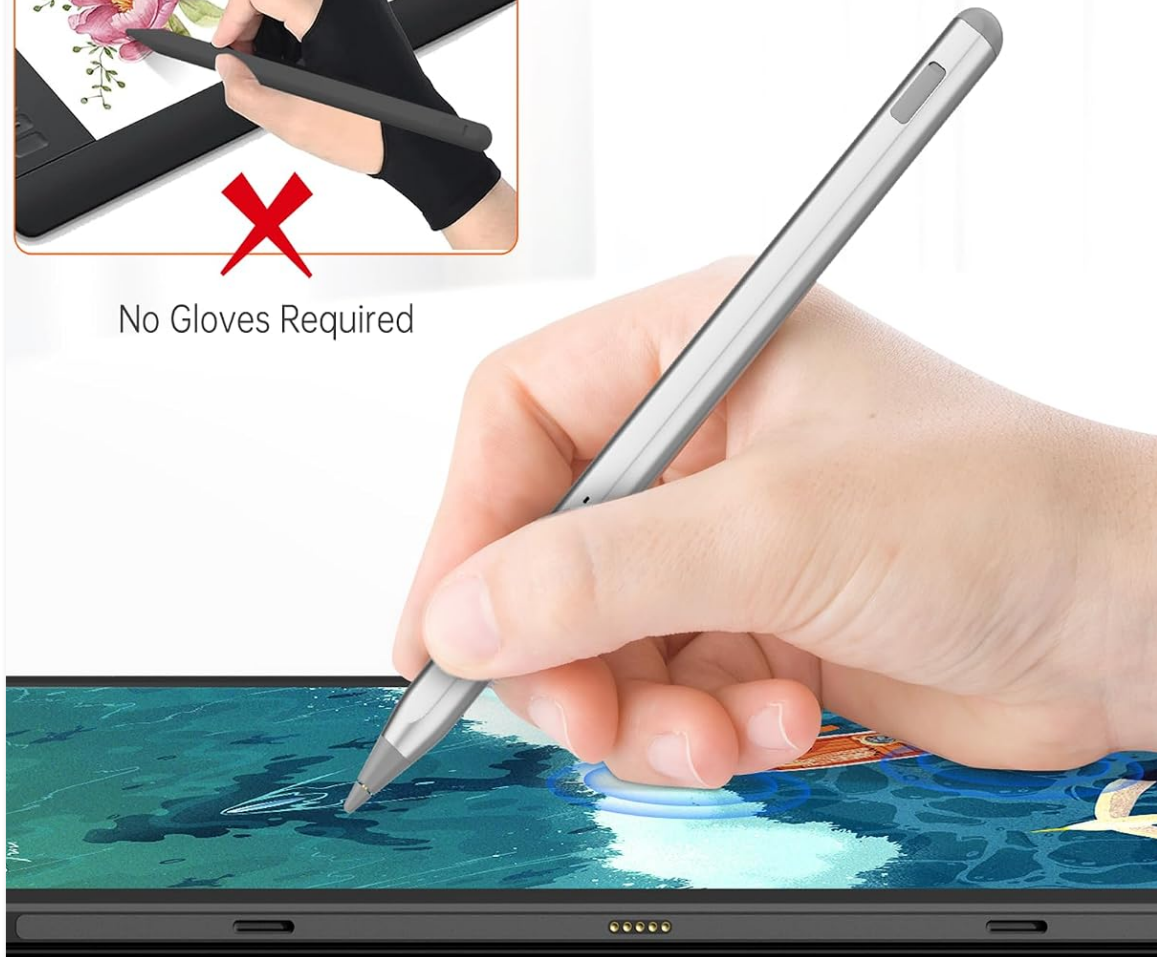

Image: A user's hand resting on a tablet screen while writing with the stylus, illustrating effective palm rejection without requiring gloves.

2. Pressure Sensitivity

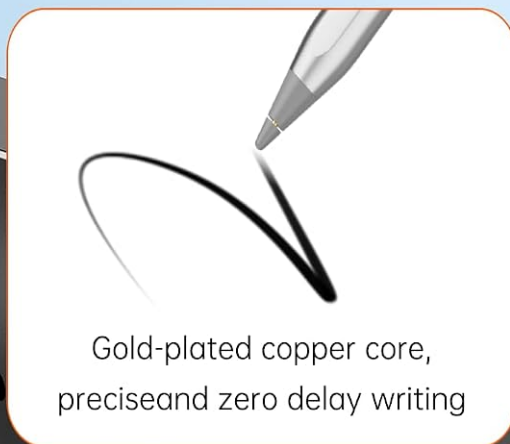

Experience precise control with 4096 levels of pressure sensitivity. This allows for varied line thicknesses and shading, ideal for sketching, note-taking, and detailed artwork.

4096 Pressure

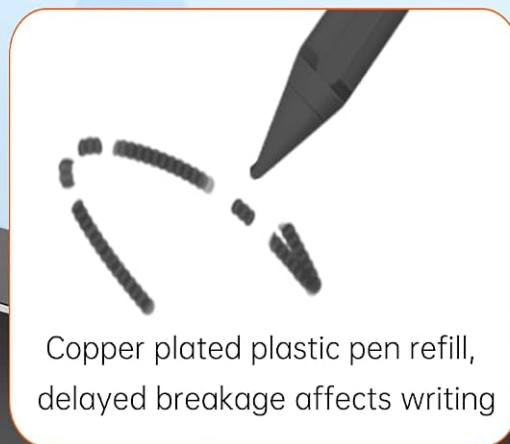

Pressure level that responds to the lightest touch

Replaceable Nib

Gold-plated copper core, precise and zero delay writing

Copper plated plastic pen refill, delayed breakage affects writing

MAINTENANCE

Replacing the Nib

The stylus nib is replaceable to ensure continued precision and responsiveness. Use the provided nib extractor tool to carefully remove the old nib and insert a new one.

COMFORTABLE IN THE HAND

The pen body is made of aviation aluminum, comfortable to touch

Image: Instructions for replacing the stylus nib, showing the nib extractor tool in use.

TROUBLESHOOTING

• Stylus not responding:

- Ensure the stylus is powered on (press the power button).
- Check battery level. If low, charge the stylus.
- Verify device compatibility (refer to the Compatibility section).

• Charging issues:

- Ensure the USB-C cable is securely connected to both the stylus and a power source.
- Try a different USB-C cable or power adapter.
- Confirm the charging port is free of debris.

• Inaccurate or delayed input:

- Ensure the nib is securely attached and not worn. Replace if necessary.
- Restart your tablet and the stylus.
