FELICON X3

FELICON Wireless Lightweight Gaming Mouse X3

INSTRUCTION MANUAL

1. Introduction

Thank you for choosing the FELICON Wireless Lightweight Gaming Mouse X3. This manual provides detailed instructions for setting up, operating, and maintaining your new mouse. Please read this manual thoroughly before use to ensure optimal performance and longevity of your device.

2. Package Contents

Verify that all items are present in your package:

- 1 x FELICON Wireless Lightweight Gaming Mouse X3 (White)
- 1 x USB Receiver (stored in the mouse's bottom slot)
- 1 x Charging Cable

3. Product Overview

The FELICON X3 mouse features a lightweight honeycomb shell design for enhanced comfort and heat dissipation. It includes multiple programmable buttons and customizable RGB backlighting.

Image 3.1: Mouse Button Layout. This image illustrates the various buttons on the mouse, including the left button, right button, scroll wheel, DPI button, forward button, and backward button. It also shows the power switch and RGB backlight control switch located on the underside of the mouse.

Image 3.2: Mouse Design Details. This image provides close-up views of key design elements: the honeycomb shell for reduced weight and ventilation, comfortable scroll wheel, widened side buttons for improved ergonomics, and the integrated RGB light ring bar.

Button Functions:

- **Left Button:** Primary click function.
- **Right Button:** Secondary click function.
- **Scroll Wheel:** Scroll up/down, middle click.
- **DPI Button:** Adjusts mouse sensitivity (DPI).
- **Forward Button:** Navigates forward in web browsers/applications.
- **Backward Button:** Navigates backward in web browsers/applications.
- **Power ON/OFF Switch (Bottom):** Turns the mouse on or off.
- **RGB Backlight Control Switch (Bottom):** Controls the RGB lighting.

4. Setup

Connecting the USB Receiver:

1. Locate the USB receiver. It is stored in a slot on the bottom of the mouse.
2. Remove the USB receiver from its storage slot.
3. Turn on the mouse using the power switch located on the bottom.
4. Plug the Nano USB receiver into an available USB port on your computer (PC or Mac).
5. The computer will automatically detect and install the necessary drivers. No additional software installation is required.

Note: The wireless connection distance should not exceed 10 meters (approximately 33 feet) for optimal performance.

Image 4.1: 2.4G Wireless Connection. This image demonstrates the mouse's 2.4G wireless technology, showing the USB receiver plugged into a laptop, enabling wireless operation of the mouse.

Image 4.2: USB Receiver Location. This image highlights the precise location of the USB receiver, which is securely stored in a dedicated slot on the underside of the mouse for convenience and portability.

5. Operating Instructions

General Usage:

Once connected, the mouse is ready for use. Move the mouse to control the cursor on your screen. Use the left and right buttons for clicking, and the scroll wheel for navigation.

DPI Adjustment:

The mouse features adjustable DPI (Dots Per Inch) settings, allowing you to change the cursor sensitivity. Press the **DPI button** (located behind the scroll wheel) to cycle through the available DPI levels:

- 1200 DPI
- 1800 DPI
- 2400 DPI

Image 5.1: Adjustable DPI Settings. This image visually represents the three distinct DPI settings (1200, 1800, 2400) that can be cycled through using the dedicated DPI button, allowing users to customize cursor speed and precision.

RGB Backlight Control:

The mouse is equipped with 16 RGB LED lamps, offering multiple backlight effects. To control the RGB lighting:

- Press the **right button on the bottom** of the mouse to switch between 4 different chroma backlight modes.
- To turn off the backlight, adjust the **bottom left switch** to the middle position between "Off" and "ON".

Image 5.2: RGB Backlight. This image showcases the vibrant rainbow RGB backlighting capabilities of the mouse, illustrating the dynamic color effects that can be activated during use.

6. Charging

The FELICON X3 mouse has a built-in 800mAh rechargeable battery. When the battery is low, the mouse's response may slow down or it may function improperly. To charge the mouse:

- Connect the provided charging cable to the mouse's charging port.
- Plug the other end of the charging cable into a USB power source (e.g., computer USB port, USB wall adapter).
- The mouse can be used while charging.

7. Power Saving Mode

To conserve battery life, the mouse will automatically enter sleep mode if there is no operation for 5 minutes. To wake the mouse from sleep mode, simply press any button.

8. Compatibility

The FELICON Wireless Lightweight Gaming Mouse X3 is compatible with a wide range of operating systems and devices:

- **Supported Operating Systems:** Windows 98/2000/ME/NT/XP/VISTA/7/8/10/11, MAC OS.
- **Compatible Devices:** PC, Notebook, Laptop, Computer, Desktop, Macbook, and any other device with an available USB port.

9. Troubleshooting

- **Mouse Response is Slow or Not Working Properly:**
  This issue is often caused by a low battery. Charge the mouse using the provided charging cable. Ensure the mouse is turned on and the USB receiver is securely plugged into your computer.
- **Mouse Enters Sleep Mode Frequently:**
  This is a normal power-saving feature. The mouse will enter sleep mode after 5 minutes of inactivity. Press any button to wake it up.
- **No Driver or Software Detected:**
  This mouse does not require any specific drivers or software installation. It is plug-and-play compatible with supported operating systems.
- **Connection Issues:**
  Ensure the USB receiver is within 10 meters (33 feet) of the mouse. Obstructions or other wireless devices may interfere with the signal. Try plugging the receiver into a different USB port.

10. Specifications

Model:	X3 (Item Model Number: TD-MICEWHITERGB)
Connection:	2.4G Wireless Transmission
Number of Buttons:	6 buttons + 1 power switch + 1 RGB backlight control switch
DPI Levels:	1200 / 1800 / 2400
Battery Capacity:	800mAh (Rechargeable)
