### Cleaning:

To clean the remote control, gently wipe its surface with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, followed by a dry cloth. Avoid using abrasive cleaners, solvents, or excessive moisture, as these can damage the remote.

## TROUBLESHOOTING

- **Remote Control Not Responding:**
  - Check if the batteries are correctly inserted with the correct polarity.
  - Replace old batteries with new ones.
  - Ensure there is a clear line of sight between the remote control and the TV's infrared receiver. Remove any obstructions.
  - Confirm that the remote control is pointed directly at the TV.
- **Limited Operating Range:**
  - This usually indicates low battery power. Replace the batteries.
  - Ensure no strong light sources (like direct sunlight or bright fluorescent lights) are interfering with the infrared signal.

  - Verify that your Toshiba TV model is listed as compatible with the CT-90405 remote control.
