SAFETY INFORMATION

WARNING: To reduce the risk of burns, electrocution, fire, or injury to persons:

- Always unplug the appliance immediately after using.
- Do not use while bathing or in a shower.
- Do not place or store appliance where it can fall or be pulled into a tub or sink.
- Do not place in or drop into water or other liquid.
- If an appliance falls into water, unplug it immediately. Do not reach into the water.
- This appliance is hot when in use. Do not let eyes or bare skin touch heated surfaces.
- Never use while sleeping.
- Never drop or insert any object into any opening.
- Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
- Do not use an extension cord with this appliance.
- Do not direct hot air towards eyes or other heat-sensitive areas.
- The appliance may be extremely hot during use. Avoid direct contact with skin.

- Always allow the appliance to cool down completely before storing.
- Keep out of reach of children.

Refer to the product manual included with the item for all safety warnings.

PRODUCT FEATURES

- **1-1/2" 24K Gold Barrel:** Provides consistent heat distribution for uniform and long-lasting curls.
- **Digital Temperature Display:** Offers maximum styling accuracy with variable heat settings.
- **Variable Heat Settings:** Reaches up to 450°F (232°C) to suit all hair types.
- **Patented Pulse Technology:** Senses heat loss and restores it immediately, ensuring consistent heat for every curl.
- **2-Hour Automatic Shut-Off:** Enhances safety by turning off the iron after two hours of inactivity.
- **Universal Dual Voltage:** Ideal for international travel, automatically adjusts to the correct voltage.
- **8 ft Professional Swivel Cord:** Provides flexibility and ease of use, preventing tangles.
- **Ergonomic, Soft-Touch Finish:** Ensures a comfortable grip during styling.
- **Foldaway Safety Stand:** Allows for safe placement of the hot iron during and after use.

SETUP

1. Unpack the curling iron and remove all packaging materials.
2. Ensure the curling iron is clean and free from any debris.
3. Place the curling iron on a heat-resistant surface, utilizing the foldaway safety stand.
4. Plug the 8 ft swivel cord into a standard electrical outlet. The universal dual voltage feature will automatically adapt to the local voltage when traveling.

OPERATING INSTRUCTIONS

Before styling, ensure your hair is clean, dry, and detangled. For best results and heat protection, apply a heat protectant spray to your hair.

1. **Power On:** Locate the ON/OFF switch on the handle and slide it to the 'ON' position. The digital display will illuminate.
2. **Set Temperature:** Use the temperature control dial to select your desired heat setting. The digital display will show the temperature, which can range up to 450°F (232°C). Allow a few moments for the iron to reach the selected temperature.
3. **Section Hair:** Divide your hair into manageable sections, typically 1-2 inches wide, depending on the desired curl size.
4. **Curl Hair:** Open the clamp, place a section of hair between the barrel and the clamp, close the clamp, and wrap the hair around the barrel, away from your face. Hold for a few seconds (the exact time depends on your hair type and desired curl intensity).
5. **Release Curl:** Gently open the clamp and release the curled section of hair. For longer-lasting curls, allow the curl to cool completely before touching or brushing.
6. **Repeat:** Continue curling all sections of your hair.
7. **Power Off:** Once finished, slide the ON/OFF switch to the 'OFF' position and unplug the appliance from the outlet.

24K GOLD SURFACE
CREATES CONSISTENT HEAT
TEMPERATURE UP TO 450°F

MAINTENANCE

1. **Cleaning:** Ensure the curling iron is unplugged and completely cool before cleaning. Wipe the barrel

and handle with a soft, damp cloth. Do not use abrasive cleaners or immerse the appliance in water.

- 2. **Storage:** Store the curling iron in a cool, dry place. Do not wrap the cord around the appliance, as this can cause wear and damage. Hang it by the swivel cord loop if available.
- 3. **Cord Care:** Regularly inspect the power cord for any signs of damage. If the cord is damaged, do not use the appliance and contact customer service.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Curling iron does not heat up.	Not plugged in, power switch off, or power outlet issue.	Ensure the iron is securely plugged into a working outlet and the power switch is in the 'ON' position. Check the circuit breaker.
Curls do not hold.	Temperature too low, hair not fully dry, or sections too large.	Increase the temperature setting. Ensure hair is completely dry. Use smaller sections of hair. Allow curls to cool before styling.
Hair gets snagged.	Hair is tangled or product buildup on the barrel.	Ensure hair is thoroughly detangled before curling. Clean the barrel regularly to remove product residue.
Iron automatically shuts off.	2-hour automatic shut-off feature activated.	This is a safety feature. Turn the iron off and then back on to resume use.
